*Wedding Bush Road* David Francis,2017-12-05 A young lawyer in Los Angeles is called back to his family's farm in rural Australia and plunged into a complex struggle between past and present, town and country, and the secrets that haunt them all. When he learns of his mother's ailing health, Daniel Rawson must leave Los Angeles and travel half a world away to the family's horse farm on Wedding Bush Road, one hundred miles outside of Melbourne. Estranged from his parents, Daniel is hesitant to revisit their history: long divorced, his mother still maintains the farm having put out her cheating, rakish husband, and even in these later years her anger burns brightly. Daniel arrives at the farm in the heat of his parents' conflict with Sharen, an alluring tenant and ex-lover of his father now perched on family land. Sharen and her unstable son Reggie complicate an already difficult family dynamic while Daniel has to tend to his mother's condition, his father's contentious behavior, and the swell of memory that strikes whenever he visits the farm. As Daniel is increasingly drawn to Sharen, the various tensions across the farm will spark events that cannot help but change them all.

*Hollywood or History?* Scott L. Roberts,Charles J. Elfer,2021-01-01 The challenges of teaching history are acute where we consider the world history classroom. Generalized world history courses are a part of many, if not most, K-12 curricular frameworks in the United States. While United States history tends to dominate the scholarship and conversation, there are an equally wide number of middle-level and secondary students and teachers engaged in the study of world history in our public schools. And the challenges are real. In the first place, if we are to mark content coverage as a curricular obstacle in the history classroom, generally, then we must underscore that concern in the world history classroom and for obvious reasons. The curricular terrain to choose from is immense and forever expanding, dealing with the development of numerous civilizations over millennia and across a wide geographic expanse. In addition to curricular concerns, world historical topics are inherently farther away from most students' lives, not just temporally, but often geographically and culturally. Thus the rationale for the present text, *Hollywood or History? An Inquiry-Based Strategy for Using Film to Teach World History*. The reviews of the first volume *Hollywood or History? An Inquiry-Based Strategy for Using Film to Teach United States History* strategy have been overwhelmingly positive, especially as it pertains to the application of the strategy for practitioner. Classroom utility and teacher practice have remained our primary objectives in developing the *Hollywood or History?* strategy and we are encouraged by the possibilities of Volume II and the capacity of this most recent text to impact teaching and learning in world history. We believe that students' connection to film, along with teachers' ability to use film in an effective manner, will help alleviate some of the challenges of teaching world history. The book provides 30 secondary lesson plans (grades 6-12) that address nine eras in world history.

*A False Sense of Well Being* Jeanne Braselton,2008-12-10 "I was married eleven years before I started imagining how different life could be if my husband were dead. . . ." At thirty-eight, Jessie Maddox subscribes to House Beautiful, Southern Living, even Psychology Today. She has a comfortable life in Glenville, Georgia, with Turner, the most reliable, responsible husband in the world. But after the storybook romance, "happily ever after" never came. Now the housewife who once wanted to be Martha Stewart before there was a Martha Stewart is left to wonder: Where did the marriage go wrong? Why can't she stop picturing herself as the perfect grieving widow? As Jessie dives headlong into her midlife crisis, she is aided and abetted by a colorful cast of characters in the true Southern tradition: her best friend and next door neighbor Donna, who is having a wild adulterous affair with a younger man; Wanda McNab, the sweater-knitting, cookie-baking grandmother who is charged with killing her abusive husband. Then there's Jessie's eccentric family. Her younger sister Ellen, born to be a guest on Jerry Springer, has taken her seven-year-old son and squawking pet birds and left her husband "for good this time" . . . while their mother crosses the dirty words out of library books and alerts everyone to the wonderful bargains at Winn-Dixie, often at the same time. And then there's the stuffed green headless duck . . . When a trip home to the small town of her childhood raises more questions than it answers, Jessie is forced to face the startling truth head-on-and confront the tragedy that has shadowed her heart and shaken her faith in love . . . and the future. From a brilliant new voice in fiction, here is a darkly comic novel full of revelation and insight. The danger of secrets and the power of confession . . . The pull of family, no matter how crazy. . . The fate of wedlock when one can't find the key . . . Jeanne Braselton weaves these potent themes into a funny, poignant, utterly engaging story of a woman at the crossroads--and the unforgettable journey she must take to get back home.

**The Withered** Amy Miles,2017-01-10 I always thought when the apocalypse finally began I would be swinging my baseball bat at the zombies with the best of them. I was prepped and ready to smash in some undead heads if the need ever arose. The problem is—no one ever warned me that I would have to dread the humans even more. The ones who still remember their names and how to put a gun to your temple when they want something. Do not fear the Withered Ones. Fear the ones still human. This is an omnibus edition featuring the first three books in The Withered series: Wither, Resurrect and Affliction. Wither After an epidemic swept across the nation, the government foolishly rushed the creation of a vaccine—but what was meant to bring salvation instead brought damnation. Human mutations birthed a new species, but Avery Whitlock soon learned that the top threat against her survival was not the Withered Ones—but the ones still human. Resurrect After enduring a kidnapping, brutal gang attacks and the death of the man she loved, Avery Whitlock believed she could survive anything—until she discovered that she was being hunted. The Withered had mutated and she had reason to believe that evolution couldn't be stopped—especially when it was genetically engineered. Affliction No longer fully human, but unwilling to accept her fate as a flesh-eating zombie, Avery Whitlock abandoned the only place she could call home in order to save the man she loved from herself. Driven to prevent anyone else from suffering her fate, she stalked the doctor's responsible for the mutations—but with each life she took, her cravings amplified and her grip on humanity slipped.
