Human-Harmonized Information Technology, Volume 2 Toyoaki Nishida, 2017-04-20 Going from the philosophy and concepts to the implementation and user study, this book presents an excellent overview of Japan's contemporary technical challenges in the field of human-computer interaction. The next information era will be one in which information is used to cultivate human and social potential. Driven by this vision, the outcomes provided in this work were accomplished as challenges to establish basic technologies for achieving harmony between human beings and the information environment by integrating element technologies including real-space communication, human interfaces, and media processing. Ranging from the neuro-cognitive level to the field trial, the research activities integrated novel perceptual technologies that even exceed human ability to sense, capture, and affect the real world. This book grew out of one of the CREST research areas funded by the Japan Science and Technology Agency. The theme of the project is "the creation of human-harmonized information technology for convivial society", where 17 research teams aimed at a common goal. The project promotes a trans-disciplinary approach featuring (1) recognition and comprehension of human behaviors and real-space contexts by utilizing sensor networks and ubiquitous computing, (2) technologies for facilitating man-machine communication by utilizing robots and ubiquitous networks, and (3) content technologies for analyzing, mining, integrating, and structuring multimedia data including those in text, voice, music, and images. This is the second of two volumes, which is contributed by eight team leaders. Besides describing the technical challenges, each contribution lays much weight on discussing the philosophy, concepts, and the implications underlying the project. This work will provide researchers and practitioners in the related areas with an excellent opportunity to find interesting new developments and to think about the relationship between human and information technology.

*Cultural Tourism* Hilary du Cros,Bob McKercher,2020-04-19 Cultural Tourism remains the only book to bridge the gap between cultural tourism and cultural and heritage management. The first edition illustrated how heritage and tourism goals can be integrated in a management and marketing framework to produce sustainable cultural tourism. The current edition takes this further to base the discussion of cultural tourism in the theory and practice of cultural and heritage management (CM and CHM), under the understanding that for tourism to thrive, a balanced approach to the resource base it uses must be maintained. An 'umbrella approach' to cultural tourism represents a unique feature of the book, proposing solutions to achieve an optimal outcome for all sectors. Reflecting the many important developments in the field this new edition has been completely revised and updated in the following ways: New content on increasingly relevant topics including sustainability, climate change, the threat of de-globalization, overtourism and social media. New sections on experience creation, accessibility and inclusivity, as well as expanded material on creative industries and new management challenges. New international case studies and tried-and-tested assignment exercises have been added to every chapter. Written by experts in both tourism and cultural heritage management, this book will enable professionals and students to gain a better understanding of their own and each other's roles in achieving sustainable cultural tourism. It provides a blueprint for producing top-quality, long-term cultural tourism products.

*Corporate Social Responsibility – Sustainable Business* Rae Lindsay,Roger Martella,2020-06-17 In a dramatic departure from its voluntary origins, corporate social responsibility (CSR) is rapidly shifting to hold multinational companies accountable for more than traditional shareholder performance. This CSR movement is embracing new environmental, social and governance (ESG) frameworks that both promote global sustainability goals and enhance accountability for negative impacts businesses can have on 'planet and people'. This collection of essays by leading businesspeople, international civil servants, legal practitioners, academics, and other experts offers a forward-looking and pragmatic perspective that illuminates the major themes in this movement towards increasingly sustainable, transparent and accountable business practices. The collection shows how CSR has evolved to account for societal pressures, environmental, climate change and human rights impacts, international policy imperatives and the practical challenges of regulating commercial activity that transcends borders. The chapters offer an in-depth examination of current issues including: international frameworks and multistakeholder initiatives catalysing foundational change; the shifting emphasis on corporate imperatives to avoid harm to third parties; trends in CSR, focused on assuring the planet's future sustainability and social stability; regulatory initiatives around the globe, including Europe, North America, Asia and Africa; and extended accountability for activities of corporate group members and supply chains. The pressure and business case for companies to incorporate CSR into corporate governance is intensifying with each quarter, shareholder meeting, and regulatory agenda. The integration of CSR and new ESG frameworks into multinational corporate strategy and operations is key to sustainable business models that can generate long-term value

for the organization and all stakeholders. Their acceptance as cornerstones of 21st century business practice appears inevitable. Taking full account of the imperative for companies and their lawyers to grapple with the practical and legal challenges in this area, this volume is an invaluable and pragmatic addition to the practitioners' toolbox at this important juncture in an ever-more dynamic field.

**Recognition and Enforcement of Foreign Arbitral Awards in Russia and Former USSR States** Roman Zykov, 2021-04-22 The 15 sovereign states that emerged from the dissolution of the Union of Soviet Socialist Republics (USSR) in 1991, having all adopted the New York Convention on the Recognition and Enforcement of Foreign Arbitral Awards, today are drawing increasing attention from international law firms and global arbitral institutions. This book, compiled under the editorship of the Secretary General of the Russian Arbitration Association, is the first full-scale commentary in English on the application of the New York Convention in Russia and the other 14 former USSR states, with attention also to the various relevant national laws and procedures. A total of 71 contributors, all leading experts on arbitration and litigation in the covered jurisdictions, provide in-depth research encompassing the following approaches: article-by-article commentary on the New York Convention with emphasis on the practice of Russian state commercial (arbitrazh) courts; commentary on the relevant provisions of the Russian International Commercial Arbitration Law and the Code of Commercial Procedure; analysis of law and practice on setting aside, recognition, and enforcement of arbitral awards in all non-Russian former USSR states, state by state, written by experts in each jurisdiction; and a unique statistical study of all international commercial arbitration cases under the New York Convention conducted in Russia between 2008 and 2019, showing which grounds of the New York Convention are widely used by the Russian courts in different instances. With this detailed information, practitioners will be able to understand how judicial developments in the covered jurisdictions have impacted the enforceability of arbitral awards, and how parties can take steps to ensure that they secure enforceable awards. In addition, they will clearly discern the enforcement track record for arbitral awards in Russia and former USSR states and how each jurisdiction treats enforcement applications, greatly clarifying decisions on choices by parties and determination of seat of arbitration. Because this book makes arbitration law and procedure in Russia and the former USSR states accessible for the first time in English – thus assisting evaluation of prospects of enforcing foreign arbitral awards in that part of the world – it will be warmly welcomed by in-house counsel, arbitrators, arbitral institutes, judges, researchers, and academics focused on international arbitration.

*Surviving in the Field of International Arbitration: War Stories and Lessons Learned* José María de la Jara, Carolina Arroyo, Álvaro Awad, 2020-09-29 For young lawyers and students contemplating a career in international arbitration, understanding what it takes to be successful in the field can seem hidden and mysterious. Here is a book that, in a thoroughly engaging way, unlocks the black box and democratizes access to advice and information via short personal chapters by leading practitioners. Each chapter appears in both English and Spanish. Over forty of the most renowned names in arbitration worldwide offer reflections on life as an arbitration practitioner, highlighting such career opportunities and potential stumbling blocks as the following: balancing work and life; managing coexistence challenges in firms (e.g., the rat race, bullying, burnout, discrimination); preparing for a job interview; promoting disruptive innovation; arbitrating for the State; participating in deliberations; writing arbitral awards; handling dissenting opinions; and developing a personal brand. The authors' exploration of everything from academic work and practical experiences to how they have managed personal pressures will be greatly appreciated by all who seek to thrive in the arbitration market, whether in practice or academia. As an extraordinary compilation about what happens behind the scenes in the international arbitration world, this book will

quickly become an essential consultation resource illuminating what it takes to succeed in the field and how best to achieve a meaningful and rewarding career. Its personal success stories reveal what practice in this area of law actually looks like and brilliantly demonstrate ways to foster career development.

*A Guide to the ICDR International Arbitration Rules* Martin F. Gusy, James M. Hosking, Franz T. Schwarz, 2011-04-07 A rule-by-rule commentary on the genesis, interpretation and application of the International Centre for Dispute Resolution (ICDR) Rules. The book is designed to give arbitrators, practitioners and academics a first port of call when considering ICDR arbitration, and provide the first stand-alone comprehensive commentary on these important rules.

*The International Baccalaureate Diploma Program and the School Library* Anthony Tilke, 2011-03-11 This book, a blend of practice and theory, shows how the school library can contribute to the success of the International Baccalaureate Diploma Program. Written for librarians in schools that are applying to offer the program as well as those who already work with it, The International Baccalaureate Diploma Program and

the School Library: Inquiry-Based Education provides information and strategies specifically relating libraries to the IBDP. The guide includes information about the IBDP ranging from the subject matrix to unique aspects of the program, such as the Theory of Knowledge course, the Extended Essay requirement, and the Learner Profile. The book also discusses other important features of IB programs, such as internationalism and academic honesty. Finally, it blends theory and practice by providing details and findings from the only two-year research study to follow students and teachers through the IBDP. The study demonstrates the role of the school library in the program, showing how both students and teachers used and valued it. Each chapter concludes with a series of points or strategies for the librarian to reflect upon and/or use as the basis of action.
