[Growing Strong, Growing Apart](#) Eyal Robinson,2024-04-01 Since its establishment, NATO has admitted a variety of new members in several enlargement rounds, even though some of these countries fall short of the organizational expectations of democracy—as stipulated in an elaborate scheme of texts, speeches, and statements. Growing Strong, Growing Apart maintains that this policy results from gradual erosion in the prominence of democratic discourse within the organization, normalizing deviations from previous optimistic expectations that became increasingly unsustainable after the end of the Cold War. Eyal Robinson's analysis of NATO's conduct in this regard builds on archival research and interviews with NATO officials and senior member states' representatives. He discusses this theme in depth through detailed case studies, each covering a different period, emphasizing the place of cognitive processes in international organizations' decision-making.
