**Self-Realization and Other Awakenings** Ed Muzika,2013-02-01 Ed Muzika received his Ph.D. in Psychology during 1987 after having spent 12 years as a Zen monk under six Zen masters, and a two year stint with Baba Muktananda. In 1989 he met his Advaita teachers: Robert Adams, a student of Ramana Maharshi, and Jean Dunn, successor to Nisargadatta; both were highly instrumental for his own awakening. Ed went on to develop his own style of teaching, which is more personal, more about bringing God, the Self-Transcendent, back into everyday life, loving relationships, and helping all sentient beings through compassionate action. This book is about the practical aspects of attaining Self-Realization, an awakening as to all that YOU are by getting rid of all of the concepts, habits, conventions and conditioning that blind you to the greater YOU. To become the Self that you are you have to become naked and unknowing. Can you walk with me into Nothingness to discover the miracle you really are?

**11 Immutable Laws of Internet Branding** Al Ries, Laura Ries, 2003-02 Bestselling marketing guru Al Ries and his daughter and partner Laura divulge the revolutionary strategies needed to successfully build your company, product or service into a profitable brand using the internet. The Internet is the first major new communication medium to be introduced since television and businesses ignore it at their peril. If the Internet is going to take its place alongside the other major media it will be because it exploits a powerful new attribute - interactivity. The Internet will make traditional forms of branding, such as conventional advertising, redundant. In order to succeed in branding on the net, the message to customers must be interactive. Al and Laura Ries examine this dilemma and explain how their other revolutionary principles can help your company to build a brand on the net. Like the 22 Immutable Laws of Marketing and the 22 Immutable Laws of Branding, this will be a smart snappy read full of practical advice and marketing savvy. The authors will use anecdotes from their own consulting business with top companies to illustrate how Internet branding really works.

**References no. 12912-14765 / ABD-ZUR** J. Pospíšilová, J. Solárová, 2012-12-06 The tenth volume of Water-in-Plants Bibliography includes papers in all fields of plant water relations research which appeared during the year 1984 - from theoretical considerations about the state of water in cells

Is and its membrane transport to drought resistance of plants or physiological significance of irrigation. In addition to papers devoted entirely to plant water relations, papers on other topics are included if they contain data on plant hydration level, water vapour efflux, rate of water uptake or water transport, etc., or if they contain valuable methodological information (measurement of selected microclimatic factors, soil moisture etc.). We have tried to cover fully the relevant papers which have been published in important scientific periodicals and books. Articles appeared in local journals, mimeographed booklets, abstracts of thesis and of symposia contributions, etc., were chosen mostly from reprints received directly from authors. The courtesy of those is highly appreciated. The manuscript is usually prepared in May and June of the year following the year which it covers. Unfortunately some reprints come later and thus the respective references appear in the following volume, with one year delay. To maximize the value of the bibliography the references are arranged alphabetically according to the authors' names, and each volume is provided with three indexes.
