📖 **WARHOL-ISMS** ANDY WARHOL,2022-05-10 A unique collection of brilliant quotations from the legendary Pop artist One of the most influential artists of his time and ours, Andy Warhol is nearly as renowned for what he said as for what he did. Indeed, he is so quotable that things he never said are endlessly and plausibly attributed to him, including, fittingly, the most celebrated fake Warhol saying—"In the future, everyone will be world-famous for 15 minutes." Warhol-isms separates legend from fact to present a unique and comprehensive collection of authentic quotations from the Pop artist. Gathered from interviews and other primary sources, these deadpan, droll, ironic, and sincere gems—in which a superficial embrace of superficiality often disguises provocative, unconventional ideas—provide compelling insights into the life and work of an artist who has left an indelible mark on art and popular culture. Select quotations from the book: I think an artist is anybody who does something well.I went to [a psychiatrist] once, and he never called me back.They always say that time changes things, but you actually have to change them yourself.I've never met a person I couldn't call a beauty.New things are always better than old things.I'm still a commercial artist. I was always a commercial artist.

📖 **WACKY WAVING INFLATABLE TUBE GUY** CONOR RIORDAN,2018-10-02 The very first of its kind, this miniature Wacky Waving Inflatable Tube Guy is the perfect desktop companion, tiny marketing tool, or hilarious gift! Finally, the joyous dancing tube man -- who's been featured everywhere from Ricky Martin's stage to Broad City -- is available in a tiny, desk-friendly size. This box includes: An 18-inch waving tube man with fan in base to make him dance, wiggle, and shake just like the real thing (batteries not included) A 32-page mini book exploring the larger than life (and utterly surprising!) origins of everyone's favorite flailing arm man PLEASE NOTE: This product can be powered by a 9-volt battery or by a specific AC adapter. (Battery nor AC adapter included with purchase.) Please read and follow the instructions included in the box to ensure optimal performance. If using a battery: A rechargeable Ni-MH battery is recommended for best performance and is a more cost-effective alternative to a common alkaline (single-use) battery. If using an alkaline battery, it must be NEW and preferably a PREMIUM brand. DO NOT use a carbon-zinc battery (often labeled heavy-duty). This type of battery cannot produce enough power to operate the motor. To get the most life out of the battery, use in intervals no greater than 5 to 10 minutes. Operating in this manner will yield approximately 45 minutes of use. If your tube guy begins to get stuck in a downward position, it is time to replace the battery or recharge if using a rechargeable battery. If using an AC adapter, it must follow the below specifications: Input: AC 100-240V (50-60 Hz) Output: DC 9V (1A or 2A)
