Enola Gay Gordon Thomas,Max Morgan-Witts,2014-07-01 From theNew York Times–bestselling coauthors: A “fascinating . . . unrivaled” history of the B-29 and its fateful mission to drop the atomic bomb on Hiroshima (The New York Times Book Review). Painstakingly researched, the story behind the decision to send the Enola Gay to bomb Hiroshima is told through firsthand sources. From diplomatic moves behind the scenes to Japanese actions and the US Army Air Force’s call to action, no detail is left untold. Touching on the early days of the Manhattan Project and the first inkling of an atomic bomb, investigative journalist Gordon Thomas and his writing partner Max Morgan-Witts, take WWII enthusiasts through the training of the crew of the Enola Gay and the challenges faced by pilot Paul Tibbets. A page-turner that offers “minute-by-minute coverage of the critical periods”

surrounding the mission, Enola Gay finally separates myth and reality from the planning of the flight to the moment over Hiroshima when the atomic age was born (Library Journal).

Year Book, Trotting and Pacing United States Trotting Association,1975

Basic Course in Azerbaijani Fred W. Householder,Mansour Lofti,1965 This collection of essays and reviews represents the most significant and comprehensive writing on Shakespeare's A Comedy of Errors. Miola's edited work also features a comprehensive critical history, coupled with a full bibliography and photographs of major productions of the play from around the world. In the collection, there are five previously unpublished essays. The topics covered in these new essays are women in the play, the play's debt to contemporary theater, its critical and performance histories in Germany and Japan, the metrical variety of the play, and the distinctly modern perspective on the play as containing dark and disturbing elements. To compliment these new essays, the collection features significant scholarship and commentary on The Comedy of Errors that is published in obscure and difficult accessible journals, newspapers, and other sources. This collection brings together these essays for the first time.

The Foundations of Us Air Doctrine Barry D. Watts,2001-10-01 This study analyzes airpower doctrine from the viewpoint of Clausewitzian friction. The result of the analysis is the conclusion that American airpower doctrine has changed very little since the 1930s and that it is fundamentally flawed.Lieutenant Colonel Barry D. Watts has been teaching and writing about military theory since he joined the Air Force Academy faculty in 1974. During the Vietnam War he saw combat with the 8th Tactical Fighter Wing at Ubon, Thailand, completing 100 missions over North Vietnam in

June 1968. Subsequently, Lieutenant Colonel Watts flew F-4s from Yokota AB, Japan, and Kadena AB, Okinawa. More recently, he has served as a military assistant to the Director of Net Assessment, Office of the Secretary of Defense, and with the Air Staff's Project CHECKMATE.

Air Force Combat Medals, Streamers, and Campaigns A. Timothy Warnock, 1990 This volume documents the combat service of the USAF and its predecessor organizations, as recognized by the award of combat service medals to individuals and service or campaign streamers to air units. Separate sections feature descriptions and color photos of the medals and streamers; concise accounts of each campaign in the theater are illustrated with color maps.--[book jacket].

Functions and Basic Doctrine of the United States Air Force ,1984

Command Of The Air General Giulio Douhet, 2014-08-15 In the pantheon of air power spokesmen, Giulio Douhet holds center stage. His writings, more often cited than perhaps actually read, appear as excerpts and aphorisms in the writings of numerous other air power spokesmen, advocates-and critics. Though a highly controversial figure, the very controversy that surrounds him offers to us a testimonial of the value and depth of his work, and the need for airmen today to become familiar with his thought. The progressive development of air power to the point where, today, it is more correct to refer to aerospace power has not outdated the notions of Douhet in the slightest In fact, in many ways, the kinds of technological capabilities that we enjoy as a global air power provider attest to the breadth of his vision. Douhet, together with Hugh "Boom" Trenchard of Great Britain and William "Billy" Mitchell of the United States, is justly recognized as one of the three great spokesmen of the early air power era. This reprint is offered in the spirit of continuing the dialogue that Douhet himself so perceptively began with the first edition of this book, published in 1921. Readers may well find

much that they disagree with in this book, but also much that is of enduring value. The vital necessity of Douhet's central vision—that command of the air is all important in modern warfare—has been proven throughout the history of wars in this century, from the fighting over the Somme to the air war over Kuwait and Iraq.

Why Not the Best? Jimmy Carter, 1996-08-01 *Why Not the Best?*, originally published in 1975, is President Carter's presidential campaign autobiography, the book that introduced the world to Georgia governor Jimmy Carter and asked the American people to demand the best and highest standards of excellence from our government.

The Army Air Forces in World War II: Men and planes, 1948

Warhol-isms Andy Warhol, 2022-05-10 A unique collection of brilliant quotations from the legendary Pop artist One of the most influential artists of his time and ours, Andy Warhol is nearly as renowned for what he said as for what he did. Indeed, he is so quotable that things he never said are endlessly and plausibly attributed to him, including, fittingly, the most celebrated fake Warhol saying—"In the future, everyone will be world-famous for 15 minutes." *Warhol-isms* separates legend from fact to present a unique and comprehensive collection of authentic quotations from the Pop artist. Gathered from interviews and other primary sources, these deadpan, droll, ironic, and sincere gems—in which a superficial embrace of superficiality often disguises provocative, unconventional ideas—provide compelling insights into the life and work of an artist who has left an indelible mark on art and popular culture. Select quotations from the book: I think an artist is anybody who does something well. I went to [a psychiatrist] once, and he never called me back. They always say that time changes things, but you actually have to change them yourself. I've never met a person I couldn't call a beauty. New things are always better

than old things. I'm still a commercial artist. I was always a commercial artist.

Strategy For Defeat: The Luftwaffe, 1933-1945

[Illustrated Edition] Williamson Murray, 2015-11-06 Includes the Aerial Warfare In Europe During World War II illustrations pack with over 200 maps, plans, and photos. This book is a comprehensive analysis of an air force, the Luftwaffe, in World War II. It follows the Germans from their prewar preparations to their final defeat. There are many disturbing parallels with our current situation. I urge every student of military science to read it carefully. The lessons of the nature of warfare and the application of airpower can provide the guidance to develop our fighting forces and employment concepts to meet the significant challenges we are certain to face in the future.
