Dead Beautiful Yvonne Woon,2011-05-01 Coming from sunny California, the mist-shrouded Academy was a shock, with its strange customs, ancient curriculum and study of Latin - the language of the dead. Then I discovered that the school has more than one dark secret... I also discovered Dante. Intelligent, elusive and devastatingly gorgeous, most people can't decide whether they love, hate or fear him. All I know is that when we're together, I've never felt more alive - or more afraid. I really enjoyed this book, it was fast moving, gutsy and engaging. Once I picked it up I found it very hard to put it down. The plot was just fantastic, and original... What I loved most was the use of classic literature to help tell the story... It grabs you, and when it finishes you don't really know what to do with yourself. Superb. - The Book Bag

Empowering Student Researchers Bethanie Pletcher,Faye Bruun,Rosa Banda,Krystal Watson,Angela Perez,Alissa Mejia,2021-10-05 This yearbook is a project of the Consortium for Educational Development, Evaluation and Research (CEDER), the research and development arm of the College of Education and Human Development at Texas A&M University-Corpus Christi. With this edition of the CEDER Yearbook, the editors wished to support student researchers as emerging scholars. Participating in research projects entails many benefits for students, including the onboarding of new teaching methods and strategies, becoming a reflective practitioner, engaging in a different model of professional learning, learning how to behave like a researcher, improving writing skills, and pursuing further degrees. Collaboration between faculty members and students (often teacher or pre-service teacher researchers) is critical (Brew, 2013; Johnson, 2000; Ries, 2018).Strickland (1988) posits that teacher researchers need to be engaged in every step of the research process and allowed to take ownership of the work. It should be thought of as helping to create lifelong researchers, for if students are properly trained, prepared, and supervised, the student-faculty collaboration can be a memorable and successful experience. It

may even inspire the career goal of a future professor or two (Fenn, 2010, p. 259). The call for proposals asked for empirical, conceptual and theoretical contributions to the area of research conducted by students. Personal Perspectives and Research Focus of students include the following categories: Culture, International Students, Men of Color, Teaching, Doctoral Students, Latino/a Culture, STEM, LGBTQ, Policy and Administration, Student Faculty, and Curriculum. The intended audience for this yearbook includes educators, decision-makers, policymakers, and leaders within faculty and student development programs as well as international student departments. A call for proposals was issued to a variety of universities and professional organizations. Two hundred and sixty-four articles from a total of 217 authors representing 72 universities were submitted. Those blinded articles were distributed to a panel of reviewers. Each article was seen by two reviewers and the editors of the yearbook. The editorial team selected 21 articles for inclusion in this yearbook.
