Who's who in New York City and State Lewis Randolph Hamersly, John W. Leonard, William Frederick Mohr, Herman Warren Knox, Frank R. Holmes, Winfield Scott Downs, 1907
Containing authentic biographies of New Yorkers who are leaders and representatives in various departments of worthy human achievement including sketches of every army and navy officer born in or appointed from New York and now serving, of all the congressmen from the state, all state senators and judges, and all ambassadors, ministers and consuls appointed from New York.

Department Reports of the State of New York New York (State), 1922

The Variation of Latitude at New York City John Krom Rees, Harold Jacoby, Herman Stearns Davis, 1895

The Variation of Latitude at New York City: Declinations and proper motions of fifty-six stars. By Herman S. Davis John Krom Rees, Harold Jacoby, 1895

Urban Ornithology P. A. Buckley, Walter Sedwitz, William J. Norse, John Kieran, 2018-12-15 Urban Ornithology is the first quantitative historical analysis of any New York City natural area's birdlife and spans the century and a half from 1872 to 2016. Only Manhattan's Central and Brooklyn's Prospect Parks have preliminary species lists, not revised since 1967, and the last book examining the birdlife of the entire New York City area is now more than fifty years old. This book updates the avifaunas of those two parks, the Bronx, and other New York City boroughs. It treats the 301 bird species known to have occurred within its study area—Van Cortlandt

Park and the adjacent Northwest Bronx—plus 70 potential additions. Its 123 breeding species are tracked from 1872 and supplemented by quantitative breeding bird censuses from 1937 to 2015. Gains and losses of breeding species are discussed in light of an expanding New York City inexorably extinguishing unique habitats.

NYCTA Objects ,2017-10-24 The evolving design of New York subway ephemera: a collector's story New York City Transit Authority: Objects originated as a photography experiment. In 2011, New York photographer Brian Kelley began documenting collections of used MetroCards in his Brooklyn studio, arranging them in various grids with the goal of perfecting the lighting of an image. His brother suggested he make the grids more interesting by finding other types of cards. Having exhausted his search for discarded MetroCards in many of the city's 472 subway stations, Kelley turned to eBay for new finds. The online rabbit-hole gave him a crash course in the history of NYC transportation. He discovered tokens dating back to 1860, a ticket stub from 1885 when it cost three cents to take the train across the Brooklyn Bridge, as well as patches, matchbooks, tokens, timetables, pins and signs, posting his photographs of these finds on Tumblr and Instagram. Six years on, many MTA employees follow and advocate his project, sometimes contacting him with information and tips on rare items. As the collection grew, Kelley recognized that there were no comparable digital archives documenting the city's transportation evolution. New York City Transit Authority: Objects is a story told through the evolving design that spans decades of the city's history. Kelley's objects tell a greater story of New York's past. For him, The NYCTA Project remains a photography experiment and self-funded hobby, archiving the culture of his home city. For the reader, it's an intimate view of the city's history that merges design

and infrastructure over the past 150 years.

722 Miles Clifton Hood, 2004-08-23 When it first opened on October 27, 1904, the New York City subway ran twenty-two miles from City Hall to 145th Street and Lenox Avenue—the longest stretch ever built at one time. From that initial route through the completion of the IND or Independent Subway line in the 1940s, the subway grew to cover 722 miles—long enough to reach from New York to Chicago. In this definitive history, Clifton Hood traces the complex and fascinating story of the New York City subway system, one of the urban engineering marvels of the twentieth century. For the subway's centennial the author supplies a new foreward explaining that now, after a century, we can see more clearly than ever that this rapid transit system is among the twentieth century's greatest urban achievements.

Journal of the Board of Education of the City of New York New York (N.Y.). Board of Education, 1854

Johnson's dictionary of the English language, in miniature. Johnson's English dictionary in miniature; with the addition of several thousand words, and the pronunciation, on the basis of Walker. To which is subjoined, a concise heathen mythology, and numerous other useful tables ... Adapted for the use of schools. Eighth edition. Adapted by the Rev. Joseph Hamilton Samuel Johnson, 1848

'Lonely Planet guides are, quite simply, like no other.'  New York Times 'Lonely Planet. It's on everyone's bookshelves; it's in every traveler's hands. It's on mobile phones. It's on the Internet. It's everywhere, and it's telling entire generations of people how to travel the world.'  Fairfax Media (Australia)

Field Guide to the Neighborhood Birds of New York City Leslie Day, 2015-07-31 New York City's favorite naturalist returns with a guided tour of the beautiful birds living in the five boroughs. Look around New York, and you'll probably see birds: wood ducks swimming in Queens, a stalking black-crowned night-heron in Brooklyn, great horned owls perching in the Bronx, warblers feeding in Central Park, or Staten Island's purple martins flying to and fro.

You might spot hawks and falcons nesting on skyscrapers or robins belting out songs from trees along the street. America's largest metropolis teems with birdlife in part because it sits within the great Atlantic flyway where migratory birds travel seasonally between north and south. The Big Apple's miles of coastline, magnificent parks, and millions of trees attract dozens of migrating species every year and are also home year-round to scores of resident birds. There is no better way to identify and learn about New York's birds than with this comprehensive field guide from New York City naturalist Leslie Day. Her book will quickly teach you what each species looks like, where they build their nests, what they eat, the sounds of their songs, what time of year they appear in the city, the shapes and colors of their eggs, and where in the five boroughs you can find them?which is often in the neighborhood you call home. The hundreds of stunning photographs by Beth Bergman and gorgeous illustrations by Trudy Smoke will help you identify the ninety avian species commonly seen in New York. Once you enter the world of the city's birds, life in the great metropolis will never look the same. "Take this guide wherever you go,' [Day] implores readers in the introduction. And we hope many do, since it reveals a New York we long to see, the wild, beautiful city of birds known to Audubon, Chapman, and Griscom." —Chuck Hagner, *BirdWatching Magazine* "An excellent guide for New York City residents. If you have any interest in the birds around you (and there are plenty of birds around you, even in NYC), this guide will really open your eyes." —Birder's Library "Day's deeply researched and richly illustrated Field Guide to the Neighborhood Birds of New York City will be indispensable to locals and tourists alike." —Sierra "Will fill a niche for beginning birders and backyard watchers in the northeastern U.S." —Choice "You don't have

to live in or be visiting New York to enjoy this book.” —Times Literary Supplement (UK)

The Shelf List of the Union Theological Seminary Library in New York City Union Theological Seminary (New York, N.Y.). Library, 1960

IRT Interborough Rapid Transit / the New York City Subway: Its Design and Construction The Interborough Transit Company, 2007-06-20 On October 27, 1904, the Interborough Rapid Transit Company opened the first subway in New York City. Running between City Hall and 145th Street at Broadway, the line was greeted with enthusiasm and, in some circles, trepidation. Created under the supervision of Chief Engineer S.L.F. Deyo, the arrival of the IRT foreshadowed the end of the elevated transit era on the island of Manhattan. The subway proved such a success that the IRT Co. soon achieved a monopoly on New York public transit. In 1940 the IRT and its rival the BMT were taken over by the City of New York. Today, the IRT subway lines still exist, primarily in Manhattan where they are operated as the A Division of the subway. Reprinted here is a special book created by the IRT, recounting the design and construction of the fledgling subway system. Originally created in 1904, it presents the IRT story with a flourish, and with numerous fascinating illustrations and rare photographs.

Moving the Masses Charles W. Cheape, 1980 The development of public transit is an integral part of both business and urban history in late nineteenth-century America. The author begins this study in 1880, when public transportation in large American cities was provided by numerous, competing horse-car companies with little or no public control of operation. By 1912, when the study concludes, a

monopoly in each city operated a coordinated network of electric-powered streetcars and, in the largest cities, subways, which were regulated by city and state agencies. The history of transit development reflects two dominant themes: the constant pressure of rapid growth in city population and area and the requirements of the technology developed to service that growth. The case studies here include three of the four cities that had rapid transit during this period. Each case study examines, first, the mechanization of surface lines and, second, the implementation of rapid transit. New York requires an additional chapter on steam-powered, elevated railroads, for early population growth there required rapid transit before the invention of electric technology. Urban transit enterprise is viewed within a clear and familiar pattern of evolution--the pattern of the last half of the nineteenth century, when industries with expanding markets and complex, costly processes of production and distribution adopted new strategy and structure, administered by a new class of professional managers.

Report of the Board of Rapid Transit Railroad Commissioners for the City of New York for the Year Ending December 31 ... New York (N.Y.). Board of Rapid Transit Railroad Commissioners, 1903
