Jeunes Et L'exclusion Dans Les Quartiers Défavorisés Paul Soto Hardiman,2004-01-01 This publication examines the issue of social cohesion as it relates to young people living in urban environments. There are two major reports on violence and social exclusion: the first looks at these issues in a European context, taking account of the extent and causes of urban deprivation, and how this links to youth violence. The second report concentrates on the UK, and on the social transition from a welfare state to a stakeholder/welfare society. Both reports look at issues of crime prevention, youth employment, projects for training initiatives, and urban design processes. Both reports find examples of good practice, and recommends methods to regenerate social cohesion.

Ultimate Lost and Philosophy Sharon Kaye,2010-10-12 Health Economics and Financing What are the metaphysics of time travel? How can Hurley exist in two places at the same time? What does it mean for something to be possibly true in the flash-sideways universe? Does Jack have a moral obligation to his father? What is the Tao of John Locke? Dude. So there's, like, this island? And a bunch of us were on Oceanic flight 815 and we crashed on it. I kinda thought it was my fault, because of those numbers. I thought they were bad luck. We've seen the craziest things here, like a polar bear and a Smoke Monster, and we traveled through time back to the 1970s. And we met the Dharma dudes. Arzt even blew himself up. For a long time, I thought I was crazy. But now, I think it might have been destiny. The island's made me question a lot of things. Like, why is it that Locke and Desmond have the same names as real philosophers? Why do so many of us have trouble with our dads? Did Jack have a choice in becoming our leader? And what's up with Vincent? I mean, he's gotta be more than just a dog, right? I dunno. We've all felt pretty lost. I just hope we can trust Jacob, otherwise ... whoa. With its sixth-season series finale, Lost did more than end its run as one of the most talked-about TV programs of all time; it left in its wake a complex labyrinth of philosophical questions and issues to be explored. Revenge, redemption, love, loss, identity,

morality—all of Lost’s key themes are examined in this fully updated guide, which reveals the deeper meaning behind every twist and turn in this historic, one-of-a-kind show.

Numeracy Across the Curriculum Merrilyn Goos,Vince Geiger,Helen Forgasz,Anne Bennison,Shelley Dole,2020-07-16 Being numerate involves more than mastering basic mathematics. Numeracy connects the mathematics learned at school with out-of-school situations that require capabilities such as problem solving, critical judgment, and sense-making related to non-mathematical contexts. This book provides prospective and practising teachers with practical, research-based strategies for embedding numeracy across the primary and secondary school curriculum. Based on the authors' ten-year research program, the text explains what numeracy is and how numeracy has developed as an educational goal. It describes in detail the five dimensions of the authors' model: attention to real-life contexts; application of mathematical knowledge; use of physical, representational and digital tools; the promotion of positive dispositions towards the use of mathematics to solve problems encountered in day-to-day life; and a critical orientation to interpreting mathematical results and making evidence-based judgements. There is guidance on how to embed numeracy across all subjects within the curriculum, how to assess numeracy learning and how to deal with challenges and dilemmas including working with discipline boundaries and developing support resources. Featuring practical examples and case studies throughout, this book will build pre-service teacher confidence, demystify common misconceptions and grounds theory into practice in this vital area of student competency. 'The authors of this text are recognised authorities on numeracy. They have engaged heavily in numeracy research over many years and this text reflects the depth of their understanding and knowledge.' - Geoff Hilton, University of Queensland
