**Brilliance!** Cindy Edelstein, Frank Stankus, 2008 This sensational design book showcases America's most gorgeous and inventive art jewelry! For over a decade, the elite invitation-only American Jewelry Design Council (AJDC) has sponsored an annual project: every member creates an original piece based on a given theme. With imagination and skill, jewelers have tackled such concepts as the Mona Lisa, Wheel, Key, Puzzle, Water, Flight, Peekaboo, Sphere, Pyramid, and Secret Treasure. Each of these topics now becomes a dramatically photographed chapter, complete with illuminating introductions by renowned jewelry writers Cindy Edelstein and Frank Stankus. In addition to background information on the AJDC, and the story of the annual design event, artists' commentaries enhance specific images. A final members' section includes a biography, headshot, and additional jewelry images for each talented individual.

**Silver Jewelry Making: An Easy & Complete Step by Step Guide** Janet Evans, 2013-05-14 Wearing jewelry is essential to helping women developed their own style. For women wishing

to create a look that's unique, the last thing they'll want to invest money in is mass produced pieces of jewelry. It's for this reason alone, learning the skills needed for making silver jewelry could prove extremely beneficial. When it comes to making such pieces you need to know where to purchase the right kinds of supplies. In this book not only do we discuss what's needed to start your own silver jewelry making venture but also provide several projects you may want to try out. We also recommend you attend a silver jewelry-making course if you can as well. If you're having problems finding courses we highly recommend you look online for what you need. You may even find an online course that enables you to learn in the comfort of your own home. As a beginner, the kind of course you should be looking for is one, which covers the basics. The kinds of skills this course should be teaching you relate to soldering cutting, shaping and texturing the silver plus polishing it. Also look for courses that teach you skills such as making jump rings, hooks and clasps for earrings. Finally what you should be looking for in a course is one that'll allow you to make a number of different pieces of jewelry from silver. The actual process of turning a piece of silver into a piece of jewelry is not only very technical, but also allows your artistic side to flourish. Once you've finished making silver jewelry either for yourself or for someone else, can prove extremely satisfying, especially as you watch the piece develop and grow.

Pardue,2007 Contemporary Southwestern Jewelry reveals the captivating history of the art of American Indian jewelry making, uncovering the ancient techniques, tools, and materials that have made contemporary southwestern jewelry what it is today. Revolutionists such as Hopi artist Charles Loloma, Navajo silversmith Kenneth Begay, Mexican/Mission jeweler Preston Monongye, and other jewelers began using varied materials and techniques traditionally unknown to the southwest. Pardue has researched the history and contemporary forms of metalworking, gems, stone patterning, and more, plus has dedicated a portion of the book to emerging artists whose work is capturing attention today. As you explore Contemporary Southwestern Jewelry's stunning photography, let the art speak to you of how it came to be and what it represents, echoing a similar message still told by traditional Native American jewelry
