Information Needs of Communities Steven Waldman,2011-09 In 2009, a bipartisan Knight Commission found that while the broadband age is enabling an info. and commun. renaissance, local communities in particular are being unevenly served with critical info. about local issues. Soon after the Knight Commission delivered its findings, the FCC initiated a working group to identify crosscurrent and trend, and make recommendations on how the info. needs of communities can be met in a broadband world. This report by the FCC Working Group on the Info. Needs of Communities addresses the rapidly changing media landscape in a broadband age. Contents: Media Landscape; The Policy and Regulatory Landscape; Recommendations. Charts and tables. This is a print on demand report.

Anyone who wants to understand the people we label 'refugees' must read this book. - Jan Reeves, director, Idaho Office for Refugees Magnificent. The stories inspire equal parts joy and heartbreak. *The Expanding News Desert* Penelope Muse Abernathy,2018-11-15 This report delves into the implications for communities at risk of losing their primary source of credible news. By documenting the shifting news landscape and evaluating the threat of media deserts, this report seeks to raise awareness of the role interested parties can play in addressing the challenges confronting local news and democracy. The Expanding News Desert documents the continuing loss of papers and readers, the consolidation in the industry, and the social, political and economic consequences for thousands of communities throughout the country. It also provides an update on the strategies of the seven large investment firms--hedge and pension funds, as well as private and publicly traded equity groups--that swooped in to purchase hundreds of newspapers in recent years and explores the indelible mark they have left on the newspaper industry during a time of immense disruption.

**Studio Studies** Ignacio Farías,Alex Wilkie,2015-10-14 Consider the vast array of things around you, from the building you are in, the lights illuminating the interior, the computational devices mediating your life, the music in the background, even the crockery, furniture and glassware you are in the presence of. Common to all these objects is that their concrete, visual and technological forms were invariably conceived, modelled, finished and tested in sites characterised as studios. Remarkably, the studio remains a peculiar lacuna in our understanding of how cultural artefacts are brought into being and how 'creativity' operates as a located practice. Studio Studies is an agenda setting volume that presents a set of empirical case studies that explore and examine the studio as a key setting for aesthetic and material production. As such, Studio Studies responds to three contemporary concerns in social and cultural thought: first, how to account for the situated nature of creative and cultural production; second, the challenge of reimagining creativity as a socio-materially distributed practice rather than the cognitive privilege of the individual; and finally, to unravel the parallels, contrasts and interconnections between studios and other sites of cultural-aesthetic and technoscientific production, notably laboratories. By enquiring into the operations, topologies and displacements that shape and format studios, this volume aims to demarcate a novel and important object of analysis for empirical social and cultural research as well to develop new conceptual repertoires to unpack the multiple ways studio processes shape our everyday lives.

**Speech, Crime, and the Uses of Language** Kent Greenawalt, 1989 In this book Greenawalt explores the three-way relationship between the idea of freedom of speech, the law of crimes, and the many uses of language. He begins by considering free speech as a political principle, and after a thorough and incisive analysis of the justifications commonly advanced for freedom of speech, looks at the kinds of communications to which the principle of free speech applies. He then turns to an examination of communications for which criminal liability is fixed. Focusing on threats and solicitations to crime, Greenawalt attempts to determine whether liability for such communications seriously conflicts with freedom of speech. In the second half of the book he goes on to develop the significance of his conclusions for American constitutional law, addressing such questions as what should be considered speech within the meaning of the First Amendment, and what tests the courts should employ in deciding whether particular criminal statutes should be held constitutional. He concludes that the issues are too complex to yield simple solutions, and insists that the protection of the First Amendment can be reduced neither to one justification nor to one all-purpose test of coverage.

**The Game to Show the Games** Morgan Wick, 2016-02-22 ESPN collects hundreds of millions of dollars in rights fees from cable subscribers, before selling a single advertisement. In *The Game to Show the Games*, Morgan Wick exposes how this lucrative revenue stream and the competition between media conglomerates has become a billion-dollar boon for sports leagues across the nation and the world, and how this has shaken up the rest of the television industry. Wick's Chapter titles highlight the story: Chapter 1: Rags to Riches Chapter 2: Follow the Leader Chapter 3: Printing Money Chapter 4: Big Man on Campus Chapter 5: King of Sports Chapter 6: All Sports are Local Chapter 7: Fighting For Scraps Chapter 8: Breaking Free With *The Game to Show the Games* Morgan Wick has shined a light on the behind-the-scenes battles that have raged between billionaires, as they jockey for position in the high-stakes 'game' to dominate sports television. ESPN may have begun as a plucky underdog, happy at first to broadcast local Connecticut sports, but it didn't take long for it to become king of the jungle. Now it pulls the strings, and makes the media giants jealous. Whether you're an avid sports fan, an active sports hater, or just someone wondering why your cable bill is so high, *The Game to Show the Games* is a must-read.

**Decarcerating Disability** Liat Ben-Moshe, 2020-05-19 This vital addition to carceral, prison, and disability studies draws important new links between deinstitutionalization and decarceration. Prison abolition and decarceration are increasingly debated, but it is often without taking into account the largest exodus of people from carceral facilities in the twentieth century: the closure of disability institutions and psychiatric hospitals. *Decarcerating Disability* provides a much-needed corrective, combining a genealogy of deinstitutionalization with critiques of the current prison system. Liat Ben-Moshe provides groundbreaking case studies that show how abolition is not an unattainable goal but rather a reality, and how it plays out in different arenas of incarceration—antipsychiatry, the field of intellectual disabilities, and the fight against the prison-industrial complex. Ben-Moshe discusses a range of topics, including why deinstitutionalization is often wrongly blamed for the rise in incarceration; who resists decarceration and deinstitutionalization, and the

coalitions opposing such resistance; and how understanding deinstitutionalization as a form of residential integration makes visible intersections with racial desegregation. By connecting deinstitutionalization with prison abolition, Decarcerating Disability also illuminates some of the limitations of disability rights and inclusion discourses, as well as tactics such as litigation, in securing freedom. Decarcerating Disability's rich analysis of lived experience, history, and culture helps to chart a way out of a failing system of incarceration.

**Prepared Not Paranoid** Doug Graves, Jana M. Kemp, 2008-04-30 In the wake of 9/11, many Americans feel their individual safety is threatened by forces they cannot control. Some take drastic measures and move from metropolitan areas thought to be targets, while most stay put and try to find ways to protect themselves in their homes, their workplaces, and their communities. Still, a sense of vulnerability or uncertainty can undermine feelings of safety and security. Today's dangerous world calls for daily personal power that overcomes paranoia and puts people back in control of their lives and their sense of safety. Drawing on 34 years of law enforcement work and training, co-authors Doug Graves and Jana Kemp present useful information and practical guidelines for keeping yourself, family members, and co-workers as safe as possible every day. Prepared-Not Paranoid presents methods for recognizing challenges or threats, innovative ways of thinking about safety, checklists with actions to take in various settings, and items to have handy when traveling to the local convenience store or around the world. This book serves as a guide for safe daily living, not as a self-defense manual. The authors raise awareness and offer important information so people feel more confident moving through daily life as safely as possible.
