What's even more shocking is, that figure excludes mortgages! So if breaking from the shackles of debt seems overwhelming, don't worry – it needn't be The good news is, the path to financial freedom is 20% knowledge, 80% behavior... In fact, you only need to follow a few key principles to turn your financial life around. And what to do instead. 5 simple hacks for increasing your credit score (even if it's in the 400s right now) How one couple paid off \$78,000 in less than 2 years? And how you can replicate their methods. What the millionaire next door types know, that you don't A house is the best investment, right? Think again after reading this. 7 dangerous money myths which have been masquerading as truths for far too long Investing for absolute beginners - why the stock market, mutual funds or Roth IRAs are not terms you should fear 3 overlooked ways to turn every credit card you have from an expense into a goldmine The #1 type of investment to avoid as a new investor The win-win strategy for ensuring your employer invests in your future But that's not all, you'll also discover how to make your first \$1,000 a month online. Even if you have no experience, or are a complete technophobe. Including: The real “secret” to making money online. This is the opposite to what every “guru” has been telling you. How one desperate housewife made \$1,500 profit her first month, with just a small investment of \$200 (and less than 10 hours of work). The unique business model you can use to make \$500 a week from your smartphone. The 4 best ecommerce niches for 2019 (you won't find these on any mainstream websites, and sellers in them are quietly making a killing) How to leverage one of the fastest growing markets on the planet by writing about your favorite subjects. This is one of the most fun and profitable ways to make money online right now An “unsexy” yet reliable way to generate \$1,000 in the next week. All it takes is a few emails sent to the right people and 2 hours of computer work and you're good to go. The little known business model (only taught in a \$2,500 program) which is making people 4 and 5 figures a month with less than 60 minutes work a week How to make your first \$1,000, with zero investment, even if you don't have a college degree (or barely finished high school). This method is so simple, we've yet to see anyone fail with it. This isn't one of those “frugal living” books which tells you to live off rice and beans while never leaving the house for 10 years. This isn't a get rich quick off buying and flipping houses book either. Instead, you'll find no-nonsense, easy-to-follow advice - without any complicated financial language.

Lost Drag Strips II Scotty Gosson,2016-04-15 Fresh on the heels of the best-selling book Lost Drag Strips comes a new look at other long-lost and forgotten drag racing facilities from the 1950s, 1960s, and 1970s. In the first volume, the author examined the birth of drag racing and its subsequent popularity that invaded every city and community across America. Unfortunately, after the initial explosion of popularity, it waned, and various drag strips closed for a myriad of reasons. Financial pressure for the real estate they occupied, suburban sprawl, and waning participation were all reasons for the change in fortunes for the small, and even not-so-small, racetracks. The first volume was great, but readers demanded more! Lost Drag Strips II picks up where the first volume left off, covering even more tracks with archival photos of racing in the tracks' heyday, the cars that ran there, and coverage of the tracks as they exist

today. This volume also includes some of the tracks that survived, those that fought off the economic demons and the urban sprawl and continue to run today. Tracks in this volume include: Fort Wainwright/Racing Lions Motorsports Park, Avenue G Drag Strip, Fremont/Baylands Drag Strip, San Fernando Drag Strip, Fontana Drag City, Inyokern Drag Strip, Kahuku Air Strip, Las Vegas Speedrome, Continental Divide Raceways, SRCA Drag Strip, Southwest Raceway, Willow Run Raceway, Minnesota Dragways, KCTA Drag Strip, Detroit Dragway, Niagara Airport Dragstrip, New York National Speedway, York US 30 Drag-O-Way, South Mountain Raceway, La Place Dragway, Yellow River Drag Strip, Thunderbolt Dragway, and more.

**Increasing Security and Reducing Carbon Emissions of the U. S. Transportation Sector** David Gray,2010-03 The USAF has a goal to supply 50% of its fuel requirements from domestic synthetic sources by 2016. This study had 2 objectives. The first was to develop a coal-biomass-to-liquids (CBTL) plant design that is potentially capable of co-gasifying mixtures of coal and biomass to produce a clean synthesis gas that can then be sent to Fischer-Tropsch units for synthesis of clean diesel, jet and naphtha liquid fuels. The second objective was to develop a CBTL pathway for diesel fuel production that has the potential of providing 100,000 BPD of synthetic fuel with the requirement that carbon dioxide emissions should be less than those from conventional petroleum. Three biomass types were selected for study: woody biomass, switchgrass, and corn stover. Illus.

**The Man Who Would Stop at Nothing: Long-Distance Motorcycling's Endless Road** Melissa Holbrook Pierson,2011-10-03 "Pierson is an even better writer than she is a rider."—Boston Globe "World's Toughest Motorcycle Riders"—long-distance motorcycling is not a pastime but an obsession. In this candid, eloquent, sharply observed book, Melissa Holbrook Pierson introduces us to this strange endeavor and the men and women who live to ride impossibly long distances, eating up road, almost without cease. And who find it nothing but fun. Perhaps the most determined of them is John Ryan, a magnetic, enigmatic man who loves nothing better than breaking records of amazing distance—at no small risk to himself and his health. But why? Pierson, who rediscovered the joys of motorcycling in the midst of a personal crisis, puts on her helmet and joins Ryan in his element in order to understand his singular desire and discipline, his passion and his obsession. The Man Who Would Stop at Nothing offers an intimate glimpse of an unusually independent yet supportive community as well as a revealing, unforgettable portrait of its most daring member. In electric, pitch-perfect prose, Pierson gives us rare insights into not only a subculture but also the deeply human craving for something more that drives it.

**Arnie "The Farmer" Beswick** Dean Fiat,2021-02-15 Arnie "the Farmer" Beswick was called "the consummate underdog" by Hot Rod magazine. While there was good reason, there is much more to his unbelievable career. Born a third-generation farmer in the small town of Morrison, Illinois, Arnie Beswick's driving career began not behind the wheel of a straight-line terror but that of a tractor. On local dusty roads, Arnie's budding reputation grew with street cars, as the "flying farmer" was coined to describe his driving style. When drag racing began in the Midwest in the early 1950s, Arnie was one of the pioneers who campaigned Dodges and Oldsmobiles. In 1960, he purchased his first Pontiac and never looked back. At the beginning, he didn't like the "farmer" nickname, but he quickly learned to utilize the name to lull his competition into complacency. After all, what could a simple farmer know of the world of high-performance drag racing? Throughout the 1960s, Arnie's Mr. B's Passionate Poncho, Mystery Tornado, Star of the Circuit I and II, Tameless Tiger, and Super Judge all contributed to dispel the myth that a simple farmer couldn't dominate straight-line racing. Arnie was an innovator, fierce competitor, entertainer and showman who always gave fans their money's worth at the track. He is still brand loyal--sticking with Pontiac long after production models ceased. Arnie has always been a fan favorite for this reason, and he continues to exhilarate fans at the track with his cast of potent Pontiacs.

**The Four Laws of Debt Free Prosperity** Blaine Harris,Charles A. Coonradt,1996

**Universal Empire** Peter Fibiger Bang,Dariusz Kolodziejczyk,2012-08-16 The claim by certain rulers to universal empire has a long history stretching as far back as the Assyrian and Achaemenid Empires. This book traces its various manifestations in classical antiquity, the Islamic world, Asia and Central America as well as considering seventeenth- and eighteenth-century European discussions of international order. As such it is an exercise in comparative world history combining a multiplicity of approaches, from ancient history, to literary and philosophical studies, to the history of art and international relations and historical sociology. The notion of universal, imperial rule is presented as an elusive and much coveted prize among monarchs in history, around which developed forms of kingship and political culture. Different facets of the phenomenon are explored under three, broadly conceived, headings: symbolism, ceremony and diplomatic relations; universal or cosmopolitan literary high-cultures; and, finally, the inclination to present universal imperial rule as an expression of cosmic order.
