Manual on Estimation of Probable Maximum Precipitation (PMP) World Meteorological Organization,2009 The manual describes procedure for estimating the maximum probable precipitation and the maximum probable flood. This is the third revised version. The first and second editions of this manual were published in 1973 and 1986, respectively. The current edition keeps a majority of the content from the second edition. Newly added content in this third edition primarily results from experiences, since 1986, in directly estimating PMP for the requirements of a given project in a design watershed on probable maximum flood (PMF) in China, the United States of America, Australia and India.--Publisher's description.

**Solar Engineering of Thermal Processes, Photovoltaics and Wind** John A. Duffie,William A. Beckman,Nathan Blair,2020-03-24 The bible of solar engineering that translates solar energy theory to practice, revised and updated The updated Fifth Edition of Solar Engineering of Thermal Processes, Photovoltaics and Wind contains the fundamentals of solar energy and explains how we get energy from the sun. The authors—noted experts on the topic—provide an introduction to the technologies that harvest, store, and deliver solar energy, such as photovoltaics, solar heaters, and cells. The book also explores the applications of solar technologies and shows how they are applied in various sectors of the marketplace. The revised Fifth Edition offers guidance for using two key engineering software applications, Engineering Equation Solver (EES) and System Advisor Model (SAM). These applications aid in solving complex equations quickly and help with performing long-term or annual simulations. The new edition includes all-new examples, performance data, and photos of current solar energy applications. In addition, the chapter on concentrating solar power is updated and expanded. The practice problems in the Appendix are also updated, and instructors have access to an updated print Solutions Manual. This important book: • Covers all aspects of solar engineering from basic theory to the design of solar technology • Offers in-depth guidance and demonstrations of Engineering Equation Solver (EES) and System Advisor Model (SAM) software • Contains all-new examples, performance data, and photos of solar energy systems today • Includes updated simulation problems and a solutions manual for instructors Written for students and practicing professionals in power and energy industries as well as those in research and government labs, Solar Engineering of Thermal Processes, Fifth Edition continues to be the leading solar engineering text and reference.

**Solar Engineering of Thermal Processes** John A. Duffie,William A. Beckman,2006-08-25 The updated, cornerstone engineering resource of solar energy theory and applications. Solar technologies already provide energy for heat, light, hot water, electricity, and cooling for homes, businesses, and industry. Because solar energy only accounts for one-tenth of a percent of primary energy demand, relatively small increases in market penetration can lead to very rapid growth rates in the industry—which is exactly what has been projected for coming years as the world moves away from carbon-based energy production. Solar Engineering of Thermal Processes, Third Edition provides the latest thinking and practices for engineering solar technologies and using them in various markets. This Third Edition of the acknowledged leading book on solar engineering features: Complete coverage of basic theory, systems design, and applications Updated material on such cutting-edge topics as photovoltaics and wind power systems New homework problems and exercises

*Properties and Management of Soils in the Tropics* Pedro A. Sanchez,2019-01-10 Long-awaited second edition of classic textbook, brought completely up to date, for courses on tropical soils, and reference for scientists and professionals.

*Perception, Design and Ecology of the Built Environment* Mainak Ghosh,2020-01-24 This edited volume is a compilation of the 'built environment' in response to many investigations, analyses and sometimes mere observations of the various dialogues and interactions of the built, in context to its ecology, perception and design. The chapters concentrate on various independent issues, integrated as a holistic approach, both in terms of theoretical perspectives and practical approaches, predominantly focusing on the Global South. The book builds fabric knitting into the generic understanding of environment, perception and design encompassing 'different' attitudes and inspirations. This book is an important reference to topics concerning urbanism, urban developments and physical growth, and highlights new methodologies and practices. The book presumes an understanding unearthed from various dimensions and again woven back to a common theme, which emerges as the reader reads through. Various international experts of the respective fields working on the Global South contributed their latest research and insights to the different parts of the book. This trans-disciplinary volume appeals to scientists, students and professionals in the fields of architecture, geography, planning, environmental sciences and many more.

**Chain of Custody** Anita Nair,2016-08-22 What does thirteen-year-old Nandita's disappearance have to do with the murder of a prominent lawyer in a gated community? As Gowda investigates, he is suddenly embroiled in Bangalore's child-trafficking racket. Negotiating insensitive laws, indifferent officials, and uncooperative witnesses, he is in a race against time to rescue Nandita from one of the most depraved criminal rings he has ever encountered.

**Autumn Of The Matriarch** Diego Maiorano,2015-07-01 Indira Gandhi's last years in office as India's prime minister ran from January 1980 to her assassination in October 1984, but until now no book has been devoted to her final term. Among the principal themes discussed in this innovative volume are how Indian politics and society changed in the 1970s, including the Emergency (1975-77), Congress's response to insurgency in Punjab, Assam and Kashmir, the rise of new forms of political mobilization in the early 1980s and the prime minister's relationship with the key institutions of state. Maiorano also reveals how Mrs Gandhi's policies in the 1980s impacted on the big industrialists, the middle class, the rich peasantry and the poor, thereby crucially re-orienting India's economic strategy. Autumn of the Matriarch is the first major study of Mrs Gandhi's last years in power, an important juncture in India's recent history, as it saw the emergence of trends that influenced the country for the next three decades.

**The Ballad of Bant Singh** Nirupama Dutt,2016-01-14 On the evening of 5th January 2006, Bant Singh, a Dalit agrarian labourer and activist in Punjab's Jhabar village, was ambushed and brutally beaten by upper-caste Jat men armed with iron rods and axes. He lost both his arms and a leg in the attack. It was punishment for having fought for justice for his minor daughter who had been gang-raped. But his spirit was not broken, and he continues to fight for equality and dignity for millions like him, inspiring them with his revolutionary songs and his courage. Journalist and writer Nirupama Dutt tells Bant Singh's story in this powerful book which is both the biography of an extraordinary human being and a comment on the deep fault lines in Punjabi and Indian society.

**India-Pakistan Trade Normalisation** Nisha Taneja,Isha Dayal,2016-12-08 This book explores the unfinished India-Pakistan Trade normalisation agenda (building upon the themes covered in the book “India-Pakistan Trade: Strengthening Economic Relations” published by Springer in 2014) and discusses the steps that must be undertaken in order to move the bilateral engagement forward. Given the commencement of bilateral state-level talks and the Indian government’s emphasis on South Asian integration, it adds impetus to the trade liberalisation process, while also providing essential recommendations for policymakers in both countries. The unfinished agenda faces obstacles such as the list of items for which export from India to Pakistan continues to be restricted; lack of land borders and seamless cross-border transport services, which hampers the realisation of trade potential; negative reporting in the media, which influences traders’ perceptions; and the continued occurrence of informal trade resulting from inadequacies of formal trade relations. The book examines various sectors, including the agricultural, textiles, automotive and pharmaceutical industries, given their predominance on the list of restricted items for bilateral trade. It also covers studies on unconventional and under-researched themes concerning informal trade, informational barriers to India-Pakistan trade, and opening new land borders for trade – all of which can play a facilitating role in realizing the untapped trade potential between India and Pakistan. The book also includes the second round of the India-Pakistan trade perception survey, which identifies impediments to India-Pakistan bilateral trade and assesses the change in traders’ perceptions since the first round of the survey, which was published in 2014.

**108 Questions & Answers on Mutual Funds & SIP** Yadnya Investments,2017-08-18 Have you ever thought of letting your money work for you by being a part of the Indian growth story but the complicated financial jargon, perplexing terms and conditions, dilemma associated with risky investments and too many mutual fund options stopped you! This book provides answers to all such FAQs that an Indian Mutual Funds and SIP investor has. This book will help you understand the various types of mutual funds, their comparison with other assets, ways to invest in mutual funds and identify the type of funds that fit your profile the best. The author has approached this book in a question-answer format with lots of recent examples.

**The Quarry** Iain M. Banks,2013-06-25 Eighteen-year-old Kit is weird: big, strange, odd, socially disabled, on a spectrum that stretches from highly gifted at one end, to nutter at the other. At least Kit knows who his father is; he and Guy live together in a decaying country house on the unstable brink of a vast quarry. His mother's identity is another matter. Now, though, his father's dying, and old friends are gathering for one last time. Uncle Paul's a media lawyer now; Rob and Ali are upwardly mobile corporate bunnies; pretty, hopeful Pris is a single mother; Haze is still living up to his drug-inspired name twenty years on; and fierce, protective Hol is a gifted if acerbic critic. As young film students they lived at Willoughtree House with Guy, and they've all come back because they want something. Kit, too, has his own ulterior motives. Before his father dies he wants to know who his mother is, and what's on the mysterious tape they're all looking for. But most of all he wants to stop time and keep his father alive. Fast-paced, gripping and savagely funny, The Quarry is a virtuoso performance whose soaring riffs on the inexhaustible marvel of human perception and rage against the dying of the light will stand among Iain Banks' greatest work.

**A People's History of the United States** Howard Zinn,2003-02-04 Since its original landmark publication in 1980, A People's History of the United States has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the, workplace. Known for its lively, clear prose as well as its scholarly research, A People's History is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, A People's History of the United States, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new after, word by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.
