*Marriage Forecasting* Tim Muehlhoff,2010-10-18 What's the forecast for your marriage? Marriages are as variable as the weather, and every marriage has a climate. Some are chilly and lack intimacy. Others are stormy and filled with conflict. But while the weather outdoors is beyond our control, the communication climates within our homes can be changed--for the better. Communication specialist Tim Muehlhoff offers simple strategies for improving the climate of a marriage. Our individual words and actions always take place within an overall atmosphere of expectations. Without a healthy climate of trust, we are prone to miscommunication and misunderstanding. Muehlhoff shows how to take an accurate climate reading of a relationship and explains what causes climates of poor communication. With current research on marital communication, listening skills, empathy and conflict resolution, Marriage Forecasting provides practical ways for couples to rebuild a warm relational climate. Don't just talk about the weather. Break the cold front, clear the fog, and change the extended outlook for your marriage.

*Microsoft Bing's Algorithm Explained* IntroBooks Team, Microsoft has introduced the Graph (SPTAG) and Space Partition Tree algorithm visible to everyone as an open-source GitHub project, applied in its own Bing search engine. The algorithm allows the use of deep learning models and vector search to produce search-based results. It involves SPTAG understanding. The latest surge in advertisements and marketing promotions for Microsoft's new search engine viz., Bing, raises concerns about whether the formulas of the new engine allocate page rank to optimistic websites. It appears to be a skeptic approach if Bing will live up to expectations and become a genuine contender to Google. However, it is worth investigating how the search engines assess Bing in keeping with Google's popularity. Bing doesn't operate the same as Google, where the message of the anchor wouldn't be enough of a problem. Google counts the connection more than it counts the anchor text. Bing works in exactly the opposite way. It counts the text of the anchor more than just the link.

**Feed Yourself** Leslie Schilling,2023-08-01 Read by the author. Break the chains of diet culture once and for all. Diet culture permeates American society--even in our safest of places. It lurks in schools, playground conversations, medical offices, and even in our places of worship. We're often sold well-meaning messages wrapped in Bible verses that are actually rooted in the diet culture born of this world. It's only when you begin to see diet culture's lies that you can fight back, build resilience, and trust your divine design. Christian dietitian and nutrition therapist Leslie Schilling counsels hundreds of people every year who are struggling with food, body concerns, chronic dieting, and disordered eating. She helps them understand diet-culture myths, fight the lies we've been told (and sold), and discover the truth about health, well-being, and how God sees us. In Feed Yourself, you'll learn how to: Pinpoint the lies of diet culture all around you, even in our places of worship Understand that health is far more than what we eat or how we move Step away from the shame and guilt you may feel about your body Trust your body and recognize the cues your body gives you Identify what your body really needs Find freedom in food and learn to define health for yourself It's time to accept that you are fearfully and wonderfully made--a truth unrelated to your body size or what's on your plate. Cheers to freedom! Discussion questions, charts to help you discern diet culture, and recommended readings are included in the audiobook companion PDF download.

**Can't Slow Down** Michaelangelo Matos,2020-12-08 A Rolling Stone-Kirkus Best Music Book of 2020 The definitive account of pop music in the mid-eighties, from Prince and Madonna to the underground hip-hop, indie rock, and club scenes Everybody knows the hits of 1984 - pop music's greatest year. From Thriller to Purple Rain, Hello to Against All Odds, What's Love Got to Do with It to Wake Me Up Before You Go-Go, these iconic songs continue to dominate advertising, karaoke nights, and the soundtracks for film classics (Boogie Nights) and TV hits (Stranger Things). But the story of that thrilling, turbulent time, an era when Top 40 radio was both the leading edge of popular culture and a moral battleground, has never been told with the full detail it deserves - until now. Can't Slow Down is the definitive portrait of the exploding world of mid-eighties pop and the time it defined, from Cold War anxiety to the home-computer revolution. Big acts like Michael Jackson (Thriller), Prince (Purple Rain), Madonna (Like a Virgin), Bruce Springsteen (Born in the U.S.A.), and George Michael (Wham!'s Make It Big) rubbed shoulders with the stars of the fermenting scenes of hip-hop, indie rock, and club music. Rigorously researched, mapping the entire terrain of American pop, with crucial side trips to the UK and Jamaica, from the biz to the stars to the upstarts and beyond, Can't Slow Down is a vivid journey to the very moment when pop was remaking itself, and the culture at large - one hit at a time.

**The Historic Murder Trial of George Crawford** David Bradley,2014-05-27 The Depression-era murder trial of George Crawford in Northern Virginia helped end the exclusion of African Americans from juries. Nearly forgotten today, the murders, ensuing manhunt, extradition battle and sensational trial enthralled the nation. Before it was over, the U.S. House of Representatives threatened to impeach a federal judge, the age-old states rights debate was renewed, and a rift nearly split the

fledgling NAACP. In the end, the story's hero--Howard University Law School dean Charles Hamilton Houston--was the subject of public ridicule from critics who had little understanding of the inner workings of the case. This book puts the Crawford murder trial in its fullest context, side by side with relevant events of the time.

*Mrs. Dubose's Last Wish* Thomas Fellows, 2021-04-21 The main thesis of this book, I suppose, is that while 99% of the world tries to avoid suffering, the most successful people and people that will be remembered for generations to come, not only choose to suffer, but embrace it fully, often asking for more. Suffering is not for the faint of heart, but neither is anything that leads to something truly meaningful. Through my usual use of literature historical figures, scripture, popular music, and popular movies, and my own personal experiences, I try to not only encourage you, the reader, to choose to suffer as I have said in the paragraph below, but also to embrace it. Malcom Gladwell once said, good writing does not succeed or fail on the strength of its ability to persuade. It succeeds or fails on the strength of its ability to engage you, to make you think, to give you a glimpse into someone else's head. I hope I achieved this throughout the pages of Mrs. Dubose's Last Wish.
