Allen's Synonyms and Antonyms (Classic Reprint) F. Sturges Allen,2017-12-03 Excerpt from Allen's Synonyms and Antonyms
The collation and application of these memoranda have taken me many years of intense labor but these memoranda form the basis upon which the present dictionary has been constructed. My aim has been to make the scope of the book as broad as possible in order to meet the requirements of my most critical advisers, though this has not been easy. Some have urged that obsolete and rare words be omitted' others have advised that they be retained. Some have thought the contextual notes superfluous; others, even among professional writers, have considered them highly valuable. And so with other features of the book. At some have thought needless, others have thought helpful. As a result it has seemed advisable to meet all reasonable requirements by including those features which serve any widely felt need. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

Multilingualism and Bilingualism Sammy Beban

Chumbow,2018-05-30 Research in the area of bilingualism and multilingualism invariably produces fascinating insights. In the Europe of yesteryears, the paradigm of one nation one language was dominant and fashionable as a nation-building ideology that multilingualism was considered a curse, a demon that had to be exorcised. Today, the avalanche of empirical evidence of research findings has established multilingualism and pluralism as an ideal for national development. The nine chapters of this book provide further elucidations of the issue of benefits of bilingualism and multilingualism and also provide original research findings on developments in the areas of psychological dimensions of bilingualism and bilingualism in information retrieval systems. The book by its illuminating description and insightful analysis of issues of bilingualism will be of significant interest to scholars, researchers, and all concerned with bilingualism and multilingualism from whatever perspective.

Wild Alpha (Ashfall Mountain 6) Fel Fern, [Siren Classic ManLove: Erotic Romance, Alternative, Paranormal, Shape-shifter, Vampires/Werewolves, MM, HEA] Werewolf Alpha Talon is slowly losing his mind. He can't hold his pack together, much less his murderous wolf. When Talon sees an Omega in trouble, Talon jumps to Jasper's rescue without a second thought. When Jasper ends up in his bed later that night, Talon tells him to leave but the stubborn Omega refuses to budge. Jasper's able to do what no one else can—center his wolf. With Jasper, Talon thinks he can be a decent man, a better Alpha. But sooner or later, Talon knows his inner demons would win. He'll only doom them both. Jasper has never met a more infuriating man than Talon. Talon's all growl and bite, but it'll take more than that to run him off. Jasper might be an Omega, but he's found an equal in Talon. Other shifters call Talon a monster but Jasper is able to look beyond physical appearances. Talon needs fixing, but more than that, he needs love and acceptance. Talon is stuck with him, whether he likes it or not.

The Gothic Revival Kenneth Clark,1995 First published in 1928 and written while the author was still at Oxford, this book has become a classic. It remains the best possible introduction to the most widespread and influential architectural and decorative arts movement England ever produced. Though Gothic Revival buildings had changed the face of both town and country, they were hardly appreciated in the first half of this century. Architectural historians neglected them because so few were seen as great works of art; others averted their gaze, or laughed. That taste later changed was in many ways due to this book. Kenneth Clark's exploration of the changes in ideals and sensibility that inspired the Revival made it possible to see again with the eyes of those for whom the buildings had been designed, and whose imaginations they had fired.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
