Presidential Misconduct James M. Banner Jr., 2019-07-02 Named a best book of the year by The Economist and Foreign Affairs A whole book devoted exclusively to the misconduct of American presidents and their responses to charges of misconduct is without precedent. —from the introduction to the 1974 edition by C. Vann Woodward, Pulitzer Prize-winning Yale historian The historic 1974 report for the House Committee on the Judiciary, updated for today by leading presidential historians In May 1974, as President Richard Nixon faced impeachment following the Watergate scandal, the House Judiciary Committee commissioned a historical account of the misdeeds of past presidents. The account, compiled by leading presidential historians of the day, reached back to George Washington's administration and was designed to provide a benchmark against which Nixon's misdeeds could be measured. What the report found was that, with the exception of William Henry Harrison (who served less than a month), every American president has been accused of misconduct: James Buchanan was charged with rigging the election of 1856; Ulysses S. Grant was reprimanded for not firing his corrupt staffer, Orville Babcock, in the Whiskey Ring bribery scandal; and Franklin D. Roosevelt's administration faced repeated charges of malfeasance in the Works Progress Administration. Now, as another president and his subordinates face an array of charges on a wide range of legal and constitutional offenses, a group of presidential historians has come together under the leadership of James M. Banner, Jr.—one of the historians who contributed to the original report—to bring the 1974 account up to date through Barack Obama's presidency. Based on current scholarship, this new material covers such

well-known episodes as Nixon's Watergate crisis, Reagan's Iran-Contra scandal, Clinton's impeachment, and George W. Bush's connection to the exposure of intelligence secrets. But oft-forgotten events also take the stage: Carter's troubles with advisor Bert Lance, Reagan's savings and loan crisis, George H.W. Bush's nomination of Clarence Thomas to the Supreme Court, and Obama's Solyndra loan controversy. The only comprehensive study of American presidents' misconduct and the ways in which chief executives and members of their official families have responded to the charges brought against them, this new edition is designed to serve the same purpose as the original 1974 report: to provide the historical context and metric against which the actions of the current administration may be assessed.

Brandwashed Martin Lindstrom, 2011-09-28 A shocking insider's look at how global giants conspire to obscure the truth and manipulate our minds. Marketing visionary Martin Lindstrom has been on the front lines of the branding wars for over twenty years. Here, he turns the spotlight on his own industry, drawing on all he has witnessed behind closed doors, exposing for the first time the full extent of the psychological tricks and traps that companies devise to win our hard-earned dollars. Picking up from where Vance Packard's bestselling classic, *The Hidden Persuaders*, left off more than half-a-century ago, Lindstrom reveals: New findings that reveal how advertisers and marketers intentionally target children at an alarmingly young age - starting when they are still in the womb! Shocking results of an fMRI study which uncovered what heterosexual men really think about when they see sexually provocative advertising (hint: it isn't their girlfriends). How marketers and retailers stoke the flames of public panic and capitalize on paranoia over global contagions, extreme weather events, and food contamination scares. The first ever neuroscientific evidence proving how addicted we all are to our iPhones and our Blackberry's (and the shocking reality of cell phone addiction - it can be harder to shake than addictions to drugs and alcohol). How companies of all stripes are secretly mining our digital footprints to uncover some of the most intimate details of our private lives, then using that information to target us with ads and offers 'perfectly tailored' to our psychological profiles. How certain companies, like the maker of one popular lip balm, purposely adjust their formulas in order to make their products chemically addictive. What a 3-month long guerrilla marketing experiment, conducted specifically for this book, tells us about the most powerful hidden persuader of them all. And much, much more. This searing expose introduces a new class of tricks, techniques, and seductions - the *Hidden Persuaders* of the 21st century- and shows why they are more insidious and pervasive than ever.

Rise Above Greg Little, 2011-09-01 *Rise Above* is a detailed description of one man's journey of conquering adversity. You will read how the writer survived a near-fatal motor vehicle accident, which resulted in three skull fractures, a bruised brain, an eight-day coma and having to relearn how to walk and talk - made all the more challenging by a lingering speech impediment acquired in childhood. Stuttering is an awful burden for a person to carry throughout life. Children can be cruel. The writer's utmost fear, speaking in public, would one day be an ally and allow him to present programs extensively throughout the United States. This book is not about surviving

adversity. It's about thriving beyond adversity. Greg Little, a nationally renowned speaker and motivator, has presented to diverse groups, including health care, business and professional organizations, and educational institutions. His programs emphasize active involvement by participants. Whether teaching professionals to cope with stress, bond as a productive group or realize their hidden strengths, his seminars and keynote addresses are hard hitting and memorable. During one of Greg's presentations, I was laughing so hard that tears were literally streaming down my face. - Dr. Ed Kesgen; Sylva, NC One of the most energized, creative and innovative presentations I have ever experienced.- Jim Brennan, National Consultant; Wilbraham, MA Dr. Greg Little is superb speaker. This is an excellent investment in continuing education - Nancy DeBolt; Torrington, WY

King of the Night Laurence Leamer, 2011-03-29 A candid, unauthorized portrait of Johnny Carson draws on the observations of ex-wives, paramours, colleagues, family, and friends to provide a close-up study of America's most famous talk-show host.

Confessions of a Presidential Speechwriter Craig R. Smith, 2014-02-01 An avid high school debater and enthusiastic student body president, Craig Smith seemed destined for a life in public service from an early age. As a sought-after speechwriter, Smith had a front-row seat at some of the most important events of the twentieth century, meeting with Robert Kennedy and Richard Nixon, advising Governor Ronald Reagan, writing for President Ford, serving as a campaign manager for a major U.S. senator's reelection campaign, and writing speeches for a contender for the Republican nomination for president. Life in the volatile world of politics wasn't always easy, however, and as a closeted gay man, Smith struggled to reconcile his private and professional lives. In this revealing memoir, Smith sheds light on what it takes to make it as a speechwriter in a field where the only constant is change. While bouncing in and out of the academic world, Smith transitions from consultantships with George H. W. Bush and the Republican caucus of the U.S. Senate to a position with Chrysler CEO Lee Iacocca. When Smith returns to Washington, D.C., as president and founder of the Freedom of Expression Foundation, he becomes a leading player on First Amendment issues in the nation's capital. Returning at long last to academia, Smith finds happiness coming out of the closet and reaping the benefits of a dedicated and highly successful career.

Do You Talk Funny? David Nihill, 2016-03-08 Public speaking can be terrifying. For David Nihill, the idea of standing in front of an audience was scarier than cliff jumping into a thorny pit of spiders and mothers-in-law. Without a parachute or advanced weaponry. Something had to change. In what doesn't sound like the best plan ever, David decided to overcome his fears by pretending to be an accomplished comedian called Irish Dave for one full year, crashing as many comedy clubs, festivals, and shows as possible. One part of the plan was at least logical: he was already Irish and already called Dave. In one year, David went from being deathly afraid of public speaking to hosting a business conference, regularly performing stand-up comedy and winning storytelling competitions in front of packed houses. And he did it by learning from some of the best public speakers in the world: stand-up comedians. *Do You Talk Funny?: 7 Comedy Habits to Become a Better (and Funnier) Public Speaker* shows how the key principles of stand-up comedy can be applied to your speaking engagements and presentations to make you funnier,

more interesting, and better looking. (Or at least two of the three.) Whether you are preparing for a business presentation, giving a wedding toast, defending your thesis, raising money from investors, or simply want to take on something you're afraid of, this book will take you from sweaty to stage-ready. You'll learn how to: - Craft a story and content that your audience will want to listen to - Find the funniest parts of your material and how to get to them faster - Deal with stage fright - Master the two most important parts of your performance: timing and delivery Ten percent of the author's proceeds from this book will go to Arash Bayatmakou via Help Hope Live until he is fully back on his feet and thereafter to one of the many facing the same challenges after suffering a severe spinal cord injury.

Gender, Power, and Communication in Human Relationships Pamela J. Kalbfleisch, Michael J. Cody, 2012-12-06 This edited volume establishes a state-of-the-art perspective on theory and research on gender, power, and communication in human relationships. Both theoretical essays and review chapters address issues relevant to female and male differences in power, dominance, communication, equality, and expectations/beliefs. All chapter contributors share two commonalities. First, each provides a 1990s assessment of power and equality in female and male relationships. Second, each reviews respective programs of research and focuses attention on the relevance of this research to understanding the relationships of women and men. Unique because it incorporates a multidisciplinary approach to the study of gender and the communication of power in human relationships, this book includes the original work of intellectuals with national and international reputations in the social sciences. The volume provides both scholastic breadth and centralized treatment of issues that form the very foundation of social and personal relationships. It will appeal to scholars working in the disciplines of communication and psychology as well as other areas of social science research.

Indigenous Storywork Jo-Ann Archibald, 2008-06-01 Jo-ann Archibald worked closely with Coast Salish Elders and storytellers, who shared both traditional and personal life-experience stories, in order to develop ways of bringing storytelling into educational contexts. Indigenous Storywork is the result of this research and it demonstrates how stories have the power to educate and heal the heart, mind, body, and spirit. It builds on the seven principles of respect, responsibility, reciprocity, reverence, holism, interrelatedness, and synergy that form a framework for understanding the characteristics of stories, appreciating the process of storytelling, establishing a receptive learning context, and engaging in holistic meaning-making.

Race, Racism and Social Work Michael Lavalette, Laura Penketh, 2014-02-15 This volume contends that British social work education has not fully acknowledged the evolution of structural and institutionalized racism in the United Kingdom and continental Europe. Tracing the ways in which racism toward Britain's ethnic minority groups has changed, the contributors—many of them key practitioners in the field—argue that social work training should fully integrate anti-racist practices that reflect contemporary realities. In doing so, they assert the importance of social work in addressing racism toward groups including Eastern European migrants, Roma people, and asylum seekers.

Kaandossiwin Kathleen E. Absolon, 2011 Indigenous methodologies have been silenced and obscured by the Western scientific means of knowledge production. In a challenge to this colonialist rejection of Indigenous knowledge, Anishinaabe researcher Kathleen Absolon examines the academic work of fourteen Indigenous scholars who utilize Indigenous worldviews in their search for knowing. Through an examination not only of their work but also of their experience in producing that work, Kaandossiwin describes how Indigenous researchers re-theorize and re-create methodologies. Understanding Indigenous methodologies as guided by Indigenous paradigms, worldviews, principles, processes and contexts, Absolon argues that they are wholistic, relational, inter-relational and interdependent with Indigenous philosophies, beliefs and ways of life. In exploring the ways Indigenous researchers use Indigenous methodologies within mainstream academia, Kaandossiwin renders these methods visible and helps to guard other ways of knowing from colonial repression. Due to a printing error, the last page of Kaandossiwin was not included in the book. Please download a pdf version of this page. We sincerely apologize for any inconvenience.

Buyology Martin Lindstrom, 2010-02-02 NEW YORK TIMES BESTSELLER • “A fascinating look at how consumers perceive logos, ads, commercials, brands, and products.”—Time How much do we know about why we buy? What truly influences our decisions in today’s message-cluttered world? In *Buyology*, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can “cool” brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? *Buyology* is a fascinating and shocking journey into the mind of today’s consumer that will captivate anyone who’s been seduced—or turned off—by marketers’ relentless attempts to win our loyalty, our money, and our minds.

Coercion Douglas Rushkoff, 2000-10-01 Noted media pundit and author of *Playing the Future* Douglas Rushkoff gives a devastating critique of the influence techniques behind our culture of rampant consumerism. With a skilled analysis of how experts in the fields of marketing, advertising, retail atmospherics, and hand-selling attempt to take away our ability to make rational decisions, Rushkoff delivers a bracing account of media ecology today, consumerism in America, and why we buy what we buy, helping us recognize when we’re being treated like consumers instead of human beings.

The Hidden Persuaders Vance Packard, 2007 A discussion of how modern advertising attempts to control our thoughts and desires in order to make us buy the products it produces. Exploring the use of consumer motivational research and other psychological techniques, including subliminal tactics, this book shows how advertisers secretly manipulate mass desire for consumer goods and products. In addition, Packard also discusses advertising in politics, predicting the way image and personality rapidly came to overshadow real issues in the televised age.

Born to Buy Juliet B. Schor, 2014-08-19 Ads aimed at kids are virtually everywhere -- in classrooms and textbooks, on the Internet, even at slumber parties and the playground. Product placement and other innovations have introduced more subtle advertising to movies and television. Companies are enlisting children as guerrilla marketers, targeting their friends and families. Even trusted social institutions such as the Girl Scouts are teaming up with marketers. Drawing on her own survey research and unprecedented access to the advertising industry, New York Times bestselling author and leading cultural and economic authority Juliet Schor examines how a marketing effort of vast size, scope, and effectiveness has created commercialized children. Schor, author of *The Overworked American* and *The Overspent American*, looks at the broad implications of this strategy. Sophisticated advertising strategies convince kids that products are necessary to their social survival. Ads affect not just what they want to buy, but who they think they are and how they feel about themselves. Based on long-term analysis, Schor reverses the conventional notion of causality: it's not just that problem kids become overly involved in the values of consumerism; it's that kids who are overly involved in the values of consumerism become problem kids. In this revelatory and crucial book, Schor also provides guidelines for parents and teachers. What is at stake is the emotional and social well-being of our children. Like Barbara Ehrenreich's *Nickel and Dimed*, Mary Pipher's *Reviving Ophelia*, and Malcolm Gladwell's *The Tipping Point*, *Born to Buy* is a major contribution to our understanding of a contemporary trend and its effects on the culture.

Cinderella Ate My Daughter Peggy Orenstein, 2011-01-25 Peggy Orenstein, acclaimed author of the groundbreaking New York Times bestsellers *Girls & Sex* and *Schoolgirls*, offers a radical, timely wake-up call for parents, revealing the dark side of a pretty and pink culture confronting girls at every turn as they grow into adults. Sweet and sassy or predatory and hardened, sexualized girlhood influences our daughters from infancy onward, telling them that how a girl looks matters more than who she is. Somewhere between the exhilarating rise of *Girl Power* in the 1990s and today, the pursuit of physical perfection has been recast as the source of female empowerment. And commercialization has spread the message faster and farther, reaching girls at ever-younger ages. But how dangerous is pink and pretty, anyway? Being a princess is just make-believe; eventually they grow out of it . . . or do they? In search of answers, Peggy Orenstein visited Disneyland, trolled American Girl Place, and met parents of beauty-pageant preschoolers tricked out like Vegas showgirls. The stakes turn out to be higher than she ever imagined. From premature sexualization to the risk of depression to rising rates of narcissism, the potential negative impact of this new girlie-girl culture is undeniable—yet armed with awareness and recognition, parents can effectively counterbalance its influence in their daughters' lives.
