Yearbook of International Organizations, 2013-2014 (Volume 2) Union Of International Associations, Union of International Associations, 2013-06-21 The Yearbook of International Organizations provides the most extensive coverage of non-profit international organizations currently available. Detailed profiles of international non-governmental and intergovernmental organizations (IGO), collected and documented by the Union of International Associations, can be found here. In addition to the history, aims and activities of international organizations, with their events, publications and contact details, the volumes of the Yearbook include networks between associations, biographies of key people involved and extensive statistical data. Volume 2 allows users to locate organizations by the country in which secretariats or members are located.

Hybrid Entities in Tax Treaty Law Sriram Govind, Jean-Philippe Van West, 2020-09-03 Tax treaty law and EU tax law in connection with hybrid entities Hybrid entities have traditionally been used as an avenue for international tax planning, and extending benefits under tax treaties to such entities has been a source of controversy for many years now. Although the OECD Partnership Report provided solid policy footing on this issue, there was still no common legal basis that countries could rely on for such positions. The increasing focus of countries towards the curbing of tax avoidance and abuse involving hybrid mismatch arrangements culminated

in a specific action plan in the BEPS Project being dedicated to the design of domestic rules and the development of treaty provisions that would neutralize the tax effects of such arrangements. This volume provides an in-depth analysis of various aspects of this topic. It is divided into two parts – the first dealing exclusively with tax treaty issues arising in connection with hybrid entities and the second dealing with EU tax law issues surrounding hybrid entities. The former part comprises chapters analysing how tax treaties have historically dealt with this issue with a focus on domestic court jurisprudence, the positions in the OECD and the UN Model Conventions, the developments that have come about owing to the BEPS Project, and the impact of several existing measures, regimes, and vehicles on these tax treaty provisions. The latter part comprises chapters on how hybrid entities are dealt with under primary EU law, under various secondary law directives including the newly enacted Anti-Tax Avoidance Directives, and an analysis of policy solutions offered in this direction.

International Licensing Agreements Michala Meiselles, Hugo Wharton, 2018-10-02 Like any contract, an international licensing agreement spells out the rights and obligations of the contracting parties, manages potential risks and supplies a contingency plan for each party in the event the contractual relationship breaks down. However, international licensing of intellectual property, software or technology confronts the contracting parties with its own distinct

challenges. When planning, drafting and negotiating such agreements, it is imperative to know exactly what core issues need to be addressed. This book provides this know-how in an easy-to-use, clear and concise fashion. This expert guide to the complex world of international licensing agreements brings together all the essential materials needed when dealing with such agreements and covers the following: • business models that may be used by the contracting parties; • standard provisions encountered in an array of international licensing agreements; • analysis of the key clauses in various international licensing agreements inter alia trademark, software, franchise and technology licences with provisions as affected by jurisdiction; • effect of competition law in a variety of jurisdictions; • ensuring trademark protection at both national and international levels; • clear explanation of key franchising terminology and disclosure rules; and • effect of international dispute resolution rules in a range of jurisdictions. Alongside detailed contract analysis, the book details numerous case studies from an array of industries, with detailed commentary. Practitioners operating within or representing medium to large firms who normally have to prepare or provide advice on international licence arrangements will quickly find this reference material indispensable. The book's thorough analysis of this complex area will also be welcomed by professionals working for universities, industry, interest groups, government departments and international

organisations.

Hand of Ifa Chief Dr. Ayele Kumari, 2022-11-16

One of the first steps to Ifa is getting a Hand Of Ifa. It's reception marks a turning point where an individual begins to line up with their destiny, While a hand of Ifa is not a full initiation to Ifa, it is an advanced step beyond general interest and before you Initiate fully. Many practitioners at this level find themselves lost, not quite being a beginner and not an initiate either. A book like this has never been done specifically for practitioners at this level. It is a guide for people who have received a hand of ifa, gone through an Isefa ceremony, intend to initiate to Ifa, and also for people who are initiated but have had little instructions on how to manage and work with their Ifa. It can also be very valuable for people who are ready to take the next step in their Ifa journey as they prepare to receive a hand or initiate. Hand of Ifa is a workbook with exercises to further the Onifa and devotee development. It also offers an introduction to the 16 Meji Odus, their verses, and significance with soul development and personal growth. The individual will learn key foundational skills for success in Ifa such as: How to utilize Oriki for invocation and even create an Oriki How to care for Ifa and Esu shrines How to perform Ose Ifa How to assess our spiritual debts and cress through a Spiritual Balance sheet How to understand and interpret Ifa verses How to read Ifa signatures How to prepare some Ifa Akose (Spiritual Medicines) How to gain a personal understanding of Odus via their

psychology and practical expressions. And more... One of the first steps to Ifa is getting a Hand Of Ifa. Successful Case Studies in the Canary Islands' Tourism Industry Rosa M. Batista Canino, Teresa Aguiar Quintana, 2017-08-21 This book offers an interesting overview of good practices in the tourism industry. Its main strength is that its focus is not solely limited to hotels; rather, it provides several snapshots of the way economic activities of various different natures have been properly managed in order to make the Canary Islands a successful symbol of integrated tourist supply for a range of customers. Each case study provided here offers particular insights into the way local resources, including physical, environmental, human, and entrepreneurial factors, have been exploited in order to boost tourism. The book can be also serve as a reference tool for those who are thinking about improving their business or starting a new one.

Inevitably Toxic Brinda Sarathy, Vivien Hamilton, Janet Farrell Brodie, 2018-10-16 Not a day goes by that humans aren't exposed to toxins in our environment—be it at home, in the car, or workplace. But what about those toxic places and items that aren't marked? Why are we warned about some toxic spaces' substances and not others? The essays in *Inevitably Toxic* consider the exposure of bodies in the United States, Canada and Japan to radiation, industrial waste, and pesticides. Research shows that appeals to uncertainty have led to social inaction even when evidence, e.g. the link between carbon emissions and global warming, stares us in the face. In some cases, influential scientists, engineers and doctors have deliberately manufactured doubt and uncertainty

but as the essays in this collection show, there is often no deliberate deception. We tend to think that if we can't see contamination and experts deem it safe, then we are okay. Yet, having knowledge about the uncertainty behind expert claims can awaken us from a false sense of security and alert us to decisions and practices that may in fact cause harm.

Global Ecology and Oceanography of Harmful Algal Blooms Patricia M. Glibert, Elisa Berdalet, Michele A. Burford, Grant C. Pitcher, Mingjiang

Zhou, 2018-04-26 Harmful algal blooms (HABs) - blooms that cause fish kills, contaminate seafood with toxins, or cause human or ecological health impacts and harm to local economies - are occurring more often, in more places and lasting longer than in past decades. This expansion is primarily the result of human activities, through increased nutrient inputs and various aspects of climate change. The Global Ecology and Oceanography of Harmful Algal Blooms (GEOHAB) programme promoted international collaboration to understand HAB population dynamics in various oceanographic regimes and to improve the prediction of HABs. This volume introduces readers to the overarching framework of the GEOHAB programme, factors contributing to the global expansion of harmful algal blooms, the complexities of HABs in different habitats, and the forward-looking issues to be tackled by the next generation of GEOHAB, GlobalHAB. The programme brought together an international team of contributing scientists and ecosystem managers, and its outcomes will greatly benefit the

international research community.

Harmful Algal Blooms Sandra E. Shumway, JoAnn M. Burkholder, Steven L. Morton, 2018-08-06 Harmful Algal Blooms: A Compendium Desk Reference provides basic information on harmful algal blooms (HAB) and references for individuals in need of technical information when faced with unexpected or unknown harmful algal events. Chapters in this volume will provide readers with information on causes of HAB, successful management and monitoring programs, control, prevention, and mitigation strategies, economic consequences of HAB, associated risks to human health, impacts of HAB on food webs and ecosystems, and detailed information on the most common HAB species. Harmful Algal Blooms: A Compendium Desk Reference will be an invaluable resource to managers, newcomers to the field, those who do not have easy or affordable access to scientific literature, and individuals who simply do not know where to begin searching for the information needed, especially when faced with novel and unexpected HAB events. Edited by three of the world's leading harmful algal bloom researchers and with contributions from leading experts, Harmful Algal Blooms: A Compendium Desk Reference will be a key source of information for this increasingly important topic.

Yearbook of International Sports Arbitration 2016 Antoine Duval, Antonio Rigozzi, 2018-03-15 The Yearbook of International Sports Arbitration is the first academic publication aiming to offer comprehensive coverage, on a yearly basis, of the most recent and salient developments regarding international sports arbitration, through a

combination of general articles and case notes. The present volume covers decisions rendered by the Court of arbitration for Sport (CAS) and national courts in 2016. It is a must-have for sports lawyers and arbitrators, as well as researchers engaged in this field. It provides in-depth articles on burning issues raised by international sports arbitration, and independent commentaries by esteemed academics and seasoned practitioners on the most important decisions of the year by the CAS and national courts. Dr. Antoine Duval is Senior Researcher for International and European Sports Law at the T.M.C. Asser Instituut in The Hague. He holds a Ph.D. on the interaction between Lex Sportiva and EU Law from the European University Institute in Florence. Prof. Antonio Rigozzi teaches international arbitration and sports law at the University of Neuchâtel, Switzerland, and is the partner in charge of the sports arbitration practice at Lévy Kaufmann-Kohler, a Geneva-based law firm specializing in international arbitration.

Uniform Rules for European Contract Law?

Francisco de Elizalde, 2018-06-28 Over the last 30 years, the evolution of *acquis communautaire* in consumer law and harmonising soft law proposals have utterly transformed the landscape of European contract law. The initial enthusiasm and approval for the EU programme has waned and, post Brexit, it currently faces increasing criticism over its effectiveness. In this collection, leading academics assess the project and ask if such judgements are fair, and suggest how harmonisation

in the field might be better achieved. This book looks at the uniform rules in the context of: the internal market; national legislators and courts; bridging the gap between common and civil law; and finally their influence on non-member states. Critical and rigorous, it provides a timely and unflinching critique of one of the most important fields of harmonisation in the European Union.

Phosphorus in Agriculture: 100 % Zero Ewald Schnug, Luit J. De Kok, 2016-06-14 The title 'Phosphorus in Agriculture: 100 % Zero' is synonymous for make-or-break. And it stands up to the promise. This book sends an important message as it delivers background information, intrinsic hypotheses, validation approaches and legal frameworks, all for balanced phosphorus fertilization in agriculture. This implies firstly that the phosphorus requirement of crop is fully satisfied by applying exclusively fertilizers which contain the nutrient in completely available form. Secondly, environmental demands through eutrophication and hazardous contaminants must not be compromised. The book identifies equally knowledge gaps and deficits in the transformation and implementation of research into practice. Bottom line is that research delivers the tools for a sustainable phosphorus management while legal frameworks are insufficient.

The Routledge International Handbook of Race, Culture and Mental Health Roy Moodley, Eunjung Lee, 2020-10-27 This handbook presents a thorough examination of the intricate interplay of race, ethnicity, and culture in mental health – historical origins, subsequent transformations,

and the discourses generated from past and present mental health and wellness practices. The text demonstrates how socio-cultural identities including race, gender, class, sexual orientation, disability, religion, and age intersect with clinical work in a range of settings. Case vignettes and recommendations for best practice help ground each in a clinical focus, guiding practitioners and educators to actively increase their understanding of non-Western and indigenous healing techniques, as well as their awareness of contemporary mental health theories as a product of Western culture with a particular historical and cultural perspective. The international contributors also discuss ways in which global mental health practices transcend racial, cultural, ethnic, linguistic, and political boundaries. The Routledge International Handbook of Race, Culture and Mental Health is an essential resource for students, researchers, and professionals alike as it addresses the complexity of mental health issues from a critical, global perspective.

Holocaust Archaeologies Caroline Sturdy Colls, 2015-02-28 Holocaust Archaeologies: Approaches and Future Directions aims to move archaeological research concerning the Holocaust forward through a discussion of the variety of the political, social, ethical and religious issues that surround investigations of this period and by considering how to address them. It considers the various reasons why archaeological investigations may take place and what issues will be brought to bear when fieldwork is suggested. It presents an

interdisciplinary methodology in order to demonstrate how archaeology can (uniquely) contribute to the history of this period. Case examples are used throughout the book in order to contextualise prevalent themes and a variety of geographically and typologically diverse sites throughout Europe are discussed. This book challenges many of the widely held perceptions concerning the Holocaust, including the idea that it was solely an Eastern European phenomena centred on Auschwitz and the belief that other sites connected to it were largely destroyed or are well-known. The typologically , temporally and spatial diverse body of physical evidence pertaining to this period is presented and future possibilities for investigation of it are discussed. Finally, the volume concludes by discussing issues relating to the “re-presentation” of the Holocaust and the impact of this on commemoration, heritage management and education. This discussion is a timely one as we enter an age without survivors and questions are raised about how to educate future generations about these events in their absence.

Ifa Divination William Russell Bascom, 1991-03-11
The sacred texts of Ifa, repository of the accumulated wisdom of countless generations of Yoruba people, are an invaluable source not only for all students of African oral literature and Yoruba civilization, but also for future generations interested in the continuing vitality of Ifa divination and a Yoruba way of life and thought. —Henry Drewal This landmark study of Ifa, the most important and elaborate system of

divination of the Yoruba people of Nigeria, remains a monumental contribution to scholarship in anthropology, folklore, religion, philosophy, linguistics, and African and African-American studies.

TERI Energy & Environment Data Diary and Yearbook (TEDDY) 2015/16 (Updated Edition), 2016-12-22 TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by The Energy and Resources Institute (TERI) since 1986. It is the only comprehensive energy and environment yearbook in India which provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, residential, and commercial sectors), and environment (local and global). The publication also provides a review of the government policies that have implications for these sectors of the Indian economy. Each edition of TEDDY contains India's commercial energy balances for the last four years that provide comprehensive information on energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable ready reckoner for researchers, scholars, and organizations working on energy sector. After the introductory chapters, for the ease of readers, TEDDY has been divided into sections on energy supply, energy demand, and local and global environment. Interactive graphs, figures, maps, and tables have been used throughout the chapters to explain facts, which make the book an

interesting read. In addition, detailed tables at the end of each chapter represent statistical data on each of the above-mentioned sectors. The publication is accompanied by a complimentary CD containing full text. The publication has more than 15,000 readers across the globe and is often cited in international peer reviewed journals and policy documents. Key Features: □ Exhaustive compilation of data from energy supply and demand sectors □ Recent data along with data from the past years covered in the form of structured and easy-to-understand tables □ Recent advances made in the energy sectors □ Self-explanatory figures and graphs showing the latest trends in various sectors □ The □Green Focus□ at the end of every chapter highlights a topical issue □ A complimentary CD that contains all the chapters and additional tables

Lipidomics William J Griffiths, Yuguin Wang, 2020-01-23 Lipidomics is one of the emerging 'omics' techniques with growing importance in bioscience. Discussing interesting standard and non-standard techniques relevant to the measurement and analysis of lipids by mass spectrometry, this book will provide a guide to the possibilities of the techniques. It will introduce the reader to exciting new methods that allow isomer differentiation, improve sensitivity, allow spatial location and go beyond annotation of simply matching a mass to a database entry. The book is written and edited by the some of the world leaders in the field of lipid mass spectrometry and will have international appeal in industry and academia for analytical chemists,

biochemists and biotechnologists. Furthermore, it will provide a useful resource for anyone interested in lipid structure characterization particularly for graduates and postgraduates who require a starting point for their projects.

The Routledge Handbook of Differentiation in the European Union Benjamin Leruth, Stefan Gänzle, Jarle Trondal, 2022-05-11 The Routledge Handbook of Differentiation in the European Union offers an essential collection of groundbreaking chapters reflecting on the causes and consequences of this complex phenomenon. With contributions from key experts in this subfield of European Studies, it will become a key volume used for those interested in learning the nuts and bolts of differentiation as a mechanism of (dis)integration in the European Union, especially in the light of Brexit.

Organised around five key themes, it offers an authoritative encyclopaedia of differentiation and addresses questions such as: How can one define differentiation in the European Union in the light of the most recent events? Does differentiation create more challenges or opportunities for the European Union? Is Europe moving away from an ever closer Union and heading towards an ever more differentiated Union, especially as leading political figures across Europe favour the use of differentiation to reconcile divergences between member states? This handbook is essential reading and an authoritative reference for scholars, students, researchers and practitioners involved in, and actively concerned about, research in the study of European integration. As European differentiation is multifaceted and involves a

wide range of actors and policies, it will be of further interest to those working on countries and/or in policy areas where differentiation is an increasingly relevant feature. The Introduction and chapters 13, 21, 30, and 35 of this book is available for free in PDF format as Open Access from the individual product page at www.routledge.com. It has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

Migrating to Opportunity Mauro Testaverde, Harry Moroz, Claire H. Hollweg, Achim Schmitten, 2017-10-02
The movement of people in Southeast Asia is an issue of increasing importance. Countries of the Association of Southeast Asian Nations (ASEAN) are now the origin of 8 percent of the world's migrants. These countries host only 4 percent of the world's migrants but intra-regional migration has turned Malaysia, Singapore, and Thailand into regional migration hubs that are home to 6.5 million ASEAN migrants. However, significant international and domestic labor mobility costs limit the ability of workers to change firms, sectors, and geographies in ASEAN. This report takes an innovative approach to estimate the costs for workers to migrate internationally. Singapore and Malaysia have the lowest international labor mobility costs in ASEAN while workers migrating to Myanmar and Vietnam have the highest costs. Singapore and Malaysia's more developed migration systems are a key reason for their lower labor mobility costs. How easily workers can move to take advantage of new opportunities is important in determining how they fare under the increased

economic integration planned for ASEAN. To study this question, the report simulates how worker welfare is affected by enhanced trade integration under different scenarios of labor mobility costs. Region-wide, worker welfare would be 14 percent higher if barriers to mobility were reduced for skilled workers, and an additional 29 percent if barriers to mobility were lowered for all workers. Weaknesses in migration systems increase international labor mobility costs, but policy reforms can help. Destination countries should work toward systems that are responsive to economic needs and consistent with domestic policies. Sending countries should balance protections for migrant workers with the needs of economic development.
