**U.S. Marines In Vietnam: The Landing And The Buildup, 1965** Dr. Jack Shulimson, Maj. Charles M. Johnson, 2016-08-09 This is the second volume in a series of chronological histories prepared by the Marine Corps History and Museums Division to cover the entire span of Marine Corps involvement in the Vietnam War. This volume details the Marine activities during 1965, the year the war escalated and major American combat units were committed to the conflict. The narrative traces the landing of the nearly 5,000-man 9th Marine Expeditionary Brigade and its transformation into the III Marine Amphibious Force, which by the end of the year contained over 38,000 Marines. During this period, the Marines established three enclaves in South Vietnam's northernmost corps area, I Corps, and their mission expanded from defense of the Da Nang Airbase to a balanced strategy involving base defense, offensive operations, and pacification. This volume continues to treat the activities of Marine advisors to the South Vietnamese armed forces but in less detail than its predecessor volume, U.S. Marines in Vietnam, 1954-1964; The Advisory and Combat Assistance Era.

**After the Revolution** Robert Evans, 2022-05-10 What will the fracturing of the United States look like? After the Revolution is an edge-of-your-seat answer to that question. In the year 2070, twenty years after a civil war and societal collapse of the old United States, extremist militias battle in the crumbling Republic of Texas. As the violence spreads like wildfire and threatens the Free City of Austin, three unlikely allies will have to work together in an act of resistance to stop the advance of the forces of the white Christian ethnostate known as the Heavenly Kingdom. Out three protagonists include Manny, a fixer that shuttles journalists in and out of war zones and provides footage for outside news agencies. Sasha is a teenage woman that joins the Heavenly Kingdom before she discovers the ugly truths behind their movement. Finally, we have Roland: A US Army vet kitted out with cyberware (including blood that heals major trauma wounds and a brain that can handle enough LSD to kill an elephant), tormented by broken memories, and 12,000 career kills under his belt. In the not-so-distant world Evans conjures we find advanced technology, a gender expansive culture, and a roving Burning Man-like city fueled by hedonistic excess. This powerful debut novel from Robert Evans is based on his investigative reporting from international conflict zones and on increasingly polarized domestic struggles. It is a vision of our very possible future.
