Companion to Women's Historical Writing M. Spongberg,A. Curthoys,B. Caine,2016-04-30 This A-Z reference work provides the first comprehensive reference guide to the wide range of historical writing with which women have been involved, particularly since the Renaissance. The Companion covers biographical writing, travelogue and historical fictions, broadening the concept of history to include the forms of writing with which women have historically engaged. The focus is on women writing in English internationally, but historical and historiographical traditions from beyond the English-speaking world are also examined. Brief biographies of individual writers are included.

Creations in Verse George Clements,2000-07 A book of verse in great variety, started by the author's thoughts of the sea and spread to adventure and variety in the love of life. Poems of great storms at sea to nature's quiet moments of beauty, and even love. Poems about friends real and unreal. Everything comes from the experience, some combined with imagination, love, and beliefs. This book is me from my participation in life. Just to enjoy.

Renewables information 2010 International Energy Agency,2010-09-02 Renewables Information provides a comprehensive review of historical and current market trends in OECD countries. This reference document brings together essential statistics on renewable and waste energy sources. It therefore provides a strong foundation for policy and market analysis, which in turn can better inform the policy decision process to select policy instruments best suited to meet domestic and international objectives. Part II of the publication provides an overview of the development of renewables and waste in the world over the 1990 to 2008 period. A greater focus is given to OECD countries with a review of electricity generation and capacity from renewable and waste energy sources. Part III of the publication provides a corresponding statistical overview of developments in the world and OECD renewable and waste market. Part IV provides, in tabular form, a more detailed and comprehensive picture of developments for renewable and waste energy sources for 30 OECD member countries, including 2009 preliminary data. It encompasses energy indicators, generating capacity, electricity and heat production from renewable and waste sources, as well as production and consumption of renewables and waste
