Musical Sound Effects Jean-Michel Réveillac, 2018-03-07 For decades performers, instrumentalists, composers, technicians and sound engineers continue to manipulate sound material. They are trying with more or less success to create, to innovate, improve, enhance, restore or modify the musical message. The sound of distorted guitar of Jimi Hendrix, Pierre Henry's concrete music, Pink Flyod's rock psychedelic, Kraftwerk 's electronic music, Daft Punk and rap T-Pain, have let emerge many effects: reverb, compression, distortion, auto-tune, filter, chorus, phasing, etc. The aim of this book is to introduce and explain these effects and sound treatments by addressing their theoretical and practical aspects.

Performance Artists Talking in the Eighties Linda M. Montano, 2023-09-01
Performance artist Linda Montano, curious about the influence childhood experience has on adult work, invited other performance artists to consider how early events associated with sex, food, money/fame, or death/ritual resurfaced in their later work. The result is an original and compelling talking performance that documents the production of art in an important and often misunderstood community. Among the more than 100 artists Montano interviewed from 1979 to 1989 were John Cage, Suzanne Lacy, Faith Ringgold, Dick Higgins, Annie Sprinkle, Allan Kaprow, Meredith Monk, Eric Bogosian, Adrian Piper, Karen Finley, and Kim Jones. Her discussions with them focused on the relationship between art and life, history and memory, the individual and society, and the potential for individual and social change. The interviews highlight complex issues in performance art, including the role of identity in performer-audience relationships and art as an exploration of everyday conventions rather than a demonstration of virtuosity.

Archaeology from Space Sarah Parcak, 2019-07-09 National Geographic Explorer and TED Prize-winner Dr. Sarah Parcak welcomes you to the exciting new world of space archaeology, a growing field that is sparking extraordinary discoveries from ancient civilizations across the globe. In Archaeology from Space, Sarah Parcak shows the evolution, major discoveries, and future potential of the young field of satellite archaeology. From surprise advancements after the declassification of spy photography, to a new map of the mythical Egyptian city of Tanis, she shares her field's biggest discoveries, revealing why space archaeology is not only exciting, but urgently essential to the preservation of the world's ancient treasures. Parcak has worked in twelve countries and four continents, using

multispectral and high-resolution satellite imagery to identify thousands of previously unknown settlements, roads, fortresses, palaces, tombs, and even potential pyramids. From there, her stories take us back in time and across borders, into the day-to-day lives of ancient humans whose traits and genes we share. And she shows us that if we heed the lessons of the past, we can shape a vibrant future. Includes Illustrations

The Cultural Cold War Frances Stonor Saunders, 2013-11-05 During the Cold War, freedom of expression was vaunted as liberal democracy's most cherished possession—but such freedom was put in service of a hidden agenda. In *The Cultural Cold War*, Frances Stonor Saunders reveals the extraordinary efforts of a secret campaign in which some of the most vocal exponents of intellectual freedom in the West were working for or subsidized by the CIA—whether they knew it or not. Called the most comprehensive account yet of the [CIA's] activities between 1947 and 1967 by the *New York Times*, the book presents shocking evidence of the CIA's undercover program of cultural interventions in Western Europe and at home, drawing together declassified documents and exclusive interviews to expose the CIA's astonishing campaign to deploy the likes of Hannah Arendt, Isaiah Berlin, Leonard Bernstein, Robert Lowell, George Orwell, and Jackson Pollock as weapons in the Cold War. Translated into ten languages, this classic work—now with a new preface by the author—is a real contribution to popular understanding of the postwar period (*The Wall Street Journal*), and its story of covert cultural efforts to win hearts and minds continues to be relevant today.

The Search for a Nonviolent Future Michael N. Nagler, 2010-10-01 Beginning with the achievements of Mahatma Gandhi, and following the legacy of nonviolence through the struggles against Nazism in Europe, racism in

America, oppression in China and Latin America, and ethnic conflicts in Africa and Bosnia, Michael Nagler unveils a hidden history. Nonviolence, he proposes, has proven its power against arms and social injustice wherever it has been correctly understood and applied. Nagler's approach is not only historical but also spiritual, drawing on the experience of Gandhi and other activists and teachers. Individual chapters include A Way Out of Hell, The Sweet Sound of Order, and A Clear Picture of Peace. The last chapter includes a five-point blueprint for change and study circle guide. The foreword by Arun Gandhi, the grandson of Mahatma Gandhi, is new to this edition.

More Readings From One Man's Wilderness John Branson, 2012-02-07 Throughout history, many people have escaped to nature either permanently or temporarily to rest and recharge. Richard L. Proenneke, a modern-day Henry David Thoreau, is no exception. Proenneke built a cabin in Twin Lakes, Alaska in 1968 and began thirty years of personal growth, which he spent growing more connected to the wilderness in which he lived. This guide through Proenneke's memories follows the journey that began with *One Man's Wilderness*, which contains some of Proenneke's journals. It continues the story and reflections of this mountain man and his time in Alaska. The editor, John Branson, was a longtime friend of Proenneke's and a park historian. He takes care that Proenneke's journals from 1974-1980 are kept exactly as the author wrote them. Branson's footnotes give a background and a new understanding to the reader without detracting from Proenneke's style. Anyone with an interest in conservation and genuine wilderness narratives will surely enjoy and treasure this book.

Purity Jonathan Franzen, 2015-09-01 NEW YORK TIMES BESTSELLER A NEW YORK TIMES BOOK REVIEW Notable Book "So funny, so sage and above all so incandescently intelligent" (The Chicago Tribune), the New York Times

bestseller *Purity* is a grand story of youthful idealism, extreme fidelity, and murder, a daring and penetrating book from "the most intelligent novelist of [his] generation" (The New Republic), Jonathan Franzen. Young Pip Tyler doesn't know who she is. She knows that her real name is Purity, that she's saddled with \$130,000 in student debt, that she's squatting with anarchists in Oakland, and that her relationship with her mother--her only family--is hazardous. But she doesn't have a clue who her father is, why her mother chose to live as a recluse with an invented name, or how she'll ever have a normal life. Enter the Germans. A glancing encounter with a German peace activist leads Pip to an internship in South America with The Sunlight Project, an organization that traffics in all the secrets of the world--including, Pip hopes, the secret of her origins. TSP is the brainchild of Andreas Wolf, a charismatic provocateur who rose to fame in the chaos following the fall of the Berlin Wall. Now on the lam in Bolivia, Andreas is drawn to Pip for reasons she doesn't understand, and the intensity of her response to him upends her conventional ideas of right and wrong. *Purity* is a grand story of youthful idealism, extreme fidelity, and murder. The author of *The Corrections* and *Freedom* has imagined a world of vividly original characters--Californians and East Germans, good parents and bad parents, journalists and leakers--and he follows their intertwining paths through landscapes as contemporary as the omnipresent Internet and as ancient as the war between the sexes. *Purity* is the most daring and penetrating book yet by one of the major writers of our time.

Kissed By A Deer Margi Gibb, 2015-10-01 Prepare to be swept away by a story that is intimate, true, and utterly compelling. Margi Gibb's much-loved father dies and, with her immediate family largely gone, her life is changed

irrevocably. Immersing herself more deeply in art and music, she travels to America to study the sacred art of the mandala, exploring the wisdom traditions of Indigenous Indian peoples in the process. Then after a serendipitous encounter back in Australia she travels to Dharamsala to care for children in an after school program at a Tibetan women's handicraft cooperative. Her underlying passion is to initiate guitar lessons for Tibetan refugees. What follows is unexpected. Margi's developing bonds with two very different Tibetan men, Tenzin and Yonten, change her life in complex and enduring ways. Eventually she journeys to Tibet. Kissed by a Deer is a book about East and West. It is a passionate quest for the personal and intellectual truth that only comes through lived experience. Gibb's story gives us amazing places, and wonderful characters, people we come to love and care about despite their failings. In its pages, wisdom searchingly finds its humble roots in the connections of heart, imagination and mind; in the midst of the act of living.

The Years with Ross James Thurber, 2021-10-12 From iconic American humorist James Thurber, a celebrated and poignant memoir about his years at The New Yorker with the magazine's unforgettable founder and longtime editor, Harold Ross "Extremely entertaining. . . . life at The New Yorker emerges as a lovely sort of pageant of lunacy, of practical jokes, of feuds and foibles. It is an affectionate picture of scamps playing their games around a man who, for all his brusqueness, loved them, took care of them, pampered and scolded them like an irascible mother hen." -New York Times With a foreword by Adam Gopnik and illustrations by James Thurber At the helm of America's most influential literary magazine from 1925 to 1951, Harold Ross introduced the country to a host of exciting talent, including Robert Benchley, Alexander Woollcott, Ogden Nash, Peter Arno, Charles Addams, and Dorothy Parker. But no

one could have written about this irascible, eccentric genius more affectionately or more critically than James Thurber, whose portrait of Ross captures not only a complex literary giant but a historic friendship and a glorious era as well. If you get Ross down on paper, warned Wolcott Gibbs to Thurber, nobody will ever believe it. But readers of this unforgettable memoir will find that they do. Offering a peek into the lives of two American literary giants and the New York literary scene at its heyday, *The Years with Ross* is a true classic, and a testament to the enduring influence of their genius.

One Man's Wilderness Richard Proenneke, Sam Keith, 2013-03 To live in a pristine land, unchanged by man; to roam a wilderness through which few other humans pass; to choose an idyllic site, cut trees and build a log cabin; to be a self-sufficient craftsman, making what is needed from materials available; to be not at odds with thye world, but content with one's own thoughts and company. Thousands have had such dreams but Richard Proenneke lived them. He found a place, built a cabin and stayed to become part of the country. [This] is a simple account of the day-to-day explorations and activities he carried out alone and the constant chain of nature's events that kept him company--Publisher's description.

Introductory Grammar of Amharic Wolf Leslau, 2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the

language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.
