When a Loved One Dies K. D. Pryor,2011 Brittany, France. Near the coast. A picturesque inn. Spectacular scenery. Tasty French treats. Time off from school. Tallis Challinor imagines this as the perfect vacation scenario, so when her grandfather suggests that she accompany him to the country of her ancestors, she is more than happy to tag along. What Tallis doesn't bargain on is another ghostly encounter, especially not so soon after she's sealed up a bunch of unruly ghosts on their side of the portal between the human and spirit realms. But, when she feels the energy radiating from the megalithic standing stones dotting the countryside around Carnac, France, an energy that feels frighteningly like the power exuding from the portal in her basement back home, she has a feeling she might be in trouble. And, she is right. When her grandfather goes missing, Tallis leaps into action. She calls the only ghostbuster she knows in France and, with help on the way, she gears up to battle another set of spirits bent on causing destruction. Along the way, Tallis is forced to examine her life, her relationships, and her tightly-held beliefs about who she is and where she comes from. She also has to juggle two impossible males, both attractive but annoying, both seemingly set on driving her nuts or breaking her heart.

Tales from Kentucky Funeral Homes William Lynwood Montell,2009-10-02 In Tales from Kentucky Funeral Homes, William Lynwood Montell has collected stories and reminiscences from funeral home directors and embalmers across the state. These accounts provide a record of the business of death as it has been practiced in Kentucky over the past fifty years. The collection ranges from tales of old-time burial practices, to stories about funeral customs unique to the African American community, to tales of premonitions, mistakes, and even humorous occurrences. Other stories involve such unusual aspects of the business as snake-handling funerals, mistaken identities, and in-home embalming. Taken together, these firsthand narratives preserve an important aspect of Kentucky social life not likely to be collected elsewhere. Most of these funeral home stories involve the recent history of Kentucky funeral practices, but some descriptive accounts go back to the era when funeral directors used horse-drawn wagons to reach secluded areas. These accounts, including stories about fainting relatives, long-winded preachers, and pallbearers falling into graves, provide significant insights into the pivotal role morticians have played in local life and culture over the years.

Rest in Peace Gary Laderman,2003-03-06 Though it has often been passionately criticized--as fraudulent, exploitative, even pagan--the American funeral home has become nearly as inevitable as death itself, an institution firmly embedded in our culture. But how did the funeral home come to hold such a position? What is its history? And is it guilty of the charges sometimes leveled against it? In Rest in Peace, Gary Laderman traces the origins of American funeral rituals, from the evolution of embalming techniques during and after the Civil War and the shift from home funerals to funeral homes at the turn of the century, to the increasing subordination of priests, ministers, and other religious figures to the funeral director throughout the twentieth century. In doing so he shows that far from manipulating vulnerable mourners, as Jessica Mitford claimed in her best-selling The American Way of Death (1963), funeral directors are highly respected figures whose services reflect the community's deepest needs and wishes. Indeed, Laderman shows that funeral directors generally give the people what they want when it is time to bury our dead. He reveals, for example, that the open casket, often criticized as barbaric, provides a deeply meaningful moment for friends and family who must say goodbye to their loved one. But he also shows how the dead often come back to life in the popular imagination to disturb the peace of the living. Drawing upon interviews with funeral directors, major historical events like the funerals of John F. Kennedy and Rudolf Valentino, films, television, newspaper reports, proposals for funeral reform, and other primary sources, Rest in Peace cuts through the rhetoric to show us the reality--and the real cultural value--of the American funeral.

Confessions of a Funeral Director Caleb Wilde,2017-09-26 The blogger behind Confessions of a Funeral Director—what Time magazine called a must read—reflects on mortality and the powerful lessons death holds for every one of us in this compassionate and thoughtful spiritual memoir that combines the humor and insight of Smoke Gets in Your Eyes with the poignancy and brevity of When Breath Becomes Air. We are a people who deeply fear death. While humans are biologically wired to evade death for as long as possible, we have become too adept at hiding from it, vilifying it, and—when it can be avoided no longer—letting the professionals take over. Sixth-generation funeral director Caleb Wilde understands this reticence and fear. He had planned to get as far away from the family business as possible. He wanted to make a difference in the world, and how could he do that if all the people he worked with were . . . dead? Slowly, he discovered that caring for the deceased and their loved ones was making a difference—in other people’s lives to be sure, but it also seemed to be saving his own. A spirituality of death began to emerge as he observed: The family who lovingly dressed their deceased father for his burial The act of embalming a little girl that offered a gift back to her grieving family The nursing home that honored a woman’s life by standing in procession as her body was taken away The funeral that united a conflicted community Through stories like these, told with equal parts humor and poignancy, Wilde offers an intimate look into the business and a new perspective on living and dying
