*#iGossip #iMurder* N. Alexander, 2017-08-17 Some choose guns. Others choose knives. The more sophisticated choose words. The important thing to remember is that Someone all powerful, whose word caused worlds to appear, said that none of these weapons formed against you will prosper! I invite you, then, to be courageous. Do some self reflection and follow along on a journey that will both captivate and inspire you to overcome the murdering mouth. Whether you are the perpetrator, the victim or the innocent bystander, you won't be the same after reading this inspiring message!

Paris Hilton Sandra Gurvis, 2011-01-04 This revealing portrait of the real Paris Hilton gets underneath the hype and hate, the glamour and greed. Unlike other biographies that range from the exposé to the gushing, *Paris Hilton: A Biography* is both detailed and objective. It covers Paris's checkered family history, her privileged yet surprisingly unassuming upbringing, and her explosion with sister Nicky as It Girls on the international social scene. Readers will learn how her family influenced her, why she made the decision to step into the limelight, and why she continues today, despite her many critics and setbacks. Each chapter of the biography provides an in-depth view of a specific aspect of Paris's life: her relationship with men and the media, how she turned herself around emotionally and projected a new image, and what makes her such a smart businesswoman. The book also looks at darker moments, including the sex tape, her jail time, and her publicity faux pas. In the end, readers will understand what makes this complex young woman tick—and have a better sense of what it is like to walk a mile in her Manolo Blahniks.

*Thriving through Life's Storms* Nina Vera-Vida, 2013-02-15 Have you ever wondered if you'll have the strength to face and overcome all of your life's countless hardships? Are you tired of being tired, anxious, and worried? Does fulfillment seem like a farfetched dream? If you see more of yourself than you like in these questions, don't despair. What could be a life-changing experience awaits in *Thriving through Life's Storms*. Nina Vera-Vida's escape from war-torn Bosnia at seven, was just the beginning of a life filled with hardships. Nina endured dehumanizing deprivation and abuse—as well as the loss of her sight to a brain tumor. But what makes Nina a true survivor is that she never gave up. She created a path to rise above it all to inspire others. She developed coping mechanisms to minimize the pain and subsequent scars. What she has since realized is that there are two types of barriers to happiness. External hardships are often random, caused by things, people, or circumstances beyond our control. Internal hardships, on the other hand, are self-inflicted. As we wrap ourselves in the veil of denial we obscure the hardship triggers, making these internal hardships hard to detect. If you are ready to face down your enemies—both internal and external—as Nina has, a new life of fulfillment, freedom, and success can be yours. The ascent won't always be effortless, but it will be worth it. We stop living when we give up, when we let life's hardships make us feel helplessly “stuck” in the abyss of stagnation and discontent. Keep in mind Nina's motivation for writing this book: never give up.

*Trust and Credit in Organizations and Institutions* Mayuko Nakamaru, 2023-01-05 This book shows that evolutionary game theory can unravel how mutual cooperation, trust, and credit in a group emerge in organizations and institutions. Some organizations and institutions, such as insurance unions, credit unions, and banks, originated from very simple mutual-aid groups. Members in these early-stage mutual-aid groups help each other, making rules to promote cooperation, and suppressing free riders. Then, they come to “trust” not only each other but also the group they belong to, itself.

The division of labor occurs when the society comes to have diversity and complexity in a larger group, and the division of labor also requires mutual cooperation and trust among different social roles. In a larger group, people cannot directly interact with each other, and the reputation of unknown people helps other decide who is a trustworthy person. However, if gossip spreads untruths about a reputation, trust and cooperation are destroyed. Therefore, how to suppress untrue gossip is also important for trust and cooperation in a larger group. If trustworthiness and credibility can be established, these groups are successfully sustainable. Some develop and evolve and then mature into larger organizations and institutions. Finally, these organizations and institutions become what they are now. Therefore, not only cooperation but also trust and credit are keys to understanding these organizations and institutions. The evolution of cooperation, a topic of research in evolutionary ecology and evolutionary game theory, can be applied to understanding how to make institutions and organizations sustainable, trustworthy, and credible. It provides us with the idea that evolutionary game theory is a good mathematical tool to analyze trust and credit. This kind of research can be applied to current hot topics such as microfinance and the sustainable use of ecosystems.

***Thinking Medieval Romance*** Katherine C. Little, Nicola McDonald, 2018-11-10 Medieval romances with their magic fountains, brave knights, and beautiful maidens have come to stand for the Middle Ages more generally. This close connection between the medieval and the romance has had consequences for popular conceptions of the Middle Ages, an idealized fantasy of chivalry and hierarchy, and also for our understanding of romances, as always already archaic, part of a half-forgotten past. And yet, romances were one of the most influential and long-lasting innovations of the medieval period. To emphasize their novelty is to see the resources medieval people had for thinking about their contemporary concern and controversies, whether social order, Jewish/ Christian relations, the Crusades, the connectivity of the Mediterranean, women's roles as mothers, and how to write a national past. This volume takes up the challenge to 'think romance', investigating the various ways that romances imagine, reflect, and describe the challenges of the medieval world.
