How to Practice Vedic Astrology Andrew

Bloomfield, 2003-07-14 A comprehensive guide to understanding and practicing Vedic astrology, the art of jyotish. • Teaches beginners how to read and interpret Vedic astrology charts, based on their own birth chart as well as the birth charts of 112 notable people. • Shows how to use Vedic astrology to anticipate upcoming events and direct the cosmic energies of one's life toward a positive future outcome. For over 5,000 years the people of India have used jyotish, or Vedic astrology, to anticipate future influences and make major decisions. Now Andrew Bloomfield brings this increasingly popular tool to the West in an easy-to-follow, comprehensive format, providing the reader with everything needed to practice the Indian art of predicting the future. Vedic astrology was codified by the ancient Maharishis to help people achieve the four basic goals of human existence: kama (desire), artha (wealth), dharma (life purpose), and moksha (spiritual growth). Unlike other forms of astrology, Vedic calculations focus more on the primal, unconscious, driving forces linking our thoughts and actions. How to Practice Vedic Astrology shows how to make accurate predictions on when to expect life's changes concerning one's career, love life, children, or spirituality.

An Introduction To Vedic Astrology: Spiritual Science Of The Ancients Howard Beckman, 1999 The book in three sections studies Vedic Astrology in much detailed stance: practical applications of Vedic astrology in different area of life, characteristics and representations of the planets, signs, houses and stars, and remedial measure to help balance disharmonic influences within the horoscope.

VEDIC ASTROLOGY FOR BEGINNERS A. M.Latha,2016

Esoteric Principles Of Vedic Astrology Bepin Behari, This book presents the ancient Hindu astrology in its occult and esoteric aspects. Traditional practitioners often failed to defend the veracity of the subject and dispel the scepticism of modern intellectuals. The ancient revelations have been restated here to meet contemporary requirements. The ancient seers presented Vedic Astrology under various assumptions and in allegorical and symbolic languages. They assumed polydimensional extension of human consciousness which was closely related with planetary impulses. Apart from the general approach to this ancient science, the study presents in depth the astrological description of the nature of man. It also provides deeper implications of various planetary combinations. Advanced practitioners as well as general readers will find the book informative, illuminating and highly rewarding.

Planet SUN Secrets Saket Shah,2020-01-05 The Sun god has two arms, he is seated on the pedestal of lotus; both of his hands are embellished with lotus flowers. There is a beautiful golden crown, on his head and a garland of gems around his neck. His radiance is just like the interior part of a lotus flower and he is mounted on the chariot

pulled by seven horses. The Sun god is also known as 'Savita', which means - one who creates, 'SAVITA SARVASYA PRASAVITA' (Nirukta -10/31). According to the Rigveda the Sun god situated at the centre of the solar system is an inspirer of all, pervader of the internal parts and an embodiment of almighty god. According to the 'Markandeya Puran' Sun is the embodiment of Brahma, the world originates from the Sun and is established in it. The Sun is the appearance of all the matters and elements and is the eternal almighty. This very God 'Bhaskar' creates, nurtures and annihilates the world respectively in the form of lord Brahma, Lord Vishnu & Lord Shiva. Sun is the supreme deity amongst all the nine planets. When Brahma manifested himself by breaking the egg, then he pronounced 'OM'. This Omkar itself is the supreme soul and the very physique of Sun god. The four Vedas emerged from all the four mouths of lord Brahma, which were glowing by their own radiance. The powerful radiance emanating from the 'Omkar' covered the radiance of the Vedas and ultimately all of them unified. This very Vedic appearance of 'Omkar' is the sun god. This radiant sun was the first manifested during the times of creation, hence it was called 'Aditya'. Once the demons, the titans and the monsters unitedly fought with the deities and snatched their power and authority after defeating them. 'Aditi'- the mother of the deities did worship of sun god to get protection from this calamity. Being pleased with her the sun god took incarnation as her son and established the eternal path of the Veda after defeating the enemies of the deities. He is called Aditya also for this reason. The complexion of Sun god is red. His vehicle is a chariot. There is only one wheel in his chariot which is called 'Samvatsar'. The wheel of his chariot has 12 spokes, which symbolise the twelve months. The wheel has six circumferences, which

symbolize the six seasons, and three 'Naves' which is symbolise of the three four-months. The sages (rishi) and all the celestial supernatural beings like 'Gandharva', 'Apsara', 'Nag' yaksha and the deities' move along with him doing his worship. The wheel, power, a loop and a hook are the weapons of sun god. His great-phase (Mahadasha) last for six years. The Sun is considered as a high planet, till the tenth degree, in the zodiac of Aries. Lord Shiva is considered to be the deity of the Sun. To get his blessings and for his pacification, performance of 'Arghya' (pouring water facing the sun in the morning should be done and also the text of Harivansh purana should be listened to. Ruby should be worn on the body and donation of wheat, cow along with a calf, raw-sugar (gur), copper, gold and red-clothes should be made to the brahmins

Vargas: a Vedic Approach Raj Kumar, The Vargas are the unique feature of Vedic astrology which has given it a definite edge over any other system in vogue. The primary aim of studying a Varga is two folds- to study a particular aspect of human life pertaining to a specific house and to find out the true strength of planets related with the house. A horoscope takes into account linear time and vertical declinations of the planets. Every division of zodiac has a corresponding division of time. Hence a Varga gives projections representing possibilities which might occur in different time frames. Each chart gives a microscopic view of a particular facet of life seen in the light of Dasha sequence. There are many tools available to assess the true strength of a planet. One set of rules rely on PAC of planets, their awasthas and yogas formed by them. The other, Nadi system, studies the effects of lords of sign, Nakshatra and Sub under which a planet is placed. At times these influences change the characteristics of a planet completely. In this book an attempt is made to unite the two systems to get the true strength of planets. In order to understand a planet and its significations in a better way, a comparative study of planets in birth and divisional charts has also been made. This book shall add to precision and accuracy of probable events and their qualitative effects on various aspects related to a native and as such will be of

great use to serious students of astrology.

Planet Mars Secrets Saket Shah,2020-01-05 In a Vedic Astrology Horoscope, the positions and effect of 9 heavenly bodies are carefully examined. These are the seven planets - Sun, Moon, Mars, Mercury, Jupiter, Venus and Saturn along with two nodes - Rahu and Ketu. Each planet has a long list of significations which are further divided into the direction, metals, age, nature, elements, body part / body system, colors, rulership of zodiac signs and the host of other attributes which a good Astrologer has to keep in mind at the time of making the calculations and giving the forecast. While all planets are given equal attention but it is Mars which is given special attention to check for suddenness in giving bad results - if it is a malefic. At the time of matching the Horoscopes for marriage purposes, it is the presence or absence of Manglik feature which is checked before anything else. So let us go a little deeper into the nature, functioning, and mode of operation of Mars in a Horoscope. Is it always to be feared or does it have the power to give also? Mars is the fourth planet from the Sun. It is called Mangal in Hindi, Kujja in Sanskrit. West has named it after the Roman God of War. Mars is also referred to as the Red Planet because of its reddish appearance as seen from Earth. Similarly all the planets are divided into 4 elements of nature - Fire, Earth, Air and Water. Mars is supposed to be a fiery planet. As the story goes in the Vedic system, Mars is the commander-in-chief of the celestial army. It is therefore, quite natural to associate Mars with action & raw energy, after all it is fiery, hot red and fast (compared to Jupiter and Saturn it is a much faster planet orbiting the Sun).

Encyclopedia of Vedic Astrology: Your Profession (Ups & Downs with Remedial Measures) Shanker Adawal, The word 'Profession' brings into the horizon a belief of a person in his

capabilities or inherent potention which a native has but also symbolizes specialization on a knowledge and academic preparations and finally it also brings forth the needs of livelihood and vocation. Planet Moon Secrets Saket Shah,2020-01-05 MOON-Mother, (Queen), emotions, how your react to emotions, home life, your peace of mind, the way you think, but do not mistake this for your intelligence, which is ruled by Mercury. We all have emotions, but our intelligence is at different level. Chandra (Moon) represents the mind. It signifies the thoughts and emotions, and the complex psychological faculty that takes input from the senses and tells the body how to respond. The Moon is the single most important planet in Jyotish because the state of mind is responsible for all the emotional responses to life, and therefore defines the subjective perception of life. Conditions affecting the Moon in the chart influence the thinking and feeling processes, mental skills and attitudes, and also responses to the world at large.

Exalted Planets - Part I: Sun, Moon and Jupiter

Himanshu Shangari, 2022-01-11 Welcome to the revised edition (September 2021) of Exalted Planets Part 1. When a planet gets exalted, it becomes very strong. However, exaltation of a planet doesn't mean that such planet is benefic in nature. It can be benefic or malefic, depending on the overall horoscope in consideration. Exaltation of a planet is primarily a measure of its strength as well as its ease of operation, and not that of its functional nature in a horoscope. Vedic astrology lays various guidelines to decide functional nature of various planets in a horoscope. This book deals with exalted Sun, exalted Moon and exalted Jupiter. Benefic as well as malefic effects of these exalted planets have been discussed in each house of horoscope, along with relevant examples from horoscopes.
