We follow Hugo throughout his life viewed from his perspective, from childhood, when Hugo first discovers he's different from others, to adulthood, as Hugo tries to find a positive outlet for his abilities around the time of the first World War. *Gladiator* has been made into a 1938 comedy movie, and is thought to be the inspiration for the Superman comic books—though this has not been confirmed.

Mediated Thomas de Zengotita, 2008-12-01 In this utterly original look at our modern culture of performance, de Zengotita shows how media are creating self-reflective environments, custom made for each of us. From Princess Diana's funeral to the prospect of mass terror, from oral sex in the Oval Office to cowboy politics in distant lands, from high school cliques to marital therapy, from blogs to reality TV to the Weather Channel, Mediated takes us on an original and astonishing tour of every department of our media-saturated society. The implications are personal and far-reaching at the same time. Thomas de Zengotita is a contributing editor at Harper's Magazine and holds a Ph.D. in anthropology from Columbia University. He teaches at the Dalton School and at the Draper Graduate Program at New York University. Reading Thomas de Zengotita's Mediated is like spending time with a wild, wired friend-the kind who keeps you up late and lures you outside of your comfort zone with a speed rap full of brilliant notions.-0 magazine A fine roar of a lecture about how the American mind is shaped by (too much) media....-Washington Post Deceptively colloquial, intellectually dense...This provocative, extreme and compelling work is a must-read for philosophers of every stripe.-Publishers Weekly

Convertible Night, Flurry of Stones Dzvinia Orlowsky, 2008 A collection of poems by Dzvinia Orlowsky.

The Men Who Stare at Goats Jon Ronson, 2011-06-28 Now a major film, starring George Clooney, Ewan McGregor, and Jeff Bridges, this New York Times bestseller is a disturbing and often hilarious look at the U.S. military's long flirtation with the paranormal—and the psy-op soldiers that are still fighting the battle. Bizarre military history: In 1979, a crack commando unit was established by the most gifted minds within the U.S. Army. Defying all known laws of physics and accepted military practice, they believed that a soldier could adopt the cloak of invisibility, pass cleanly through walls, and—perhaps most chillingly—kill goats just by staring at them. They were the First Earth Battalion, entrusted with defending America from all known adversaries. And they really weren't joking. What's more, they're back—and they're fighting the War on Terror. An uproarious exploration of American military paranoia: With investigations ranging from the mysterious "Goat Lab," to Uri Geller's covert psychic work with the CIA, to the increasingly bizarre role played by a succession of U.S. presidents, this might just be the funniest, most unsettling book you will ever read—if only because it is all true and is still happening today.
