Mapping Trophy Bucks Brad Herndon,2003-09-17 Using Topographic Maps to Find Deer Topographic maps and aerial photos can lead you right to the biggest bucks you've ever seen. You just have to know how to use them. Brad Herndon takes the mystery out of finding deer with maps. Through years of dedicated hunting and careful study of maps and photos, Herndon has perfected the use of maps to find the routes deer travel. And once you know where the deer will be headed you can establish the perfect ambush site. Maps are often the forgotten link in scouting prime deer habitat. Yet because they show you all the hills, gullies, rivers and ridges, you can learn the lay of the land without walking mile after unproductive mile. Maps won't eliminate the need to get in the woods, but they will tell the best places to start your search for the buck of your dreams. Herndon also shows hunters how to use the latest Internet and computer technology to personalize any map. Mark your stand locations, the locations of deer sign, even note the best possible wind direction to make your hunt a success. If you hunt deer, let Mapping Trophy Bucks lead you right to where the big boys hide. The rest is up to you.

Hunting Big Woods Bucks Hal Blood,2003-10 If learning how to read deer sign more effectively, understanding the nuances of following a big-buck track, or honing your stalking and general deer-hunting skills are important to you, then this book will become a treasured reference in your deer-hunting library.

The Ohio Wildlife Encyclopedia Scott Shupe,2018-05-29 Ohio's wildlife has always played an important role in the history of human beings inhabiting the state. Native Americans depended on birds, mammals, and fish for sustenance and the state's first Europeans came in search of Beaver and buckskins. Although the state's wildlife is still an important resource for human consumption, wildlife is also increasingly important in today's culture for its intrinsic, aesthetic value. For many Ohioans, the age-old traditions of hunting and fishing have been replaced by a desire to simply observe wildlife and experience nature. But most Ohioans are largely unaware of the diversity of species inhabiting their state. This volume is intended to provide an introduction to the state's fishes, amphibians, reptiles, birds, and mammals. In The Ohio Wildlife Encyclopedia, nationally known naturalist Scott Shupe has collected information on all the wildlife that reside in the Buckeye State. The first in a series of state wildlife encyclopedias, this book will be a handy, usable, layman's guide to Ohio's wildlife. Included are over 800 color photographs, depicting the different species of mammals, reptiles, amphibians, birds, and fish, while also offering over 600 range maps to show their territory. Along with basic information for the biology of each animal, Shupe includes the size, habitat, and abundance of each species located in the state. Whether you're a lover of the outdoors, photography, or are looking to learn more about your state, this comprehensive guide will teach you about the wonderful wildlife that covers the water, earth, and skies of Ohio.

Coon Hunting in Schuyler County, Illinois Don Lerch,2013-09-10 Don Lerch was born and raised in Schuyler County, Illinois. He began coon hunting as a young boy and continued until he was no longer able to go. As a young boy, coon hunting was a necessity for meals, as there were nine other siblings, and the hides were as important because they would provide money for cloths, shoes, groceries or whatever might be needed for the family. Don and his wife Char retired in 2005 to spend more time together. He lost her in 2006 shortly after retirement. Although she was not a coon hunter, she was a rock of support throughout their marriage. The have two children and seven grandchildren. Don published his first book in 2012 and the response was so great for another one, he began gathering stories and went to work again. These stories generate from six different counties, Adams, Brown, Cass, Fulton, McDonough and Schuyler and span from the 1930's till present day. You will read about heartbreaking losses, mule riding, trying to cross the river without a plug in the boat, forgetting the gun, getting lost and some hunts you wish you had been along for the ride. The thrill of the hunt is priceless. Although Don is no longer able to hunt, the fever is still there, and as long as their are coon hunters, there will be stories, and he will listen.
