**A History of the Korean Language** Ki-Moon Lee, S. Robert Ramsey, 2011-03-03 A History of the Korean Language is the first book on the subject ever published in English. It traces the origin, formation, and various historical stages through which the language has passed, from Old Korean through to the present day. Each chapter begins with an account of the historical and cultural background. A comprehensive list of the literature of each period is then provided and the textual record described, along with the script or scripts used to write it. Finally, each stage of the language is analyzed, offering new details supplementing what is known about its phonology, morphology, syntax, and lexicon. The extraordinary alphabetic materials of the 15th and 16th centuries are given special attention, and are used to shed light on earlier, pre-alphabetic periods.

**Data for the People** Andreas Weigend, 2017-01-31 A long-time chief data scientist at Amazon shows how open data can make everyone, not just corporations, richer Every time we Google something, Facebook someone, Uber somewhere, or even just turn on a light, we create data that businesses collect and use to make decisions about us. In many ways this has improved our lives, yet, we as individuals do not benefit from this wealth of data as much as we could. Moreover, whether it is a bank evaluating our credit worthiness, an insurance company determining our risk level, or a potential employer deciding whether we get a job, it is likely that this data will be used against us rather than for us. In Data for the People, Andreas Weigend draws on his years as a consultant for commerce, education, healthcare, travel and finance companies to outline how Big Data can work better for all of us. As of today, how much we benefit from Big Data depends on how closely the interests of big companies align with our own. Too often, outdated standards of control and privacy force us into unfair contracts with data companies, but it doesn't have to be this way. Weigend makes a powerful argument that we need to take control of how our data is used to actually make it work for us. Only then can we the people get back more from Big Data than we give it. Big Data is here to stay. Now is the time to find out how we can be empowered by it.

**Coordinating Constructions** Martin Haspelmath, 2004-07-29 This is the first book on coordinating constructions that adopts a broad cross-linguistic perspective. Coordination has been studied intensively in English and other major European languages, but we are only beginning to understand the range of variation that is found world-wide. This volume consists of a number of general studies, as well as fourteen case studies of coordinating constructions in languages or groups of languages: Africa (Iraqw, Fongbe, Hausa), the Caucasus (Daghestanian, Tsakhur, Chechen), the Middle East (Persian and other Western Iranian languages), Southeast Asia (Lai, Karen, Indonesian), the Pacific (Lavukaleve, Oceanic, Nêlêmwa), and the Americas (Upper Kuskokwim Athabaskan). A detailed introductory chapter summarizes the main results of the volume and situates them in the context of other relevant current research.

Refuting Rabbinic Objections to Christianity & Messianic Prophecies Eitan Bar, 2019-01-03 For us, Jews who grew up in Israel, Jesus and His word were never part of the conversation. Not in our school system, not in our synagogues, and not in our media. Nor do we have easy access to the New Testament. Jesus has been studiously avoided, and hidden from our people. Today in Israel, 99.7% of the Jewish population, reject Jesus as the Messiah. How did our country, where the gospel first took place, come to be so adamantly against it? Within Judaism over the last two millennia, any kind of spiritual message had to go through the gate keepers, the Orthodox Jewish Rabbis. The Rabbinic Judaism of the Orthodox comes directly from the sect of the Pharisees, whom Jesus rebuked: Woe to you, scribes and Pharisees, hypocrites, because you shut off the kingdom of heaven from people; for you do not enter in yourselves, nor do you allow those who are entering to go in. (Matthew 23:13) Ever since the days of Messiah, the Rabbis have set themselves in opposition to the gospel, blocking the message of Jesus from Israel. They deliberately prevent Jewish people from hearing about the free salvation offered to them in the death and resurrection of their own Jewish Messiah. They have gone to great lengths to conceal Jesus, and keep him the best kept secret in Judaism., keeping our people in spiritual darkness. But now the secret is out! After almost 2000 years, Jesus, or as we call him in Hebrew, Yeshua, can no longer be hidden from the people! Today, our ministry, ONE FOR ISRAEL, reaches Jewish and Arab Israelis exactly where they are - online. We no longer need the rabbis' permission for anything. We can go straight into the smartphones, tablets, and computers of every Israeli, sharing the saving good news of Yeshua the Messiah! In the past, the message of the gospel came to Israel from outside our borders, delivered by people who didn't understand our language, our culture, our heritage or our way of thinking. Today the messengers look very different. Now it is Jewish and Arab Israelis who are bringing the gospel back to where it started - back to our own people Israel. We can explain the gospel to our people in a way that makes sense to them, in our own native tongues of Hebrew and Arabic as only Israelis can, and help our people understand who Yeshua really is. The Orthodox rabbis in Israel operate an anti missionary organization called Yad L'Achim, specifically to fight against the spread of the gospel among the Jewish people. This very well-funded organization, works very closely with the Minister of Interior in the Israeli government. They seek to prevent Jewish people from leaving the confines of Rabbinic Judaism by any means necessary (not always legally), and relentlessly persecute us, the Jewish believers in Jesus in Israel. With over 90% of the names, photos and addresses of all the Messianic Jews in Israel on file, Yad L'Achim began sending a magazine called Searching to the homes of believers in Israel back in 2014. The magazine contains objections and refutations from Orthodox rabbis about the messiahship of Jesus, the credibility of the New Testament, and trying to ridicule and destroy the belief in Jesus. This caused several Jewish believers, even including some who had been missionaries, to deny their faith in Jesus and revert to rabbinic Judaism. Over the past five years, I decided to go over all of their magazines, books and videos, in order to answer their arguments and prove their objections false. Since 2015 we have released about 150 short videos where we share the gospel and directly refute these rabbinic objections to Jesus, New Testament and Christianity. This book is a compilation of transcripts from these videos, all in one place for your consideration. While the content of this book is based on five years of academic research, I did my best to write it in a simple, easy-to-read way, in order to keep this book as short as possible. **Meditation** Charles H. Spurgeon, Thomas Watson, Thomas Manton, Isaac Ambrose, William Bates, George Swinnock, Edmund Calamy, John Owen, Arthur W. Pink, Jonathan Edwards, 2021-03-01 To encourage God's people, we present this issue of the Free Grace Broadcaster on Meditation. Meditation is essential for a healthy walk with Christ and growth in grace. Charles Spurgeon introduces this subject with a helpful overview of the importance, practice, and benefits of biblical meditation. Thomas Watson defines what it is. Thomas Manton is convinced meditation is a biblical duty, and he tells us why. What is the nature of meditation? Isaac Ambrose answers that and describes the time, place, and matter of that holy practice. William Bates beautifully instructs us in occasional meditation, focusing on God's creation, and George Swinnock offers five descriptions of solemn and set meditation on sacred subjects. Are there real dangers in neglecting this holy act of deep thinking? Edmund Calamy lists twelve! And they are sobering. John Owen, a deeply spiritually-minded pastor and theologian, presents us with practical helps for meditating upon God, and then A. W. Pink meticulously shows us how to approach a biblical text so that we can chew the Bread of Life. Are you new to meditation and wonder what to meditate about? In a second article, Thomas Watson gives a beautiful panorama of biblical themes to fix our hearts on, starting with God in eternity, progressing to Christ in history, and extending to heaven and hell. Then, Jonathan Edwards urges us to show our love to Christ; he does so by giving us a wonderful description of His loveliness. Spurgeon, a great advocate and practitioner of meditation, closes this issue by instructing us with sweet meditations of Jesus Christ our Lord. And how precious they are! Be forewarned: meditation is hard in our too-busy, distracted world; but this FGB is a brief "how-to" that we pray will fan the flames of your heart to seek the glory of Christ in Scripture and to love Him as never before.

Newest Trends in the Study of Grammaticalization and Lexicalization in Chinese Janet Zhiqun Xing, 2012-04-02 Grammaticalization and lexicalization have been two major issues in the study of diachronic change in the past few decades. Drawing evidence from Western languages, researchers have uncovered a number of characteristics of the process of grammaticalization and lexicalization, as well as the relationship between the two. However, the question remains whether or not those characteristics are applicable to genetically unrelated and typologically different languages, such as Chinese. The contributors of this volume attempt to answer just this question. Based on Chinese historical data from the past three thousand years, five articles in the volume investigate the development of a certain grammatical category: the definite article (M. Fang), modal verbs of volition (A. Peyraube and M. Li), the classifier class (J.Z. Xing), the repeater class (C. Zhang), and the process of lexicalization (X. Dong), while the remaining four articles are case studies of unique grammatical words which have all undergone a complicated process of grammaticalization and some involved lexicalization: the sentence particle *ye* (Q. Chen), the versatile directional verb *lái* (C. Liu), the degree adverb *hén* (M. Liu and C. Chang), and the giving verb *gei* (F. Tsao). All these studies have identified tendencies of diachronic change in Chinese and some of them have also revealed certain typological characteristics that Chinese has compared to other languages.

**From Mammoths to Mediums...** Rudolf Steiner, 2013-09-24 The remarkable discussions in this volume took place between Rudolf Steiner and workers at the Goetheanum, Switzerland. The varied subject-matter was chosen by his audience at Rudolf Steiner's instigation. Steiner took their questions and usually gave immediate answers. The astonishing nature of these responses - their insight, knowledge and spiritual depth - is testimony to his outstanding ability as a spiritual initiate and profound thinker. Accessible, entertaining and stimulating, the records of these sessions will be a delight to anybody with an open mind. In this particular collection, Rudolf Steiner deals with topics ranging from mammoths to mediums! He discusses, among other things, dancing and sport; guardian angels; effects of the stars; potatoes, beetroot and radishes; the Druids; Roman Catholic and Masonic rituals; proteins, fats, carbohydrates and salts; Aristotle; nutrition; blood circulation and the heart; honesty and conscience; boredom and opinions; lungs and kidneys; fertilization in plants and humans; light and colour; and breathing.
