Cosmopolitanism and the New News Media Lilie Chouliaraki,Bolette Blaagaard,2015-09-07 The Arab Spring, the Occupy Wall Street movement and the Haiti earthquake are only some of the recent examples of the power of new media to transform journalism. Some celebrate this power as a new cosmopolitanism that challenges the traditional boundaries of foreign reporting, yet others fear that the new media simply reproduce old power relations in new ways. It is this important controversy around the role of new media in shaping a cosmopolitan journalism that offers the starting point of this book. By bringing together an impressive range of leading theorists in the field of journalism and media studies, this collection insightfully explores how Twitter, Facebook, Flickr and YouTube are taking the voice of ordinary citizens into the forefront of mainstream journalism and how, in so doing, they give shape to new public conceptions of authenticity and solidarity. This collection is directed towards a readership of students and scholars in media and communications, digital and information studies, journalism, sociology as well as other social sciences that engage with the role of new media in shaping contemporary social life. This book was originally published as a special issue of *Journalism Studies*.

Sitkeä Jussi Matti Rämö,Anton Vanha-Majamaa,2024-03-20 Suomalaisen elokuvan tarina Jussi-palkinnon silmin. Sota-aikana syntynyt palkinto on ollut useasti uhattuna, mutta aina se on noussut takaisin juhlistamaan suomalaista elokuvaa ja sen tähtiä Regina Linnanheimosta Krista Kososen ja Matti Kassilasta Aki Kaurismäkeen. Jussi-palkinto syntyi halusta juhlia, kun maailma ympärillä paloi. Vuoden 1944 prameiden juhllisuuksien jälkeen Jussi-gaala on peilannut suomalaista elokuvaa. Palkintoja on jaettu juhlasaleissa ja teattereissa mutta myös työväenopistossa ja auditoriossa. Suomalaisen elokuvan historiaan mahtuu huippuvuosia ja totaalista alakuloa, pidäkkeetöntä iloa ja repiviä riitoja. Jusseja on pokattu smokeissa ja farkuissa. Gaalassa on laulettu ja ryypätty, käsitelty metoo-ilmiötä ja juhlistettu tyttöenergiaa. Surkeimmillaan palkintoja on jätetty jakamatta, koska tarjonta on ollut niin heikkoa. Sitkeä Jussi - 80 vuotta elokuvaa, kriisejä ja tähtiloistoa tarjoaa ainutlaatuisen ikkunan uutta kultakauttaan elävän kotimaisen elokuvan historiaan. Anton Vanha-Majamaa (s. 1988) on helsinkiläinen journalisti, tietokirjailija ja kriitikko. Hän on kirjoittanut kolme tietokirjaa ja istuu Filmiaura ry:n hallituksessa. Matti Rämö (s. 1979) on Suomen Kuvalehden toimittaja, tietokirjailija ja kriitikko. Hän on erikoistunut tutkivaan journalismiin ja elokuvaan.

Finnishness, Whiteness and Coloniality Josephine Hoegaerts,Tuire Liimatainen,Laura Hekanaho,Elizabeth Peterson,2022-08-22 This multidisciplinary volume reflects the shifting experiences and framings of Finnishness and its relation to race and coloniality. The authors centre their investigations on whiteness and unravel the cultural myth of a normative Finnish (white) ethnicity. Rather than presenting a unified definition for whiteness, the book gives space to the different understandings and analyses of its authors. This collection of case-studies illuminates how Indigenous and ethnic minorities have participated in defining notions of Finnishness, how historical and recent processes of migration have challenged the traditional conceptualisations of the nation-state and its population, and how imperial relationships have contributed to a complex set of discourses on Finnish compliance and identity. With an aim to question and problematise what may seem self-evident aspects of Finnish life and Finnishness, expert voices join together to offer (counter) perspectives on how Finnishness is constructed and perceived. Scholars from cultural studies, history, sociology, linguistics, genetics, among others, address four main topics: 1) Imaginations of Finnishness, including perceived physical characteristics of Finnish people; 2) Constructions of whiteness, entailing studies of those who do and do not pass as white; 3) Representations of belonging and exclusion, making up of accounts of perceptions of what it means to be 'Finnish'; and 4) Imperialism and colonisation, including what might be considered uncomfortable or even surprising accounts of inclusion and exclusion in the Finnish context. This volume takes a first step in opening up a complex set of realities that define Finland's changing role in the world and as a home to diverse populations.

Conceptualising Public Health Johannes Kananen,Sophy Bergenheim,Merle Wessel,2018-02-19 In Germanic and Nordic languages, the term for 'public health' literally translates to 'people's health', for example Volksgesundheit in German, folkhälsa in Swedish and kansanterveys in Finnish. Covering a period stretching from the late nineteenth century to the present day, this book discusses how understandings and meanings of public health have developed in their political and social context, identifying ruptures and redefinitions in its conceptualisation. It analyses the multifaceted and interactive rhetorical play through which key concepts have been used as political tools, on the one hand, and shaped the understanding and operating environment of public health, on the other. Focusing on the blurred boundaries between the social and the medico-scientific realms, from social hygiene to population policy, Conceptualising Public Health explores the sometimes contradictory and paradoxical normative aims associated with the promotion of

public health. Providing examples from Northern Europe and the Nordic countries, whilst situating them in a larger European and international context, it addresses questions such as: How have public health concepts been used in government and associated administrative practices from the early twentieth century up to the present? How has health citizenship been constructed over time? How has the collective entity of 'the people' been associated with and reflected in public health concepts? Drawn from a range of disciplinary backgrounds, the authors collected here each examine a particular way of understanding public health and assess how key actors or phenomena have challenged, altered or confirmed past and present meanings of the concept. Conceptualising Public Health is of interest to students and scholars of health and welfare state development from diverse backgrounds, including public health, sociology of health and illness, and social policy as well as medical, conceptual and intellectual history.

The National and Beyond Pietari Kääpä, 2010 The films of Aki and Mika Kaurismäki are part of a globalising Finnish cinema, challenging conventional parameters at every turn. This work examines the films that the Kaurismäkis produced, individually and in collaboration, between 1981 and 1995 - films which mobilise various methods to reflect, criticise, counteract and contribute to the globalisation of Finnish society in the era of late capitalist development. This work provides an in-depth analysis of these films, exploring the aesthetic and narrative content of the films as well as their production and reception in Finland. The theoretical scope of the work situates the films not only in the field of transnational cinema, but also that of 'post-national' cinema. Exploring the Kaurismäkis' films in a post-national framework points to new, emergent understandings of both the fragility and the persistence of national culture and identity in a globalising world.

The Euro Crisis in the Media Robert G. Picard, 2015-07-28 The Euro Crisis produced the most significant challenge to European integration in 60 years--testing the structures and powers of the European Union and the Eurozone and threatening the common currency. This book explores how the financial and political crisis was portrayed in the European press and the implications of that coverage on public understanding of the developments, their causes, responsibilities for addressing the crisis, the roles and effectiveness of European institutions, and the implications for European integration and identity. It addresses factors that shaped news and analysis, the roles of European leaders, and the extent to which national and pan-European debates over the crisis occurred. In doing so, it provides a clear and readable explanation of what the portrayals tell us about Europe and European integration in the early twenty-first century.

Koko illan ilo? Heikki Hellman,2012-04-04 Channel Three will entertain you when television gets too seriousâ, the new entrant in Finlandâs broadcast television announced proudly at its launch in 1986. Channel Three was the first fully commercial television channel in the Nordic countries, founded and owned by a group of odd bedfellows: the public broadcaster YLE, its long standing commercial companion MTV and a growing electronics giant Nokia. The plans to start a commercial TV station were first severely opposed by leading politicians, but it was finally approved as a means to fight back international satellite channels and the efforts of major newspaper companies to enter the television market. Drawing from media policy studies and based on archive documents, contemporary media coverage and interviews of the main actors, the book provides a thorough analysis of the stages of Channel Three, indicating how it, despite its short lifespan, contributed profoundly to the commercialization and marketization of television in Finland.
