Dreaming Through Darkness Charlie Morley,2021-09-21 The shadow is made up of all that we hide from others: our shame, our fears and our wounds, but also our divine light, our blinding beauty and our hidden talents. The shadow is a huge source of benevolent power and creativity, but until we bring it into the light this power will remain untapped and our full potential unreached.In this transformative book, lucid dreaming teacher Charlie Morley guides you into the dazzling darkness of the shadow and shows you how to unlock the inner gold within. Using ancient methods from Tibetan Buddhism alongside contemporary techniques and Western psychology, he reveals how to use lucid dreaming, meditation, shamanic mask work, creative writing and spiritual practice to help you to befriend your shadow with loving kindness, heal your mind and open your heart to your highest potential. This book reveals: •What the shadow is, and how we create and project it •The different types of shadow, including the golden shadow, the ancestral shadow and the sexual shadow •Exercises, visualizations and meditations to connect deeply with and transform your shadows •The life-changing benefits of shadow integration, including increased energy, authenticity and spiritual growth •How to lucid dream and lucidly call forth your golden shadow and embrace it with love.Through over 30 practical exercises, this book will take you on a life-changing journey into the heart of spiritual transformation. The light you'll find there is brighter than you could ever imagine.

Some Were Burnt T. Dove Lourde,2015-03-18 Some Were Burnt is a collection of prose writings and essay-type shorts by poet T. Dove Lourde. Based on and in America, Lourde attempts to reveal and dissect what he calls the 'dystopics of the American dreamscape' and converse about them openly. Written in a self-described abstract lyrical prose, the author believes the book reads like a novel, with each topic being its own chapter that builds on and bleeds into the next, connecting topics that range from politics and religion, to celebrity obsession, censorship, Big business, immortality, and many others. Although sometimes dark, and stark, and frank in its view and outlook (the book culminates in a clash) the author believes that, like America, his book is about the hope and light found in between the cynicism, skepticism and pessimism that pervades him and his generations mindset, but to ignore the dark and the folly is to invite ruin. Some Were Burnt is a look into modern day America.

Lushootseed Dictionary Dawn Bates,Thom Hess,Hilbert, Vi,1994 The introduction to the Lushootseed-English section catalogs Lushootseed word-building structures, and entries exemplify each prefix, suffix, and root. The English-Lushootseed section features encyclopedic entries on many culturally significant topics such as Native canoe classifications and animal names. Scientific classifications are included for botanical terms, and cultural information makes the volume interesting for the nonlinguist. An extensive introduction explains the structure of entries and provides clear definitions of grammatical terms. A detailed description of the sounds of Lushootseed will be invaluable for learners of the language. The traditional dictionary format is readable and economical, resulting in a volume of manageable size.

William James and the Birth of Modern Teaching Edward Vinski,2019-01-03 This book examines the work of William James from the perspective of the educator, as well as the long-term influence he exerted over modern education. While much focus has rightly been given to William James's other psychological works, many biographers, educators, and historians have not given due attention to his Talks to Teachers on Psychology (1899), resulting in a significant gap in Jamesian studies. This book fills this gap through an analysis of the events and people that brought about the initial lectures long before they appeared in print. In addition to covering James's early life and education, it also examines the role played by persons such as Harvard President C.W. Eliot, educator Paul Hanus, and philosopher Josiah Royce.

In Our Words Markus Reuber,Gregg Rawlings,Steven C. Schachter,2018 Psychogenic Non-Epileptic Seizures (PNES) can cause blackouts, collapses, involuntary movements, loss of memory and have major impact on quality of life. Whereas epilepsy is caused by abnormal electrical activity in the brain, PNES are psychological-based responses to triggers inside or outside the body that are perceived as threatening by the person affected. PNES are poorly understood by the medical community. It is common for doctors to struggle to explain this diagnosis, which can leave their patients frustrated and confused. Often people are told that their PNES are caused by stress and sent away with no further support or advice. It is no wonder that those affected feel isolated, abandoned and hopeless about living with the condition. In Our Words: Personal Accounts of Living with Non-Epileptic Seizures shows those diagnosed with PNES that they are not alone, and how others have courageously managed to come to terms with their seizures. These heartfelt personal accounts will also allow family, friends, healthcare providers and researchers to gain more understanding of the condition and work to provide a better quality of life to those living with PNES.
