

Imemo Simple Note 113

Richard Ned Lebow, Thomas Risse-Kappen

Military Government in the Ryukyu Islands, 1945-1950 Arnold G. Fisch, 1988
Military government on Okinawa from the first stages of planning until the transition toward a civil administration.

Global Trends 2030 National Intelligence Council, 2018-02-07 This important report, Global Trends 2030-Alternative Worlds, released in 2012 by the U.S. National Intelligence Council, describes megatrends and potential game changers for the next decades. Among the megatrends, it analyzes: - increased individual empowerment - the diffusion of power among states and the ascent of a networked multi-polar world - a world's population growing to 8.3 billion people, of which sixty percent will live in urbanized areas, and surging cross-border migration - expanding demand for food, water, and energy It furthermore describes potential game changers, including: - a global economy that could thrive or collapse - increased global insecurity due to regional instability in the Middle East and South Asia - new technologies that could solve the problems caused by the megatrends - the possibility, but by no means the certainty, that the U.S. with new partners will reinvent the international system Students of trends, forward-looking entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades will find this essential reading.

Global Trends 2030 National Intelligence Council (U.S.), 2012 This report is intended to stimulate thinking about the rapid and vast geopolitical changes

characterizing the world today and possible global trajectories over the next 15 years. As with the NIC's previous Global Trends reports, we do not seek to predict the future, which would be an impossible feat, but instead provide a framework for thinking about possible futures and their implications. In-depth research, detailed modeling and a variety of analytical tools drawn from public, private and academic sources were employed in the production of Global Trends 2030. NIC leadership engaged with experts in nearly 20 countries, from think tanks, banks, government offices and business groups, to solicit reviews of the report.

Terrorism in Asymmetrical Conflict Ekaterina A. Stepanova, 2008 This volume combines qualitative research with the analysis of available data on trends in modern terrorism and the use of primary sources and writings. It puts forward an original typology of terrorism based on the overall level of a militant group's goals and the extent to which its terrorist activities are linked to a broader armed conflict.

SIPRI Yearbook 1994 Stockholm International Peace Research Institute, 1994 The SIPRI Yearbook 1994 continues SIPRI's review of the latest developments in nuclear weapons, world military expenditure, the international arms trade and arms production, chemical and biological weapons, the proliferation of ballistic missile technology, armed conflicts in 1993, and nuclear and conventional arms control. It is the most complete and authoritative source available for up-to-date information in war studies, strategic studies, peace

studies, and international relations.

Transparency in Nuclear Warheads and Materials Nicholas Zarimpas, 2003 These studies address the technical means and procedures for establishing transparency in nuclear warheads and materials in the nuclear weapons states.

International Relations Theory and the End of the Cold War Richard Ned Lebow, Thomas Risse-Kappen, 1995 This controversial set of essays evaluates and extends international relations theory in light of the revolutionary events of past years. The contributors demonstrate how theoretical constructs did not anticipate Soviet foreign policies that led to the end of the Cold War.

The Future of Think Tanks and Policy Advice Around the World James McGann, 2021-01-15 At a moment when both think tanks and experts are being questioned, significant policy and technology disruptions have called into question the value and efficacy of policy advice. Within that context, Dr. McGann launched this book to examine the future of think tanks and policy advice around the world with a series of authoritative reflections written by the presidents of some of the leading think tanks in every region of the world. The book explores the challenges think tanks face today in an information rich and highly competitive operating environment that includes: the impact of technology, big data and artificial intelligence, competition from advocacy groups and public relations firms, increased polarization of politics and major changes in how think tanks are funded.

Handbook of Nuclear Proliferation Harsh V Pant, 2012-02-27 The chapters of

this proposed volume are intended to shed light on the diverse themes surrounding this very important issue area in international security. Each of the six major sections addresses an aspect of nuclear proliferation that will be critical in determining the future trajectory of global politics in the years to come. The first section examines the major thematic issues underlying the contemporary discourse on nuclear proliferation. How do we understand this period in proliferation? What accounts for a taboo on the use of nuclear weapons so far and will it survive? What is the present state of nuclear deterrence models built during the Cold War? What is the relationship between the pursuit of civilian nuclear energy and the risks of proliferation? Why are we witnessing a move away from non-proliferation to counter-proliferation? The second section gives an overview of the evolving nuclear policies of the five established nuclear powers: the USA, Russia, the United Kingdom, France and the People's Republic of China. Section three looks at the three de facto nuclear states: India, Pakistan and Israel. The fourth section examines the three problem areas in the proliferation matrix today – Iran, North Korea and the potent mix of non-state actors and nuclear weapons. The fifth section sheds light on an important issue often ignored during discussions of nuclear proliferation – cases where states have made a deliberate policy choice of either renouncing their nuclear weapons programme, or have decided to remain a threshold state. The cases of South Africa, Egypt and Japan will be the focus of this section. The final section

will examine the present state of the global nuclear non-proliferation regime, which most observers agree is currently facing a crisis of credibility. The three pillars of this regime – the Nuclear Non-Proliferation Treaty (NPT), the Comprehensive Test Ban Treaty (CTBT), and the Fissile Material Cut-Off Treaty (FMCT) – will be examined. This is followed by an analysis of the present trends and prospects for US-Russia nuclear arms control. The impact of missile defenses and the US-India civilian nuclear energy co-operation pact will be examined so as to ascertain whether they have weakened or strengthened the global non-proliferation regime. The chapters in this volume aim to document the increasing complexity of the global nuclear proliferation dynamic and the inability of the international community to come to terms with a rapidly changing strategic milieu. The future, in all likelihood, will be very different from the past, and the chapters in this volume will try to develop a framework that may help gain a better understanding of the forces that will shape the nuclear proliferation debate in the years to come.

Proposed Contents

Introduction – Overview

Part 1: Thematic Issues

The Second Nuclear Age

The Nuclear Taboo

Nuclear Deterrence

Nuclear Energy and Non-Proliferation

Non-Proliferation and Counter Proliferation

Non-State Actors and Nuclear Weapons

South Africa

Japan

Egypt

Part 6:

The Global Non-Proliferation Regime The NPT The CTBT The FMCT US-Russia Nuclear Arms Control The Impact of Missile Defenses The US-India Nuclear Deal The Future: What It May Hold In Store Conclusion

Weapons of Terror Weapons of Mass Destruction Commission (Stockholm, Sweden), Hans Blix, 2006 Nuclear, biological and chemical weapons are designed to cause destruction on a vastly greater scale than any conventional weapons, with the potential to kill thousands in a single attack and with effects that may persist in the environment and in our bodies indefinitely. This report by the independent Weapons of Mass Destruction Commission, chaired by Dr Hans Blix, sets out 60 recommendations on how the world community, national governments and civil society should address this global challenge under the following headings: preventing the proliferation of nuclear weapons; preventing nuclear terrorism; reducing the threat and numbers of existing nuclear weapons; moving from regulating nuclear weapons to outlawing them; biological and toxin weapons; chemical weapons; weapons of mass destruction (WMD) delivery means, missile defences and weapons in space; export controls, international assistance and non-governmental actors; compliance, verification, enforcement and the role of the United Nations.

Advice and Support Ronald H. Spector, 2015-10-14 **Advice and Support: The Early Years, 1941-1960** describes the activities of the U.S. Army in Vietnam during World War II, military advice and assistance to the French government during the immediate postwar years, and the advisory program that developed

after the Geneva Agreements of 1954. Its scope ranges from high-level policy decisions to low-echelon advisory operations in the field, presented against a background of relevant military and political developments. Useful not only as a study of military assistance but as a view of the Army as an agent of national policy, Ronald Spector's interesting book is a fitting introduction to the overall study of the conflict in Vietnam.

History of Prisoner of War Utilization by the United States Army, 1776-1945

George Glover Lewis, John Mewha, 1955

Russia and the Western Far Right Anton Shekhovtsov, 2017-09-08 The growing influence of Russia on the Western far right has been much discussed in the media recently. This book is the first detailed inquiry into what has been a neglected but critically important trend: the growing links between Russian actors and Western far right activists, publicists, ideologues, and politicians. The author uses a range of sources including interviews, video footage, leaked communications, official statements and press coverage in order to discuss both historical and contemporary Russia in terms of its relationship with the Western far right. Initial contacts between Russian political actors and Western far right activists were established in the early 1990s, but these contacts were low profile. As Moscow has become more anti-Western, these contacts have become more intense and have operated at a higher level. The book shows that the Russian establishment was first interested in using the Western far right to legitimise Moscow's politics and

actions both domestically and internationally, but more recently Moscow has begun to support particular far right political forces to gain leverage on European politics and undermine the liberal-democratic consensus in the West. Contributing to ongoing scholarly debates about Russia's role in the world, its strategies aimed at securing legitimization of Putin's regime both internationally and domestically, modern information warfare and propaganda, far right politics and activism in the West, this book draws on theories and methods from history, political science, area studies, and media studies and will be of interest to students, scholars, activists and practitioners in these areas.

The Study of International Relations Hugh C. Dyer, Leon Mangasarian, 1989-10-16 This wide-ranging study surveys the present state of international relations as an academic field. It locates and assesses recent developments in the field - in short, what is being done where, by whom, and why. The editors have focused on some central and controversial theoretical issues, and included surveys of principal sub-fields, as well as the various approaches to the study of international relations in different countries. The book provides a comprehensive overview of an important and fast-growing area of academic endeavour, and is essential reading for teachers and students of international politics and the social sciences at large.

SIPRI Yearbook 2014 Stockholm International Peace Research Institute, 2014-10-30 The 45th edition of the SIPRI Yearbook analyses

developments in 2013 in: . Security and conflicts . Military spending and armaments . Non-proliferation, arms control and disarmament The SIPRI Yearbook contains extensive annexes on the implementation of arms control and disarmament agreements and a chronology of events during the year in the area of security and arms control.

Arts & Humanities Citation Index ,1991

Socialism Betrayed Roger Keeran,Thomas Kenny,2010-10-20 A fresh multi-faceted look at the overthrow of the Soviet State, the dismemberment of the Soviet Union, and the campaign to introduce capitalism from above. Roger Keeran and Thomas Kenny have given us a clear and powerful Marxist analysis of the momentous events which most directly shaped world politics today, the destruction of the USSR, the 'Superpower' of socialism. -Norman Markowitz, author of The Rise and Fall of the People's Century I have not read anything else with such detailed and intimate knowledge of what took place. This manuscript is the most important contribution I have read. -Phillip Bonosky, author of Afghanistan-Washington's Secret War A well-researched work containing a great deal of useful historical information. Everyone will benefit greatly from the mass of historical data and the thought-provoking arguments contained in the book. -Bahman Azad, author of Heroic Struggle Bitter Defeat: Factors Contributing to the Dismantling of the Socialist State in the USSR

Imperial Overstretch: Germany in Soviet Policy from Stalin to Gorbachev

Hannes Adomeit, 2016-07-11 Das Buch ist eine Analyse von Aufstieg und Fall des sowjetischen Herrschaftssystems in dem Gebiet, das zur Zeit des Kalten Krieges Osteuropa genannt wurde, und der Rolle, die das Deutschlandproblem dabei gespielt hat. Gestützt auf die Auswertung neuer Quellen aus den Partei- und Staatsarchiven ehemals kommunistischerer Länder rekonstruiert es die folgende Entwicklung: die Teilung Deutschlands und dabei die Rolle der Sowjetunion unter Stalin; das eiserne Festhalten seiner Nachfolger an der Teilung; ihr zunehmendes Bewusstsein der hohen Kosten, welche die Aufrechterhaltung des imperialen Systems in Ostmitteleuropa verursachte; der Fehlschlag ihrer Anstrengungen, die wachsende wirtschaftliche und finanzielle Abhängigkeit der DDR von der Bundesrepublik zu verhindern; und schließlich die Gründe dafür, warum Gorbatschow die Auflösung des sowjetischen Herrschaftsbereichs in Ostmitteleuropa hinnahm und sogar der Mitgliedschaft des wiedervereinigten Deutschlands in der Nato zustimmte. Angesichts der russischen Okkupation der Krim, der anhaltenden Krise in der Ostukraine und der dadurch ausgelösten Gegenreaktionen von NATO und EU scheint sich der Kalte Krieg in Europa zurückgemeldet zu haben. Geeigneter kann der Zeitpunkt für die überarbeitete Neuauflage des sich inzwischen zu einem Standardwerk entwickelten Buches von Hannes Adomeit nicht sein. Seine profunde Kenntnis und Auseinandersetzung mit sowjetischer und russischer Politik seit fünf Jahrzehnten und sein Zugang zu neuem russischen Archivmaterial qualifiziert ihn zu einem der besten und erfahrensten Experten auf internationaler Ebene.

Wer die sowjetische Politik nach dem II. Weltkrieg bis zur Wiedervereinigung Deutschlands und ihre Implikationen für die letzten 25 Jahre verstehen will, kommt an Adomeits Buch und seiner analytischen Brillanz nicht vorbei. Prof. Dr. h.c. Horst Teltschik, September 2015 Of all of the analyses of the fall of the Soviet Union and reunification of Germany, Hannes Adomeit's 1998 classic, *Imperial Overstretch*, has stood the test of time. Its re-publication here by Nomos, with some modest updates by the author, will be welcomed by scholars, students, the policy community, and the informed public, as a trenchant interpretation of what happened to the 'Soviet bloc', but also as an introduction to the assertive imperial politics of Vladimir Putin and the Russian Federation. Norman M. Naimark, Stanford University, November 2015

Tactical Nuclear Weapons and NATO Douglas T. Stuart, 2012 is understudied, both inside and outside of government. Tactical weapons, although less awesome than their strategic siblings, carry significant security and political risks, and they have not received the attention that is commensurate to their importance. Second, it is clear that whatever the future of these arms, the status quo is unacceptable. It is past the time for NATO to make more resolute decisions, find a coherent strategy, and formulate more definite plans about its nuclear status. Consequently, decisions about the role of nuclear weapons within the Alliance and the associated supporting analysis are fundamental to the future identity of NATO. At the Lisbon Summit in Portugal in November 2010, the Alliance agreed to conduct the Deterrence

and Defense Posture Review (DDPR). This effort is designed to answer these difficult questions prior to the upcoming NATO Summit in May 2012.

Networks in the Russian Market Economy M. Lonkila, 2010-11-17 A PDF version of this book is available for free in open access via the OAPEN Library platform, www.oapen.org. This book examines the significance of networks among the firms operative in the contemporary Russian software industry in the St. Petersburg region.
