*Pablo Tac, Indigenous Scholar* Pablo Tac,Lisbeth Haas,2011-12-07 "Pablo Tac's life was both tragic and victorious, and his experiences echo down through the years, offering the light of understanding to us in our world today. A thought-provoking book and a must-read for students of indigenous California." —Ernest Siva, author of *Voices of the Flute: Songs of Three Southern California Indian Nations* This is an exceptional piece of research and the definitive work on Pablo Tac. For the first time the entire corpus of the known writings of this ground-breaking Native Californian scholar are presented without editing, in their original languages (Latin, Luiseño) and in English translation. Lisbeth Haas presents a lucid and insightful account on the life, times, and significance of this important figure, while James Luna provides provocative commentary and striking images about Indian life today in the footsteps of Pablo Tac. This book belongs in the library of anyone interested in California history, Native Californians, and the Franciscan missions. —Kent Lightfoot, author of *Indians, Missionaries, and Merchants: The Legacy of Colonial Encounters on the California Frontiers* "Lisbeth Haas must be praised for gathering an exceptional team of scholars for the transcription, editing, and translation of Pablo Tac's Luiseño grammar, dictionary, and history. Haas's introductory essay situates Tac in a global context, defined by the fellow students Tac found in Rome in the 1830s while studying for the priesthood. Performance artist James Luna complements Haas's lucid assessment of Tac's brilliance as an indigenous scholar with a verbal and visual testimony of shared struggles as cultural warriors." —José Rabasa, author of *Without History: Subaltern Studies, the Zapatista Insurgency, and the Specter of History* "The important manuscripts of the young nineteenth-century Luiseño scholar Pablo Tac are available at last to the American public, and most importantly to the people of Tac's homeland. This faithful representation and translation of his work is fascinating in its own right, and enriched further by the insightful introductions by scholar Lisbeth Haas and Luiseño artist and wordsmith James Luna. Tac interweaves his masterful linguistic description and unfinished dictionary of nineteenth-century Luiseño with an illuminating account of Luiseño life and history before and during the mission era. Haas provides an equally interesting description of the scholarly and political environment of Rome where Tac lived, learned, and created from 1834 to 1841. Luna's introduction and a foreword by the Luiseño tribal chair bring a twenty-first century indigenous interpretation to Tac's long-ago life and work. Yet there is a freshness to Tac's writing that is ageless, and makes us wish we could learn even more about this talented young man who participated in so many worlds, and whose life and career were too short." —Leanne Hinton, author of *Flutes of Fire: Essays on California Indian Languages*

**Ending Empire in the Middle East** Simon C. Smith,2013-03-01 This book is a major and wide-ranging re-assessment of Anglo-American relations in the Middle Eastern context. It analyses the process of ending of empire in the Middle East from 1945 to the Yom Kippur War of 1973. Based on original research into both British and American archival sources, it covers all the key events of the period, including the withdrawal from Palestine, the Anglo-American coup against the Musaddiq regime in Iran, the Suez Crisis and its aftermath, the Iraqi and Yemeni revolutions, and the Arab-Israeli conflicts. It demonstrates that, far from experiencing a 'loss of nerve' or tamely acquiescing in a transfer of power to the United States, British decision-makers robustly defended their regional interests well into the 1960s and even beyond. It also argues that concept of the 'special relationship' impeded the smooth-running of Anglo-American relations in the region by obscuring differences, stymieing clear communication, and practising self-deception on policy-makers on both sides of the Atlantic who assumed a contiguity which all too often failed to exist. With the Middle East at the top of the contemporary international policy agenda, and recent Anglo-American interventions fuelling interest in empire, this is a timely book of importance to all those interested in the contemporary development of the region.

**The Craft of Scientific Presentations** Michael Alley,2006-05-17 This timely and hugely practical work provides a score of examples from contemporary and historical

scientific presentations to show clearly what makes an oral presentation effective. It considers presentations made to persuade an audience to adopt some course of action (such as funding a proposal) as well as presentations made to communicate information, and it considers these from four perspectives: speech, structure, visual aids, and delivery. It also discusses computer-based projections and slide shows as well as overhead projections. In particular, it looks at ways of organizing graphics and text in projected images and of using layout and design to present the information efficiently and effectively.
