My First Book of Colors Chiara Piroddi, 2019

My First Book of Colors Chiara Piroddi, 2017-05-18 The Montessori approach to learning extremely popular and its method of teaching through interactive play, in particular, has been used by White Star to create 'My First Book of Colors' and 'My First Book of the Shapes', fun, stimulating books for children aged 2-4. They have been designed according to Montessori educational and academic principles and have been created especially to enhance the cognitive development of the reader. Developed using progressive complexity, 'My First Book of the Colors' encourages children to learn to name different colours, and then put into practice what they have learnt by colouring in with the correct colour. Finally the book helps them build on stages one and two to combine what they have learnt with things they might already know, allowing for independent play and a fun learning experience. Developed using progressive complexity, 'My First Book of the Shapes' encourages children to learn to identify different shapes, and then put into practice what they have learnt by connecting similar shapes and grouping related shapes together. Finally the book helps them build on stages one and two to combine what they have learnt with things they might already know, allowing for independent play and a fun learning experience. AGES: 2-4

My First Book of the Garden Chiara Piroddi, 2018-04 The series Montessori, a world of achievements is a collection of texts for children that contain playing activities aimed at encouraging the development of the main cognitive skills, such as the recognition of numbers, shapes and colours. They are designed and built according to the specific educational and pedagogical approach of the Montessori Method. Children from 5 to 6 years discover nature in the garden by involvement in creative, enjoyable activities developed in the Montessori style. By means of mazes, pre-literacy games, shapes to recognize and colour, and many brightly coloured stickers to place, children gradually learn new and interesting information on the features of garden animals and plants, developing their cognitive potential. The structure of the activities develops around some fundamental Montessori principles:
- the content of the games follows a progressive complexity, to allow the child to become gradually familiar with

it; - each activity has 3 progressive stages of learning: 1. presentation of the material through senses, 2. Recognition of the learning object material, 3. re-enactment of the material; * the adult has a role of assistance and introduction to the various activities but the child can play independently the games; * handling and practical experience have a central role: often is required you to glue stickers, cut, draw and finger paint. AGES: 5 to 6 AUTHOR: Agnese Baruzzi was born in 1980 and graduated in Graphic Design at ISIA (Istituto Superiore per le Industrie Artistiche) in Urbino. She has worked as an illustrator and author since 2001, writing more than 40 children's books that have been published in Italy, the UK, Japan, Portugal, the US, France and South Korea. My First Montessori Book of Colors Mary Da Prato, 2013-05-31 Color in the Primary Montessori Casa, or classroom for three to six year olds, is more about perception and discrimination of a sampling of primary, secondary, and tertiary colors, and their tints and shades rather than color theory and the color wheel. Children are introduced to three sets of Color Tablet Boxes containing an assortment of colors to recognize, sort, match in pairs, and grade from dark to light, which develop the chromatic and aesthetic senses in preparation for exercises in creative art or "Expression." Written and illustrated by AMI Diploma holder Mary Da Prato, My First Montessori Book of Colors reinforces classwork and helps parents guide their child to the wonder of color and self-discovery.

Montessori: perché no? Grazia Honegger Fresco, 2017-02-28 Pietra miliare tra gli studi montessoriani finalmente è di nuovo disponibile il testo fondamentale per chiunque si interessi alla vita e al pensiero della pedagoga italiana. Il pensiero e le esperienze della pedagoga italiana Maria Montessori hanno continuato a vivere, costituendo modello e spunto per imprese scolastiche e pedagogiche che vanno ben oltre le Case dei Bambini. Questo saggio, fondamentale per approfondire il pensiero di Maria Montessori, è una raccolta di scritti della stessa Montessori, accompagnata da testimonianze di discepoli, amici, studiosi di fenomeni formativi e personaggi di cultura; è una selezione di resoconti di iniziative e realizzazioni e di documentazioni di "scuole" montessoriane sparse nel mondo e frequentate da allievi di varia età. Filo conduttore del volume sono le idee della pedagoga, scandite secondo un ordine evolutivo, colte e lette nella loro vitalità, presentate nelle variazioni progettuali e istituzionali che hanno suscitato. Il volume è curato da Grazia Honegger Fresco che da anni, in nome di un approccio montessoriano arricchito da apporti diversi, forma educatori della prima e primissima infanzia. La curatrice si interroga, partendo da un corpus ben identificabile di idee e di pratiche, sui rapporti tra proposta teorica e iniziativa pedagogica di una dottrina sempre più condivisa dagli insegnanti.

Maria Montessori, una storia attuale Grazia Honegger Fresco, 2018-06-25 Maria Montessori non fu certo una donna

comune. Capace di destare le più entusiastiche adesioni e le critiche più malevole, fu oggetto al suo tempo di illazioni, maldicenze, pettegolezzi e, ancor oggi, il suo senso di libertà e le scomode novità del suo pensiero suscitano reazioni contrastanti. Si ripercorrono qui le tappe della sua vita: dagli anni della formazione, segnati dalla difficoltà di essere una delle prime donne medico in Italia, all'esperienza dolorosa della maternità nascosta; dalle lotte femministe, che fondano in lei un nuovo senso di giustizia sociale e una nuova consapevolezza del ruolo della donna, all'impegno a favore dei bambini svantaggiati fino al suo innovativo progetto pedagogico, basato sulla valorizzazione delle risorse e della libertà del bambino, dalla nascita all'adolescenza. La presente edizione, rivista e aggiornata, accoglie numerose aggiunte, modifiche, correzioni e capitoli nuovi, grazie anche al prezioso contributo della bisnipote di Maria, Carolina Montessori.

Education for a New World Maria Montessori,2019-08 The purpose of this book is to expound and defend the great powers of the child, and to help teachers to a new outlook which will change their task from drudgery to joy, from repression to collaboration with nature...the first two years of life are the most important... So here begins a new path, wherein it will not be the professor who teaches the child, but the child who teaches the professor

Lezioni dall'India 1939 Maria Montessori,2022-11-11 Durante il primo Corso Montessori Internazionale nel 1939 a Madras, in India, Maria Montessori tenne alcune lezioni in italiano. Le 75 lezioni vengono qui presentate nello stesso ordine in cui sono state conservate, spaziando tra psicologia e uso dei materiali. Il soggiorno in India e il contatto con un contesto culturale e religioso così diverso hanno arricchito enormemente la sua ricerca: durante questo periodo, Maria Montessori ha lavorato con i bambini a Madras e ha messo in pratica le sue teorie sull'adattamento dell'ambiente, dei mobili e dei materiali della vita pratica in relazione alle condizioni locali.

The Discovery of the Child Maria Montessori,2004 Maria Montessori (1870 1952), Italian Physician And Educationist, Born In Rome, The First Woman In Italy To Receive A Medical Degree (1894), She Founded A School For Children With Learning Disabilities (1899 1901), And Developed A System Of Education For Children Of Three To Six Based On Spontaneity Of Expression And Freedom From Restraint. The System Was Later Worked Out For Older Children, And Applied In Montessori Schools Throughout The World. She Opened The First Montessori School For Children In The Slums Of Rome In 1907.

The Secret of Childhood Maria Montessori,2019 This book helps us to recognize what the child's needs are, but

from the child's perspective.

The Absorbent Mind Maria Montessori, 2013-03-25 The Absorbent Mind was Maria Montessori's most in-depth work on her educational theory, based on decades of scientific observation of children. Her view on children and their absorbent minds was a landmark departure from the educational model at the time. This book helped start a revolution in education. Since this book first appeared there have been both cognitive and neurological studies that have confirmed what Maria Montessori knew decades ago.
