Chinese Recorder and Missionary Journal ,1905

The Missionary Herald ,1906 Vols. for 1828-1934 contain the Proceedings at large of the American Board of Commissioners for Foreign Missions.

The One Hundredth Anniversary of the Haystack Prayer Meeting American Board of Commissioners for Foreign Missions,1907

East and Southeast Asia 2012 Steven Leibo,2012 Updated annually, East & Southeast Asia provides just enough historical background on the evolution of Modern East & Southeast Asia to help readers understand contemporary developments in this vital region. Broad introductory regional and comparative chapters are followed by distinct sections on each country in the region and for some sub-chapters are areas such as Tibet. More specifically, the text focuses on contemporary political, economic and environmental developments and has been especially designed to offer a concise introduction to contemporary developments for students and travelers alike.

Chinese Modernity and Global Biopolitics Sheldon H. Lu,2007-05-31 This ambitious work is a multimedia, interdisciplinary study of Chinese modernity in the context of globalization from the late nineteenth century to the present. Sheldon Lu draws on Chinese literature, film, art, photography, and video to broadly map the emergence of modern China in relation to the capitalist world-system in the economic, social, and political realms. Central to his study is the investigation of biopower and body politics, namely, the experience of globalization on a personal level. Lu first outlines the trajectory of the body in modern Chinese literature by focusing on the adventures, pleasures, and sufferings of the male (and female) body in the writings of selected authors. He then turns to avant-garde and performance art, tackling the physical self more directly through a consideration of work that takes the body as its very theme, material, and medium. In an exploration of mass visual culture, Lu analyzes artistic reactions to the multiple, uneven effects of globalization and modernization on both the physical landscape of China and the interior psyche of its citizens. This is followed by an inquiry into contemporary Chinese urban space in popular cinema and experimental photography and art. Examples are offered that capture the daily lives of contemporary Chinese as they struggle to make the transition from the vanishing space of the socialist lifestyle to the new capitalist economy of commodities. Lu reexamines the history and implications of China's belated integration into the capitalist world system before closing with a postscript that traces the genealogy of the term postsocialism and points to the real relevance of the idea for the investigation of everyday life in China in the twenty-first century.

China Griffith John,2023-07-18 This book serves as a travelogue and missional account of Griffith John's work in China. John documents his journey across the vast country and illustrates its vast cultural, societal, and linguistic complexities. The book provides readers with great insights into Chinese history and the challenges posed by the cultural divide experienced by foreign missionaries. John's narratives are brutally honest, at times heart-wrenching but always inspiring. This book is a must-read for anyone interested in Chinese history and missions. Epistemological Issues in Classical Chinese Philosophy Hans Lenk,Gregor Paul,1993-08-03 This book shows that classic Chinese philosophy is as rational as Western approaches dealing with the problems of logic, epistemology, language analysis, and linguistic topics from a philosophical point of view. It presents detailed analyses of rational and methodological features in Confucianism, Taoist philosophy, and the School of Names as well as Mohist approaches in classical Chinese philosophy, especially in regard to ideas of valid knowledge. The authors also provide new arguments against cultural relativism and antirational movements like religious fundamentalism that do not pay due attention to what all human beings have in common to cultural universals.

China Harry Alverson Franck,1927

Death by China Peter Navarro,Greg Autry,2011-05-05 The world's most populous nation and soon-to-be largest economy is rapidly turning into the planet's most efficient assassin. Unscrupulous Chinese

entrepreneurs are flooding world markets with lethal products. China's perverse form of capitalism combines illegal mercantilist and protectionist weapons to pick off American industries, job by job. China's emboldened military is racing towards head-on confrontation with the U.S. Meanwhile, America's executives, politicians, and even academics remain silent about the looming threat. Now, best-selling author and noted economist Peter Navarro meticulously exposes every form of Death by China, drawing on the latest trends and events to show a relationship spiraling out of control. Death by China reveals how thousands of Chinese cyber dissidents are being imprisoned in Google Gulags; how Chinese hackers are escalating coordinated cyberattacks on U.S. defense and America's key businesses; how China's undervalued currency is damaging the U.S., Europe, and the global recovery; why American companies are discovering that the risks of operating in China are even worse than they imagined; how China is promoting nuclear proliferation in its pursuit of oil; and how the media distorts the China story--including a Hall of Shame of America's worst China apologists. This book doesn't just catalogue China's abuses: It presents a call to action and a survival guide for a critical juncture in America's history--and the world's. Publisher's note - in this book various quotes and viewpoints are attributed to a 'Ron Vara'. Ron Vara is not an actual person, but rather an alias created by Peter Navarro in order to present his views and opinions.

Tariff Structure, Intermediate Goods, and China-U.S. Trade Friction Haichao Fan,2021-03-29 Focusing on the interconnection of tariff structure, international trade and welfare evaluation, the book investigates the characteristics of tariff structures of China and the U.S. in recent years and measures the impact of the Sino-U.S. trade friction that started in 2018. The first part of the book discusses levels and evolution trends of tariff systems of China and the U.S. from 2000 to 2014 and makes a comparison between the two countries' tariff structures. The second part centers on the Sino-U.S. trade friction in 2018, analyzing its development, overall impact on welfare, and relevant impact mechanisms. The author draws on the quantitative analysis method currently prevailing in the field of international trade, taking global value chains, intermediate goods, and variable markup into consideration. In contrast to the research conclusion applying standard trade theory, the result indicates that either unilateral imposition of additional tariffs or bilateral tariff friction will give rise to the deteriorated welfare level of both countries. The book will appeal to academics and policy makers interested in international trade, China-U.S. relation and the trade friction.
