Fiscal Sustainability of Health Systems Bridging Health and Finance Perspectives OECD,2015-09-24 The health systems we enjoy today, and expected medical advances in the future, will be difficult to finance from public resources without major reforms. Public health spending in OECD countries has grown rapidly over most of the last half century. These spending increases have contributed to ...

Legitimate expectations in Luxembourg tax law Fatima Chaouche,2019-06-25 This book is the result of a 4-year research project conducted at the Faculty of Law of the University of Luxembourg. It explores the legal value and enforceability of tax circulars and tax rulings in Luxembourg domestic law in light of the principle of legitimate expectations and related principles. After studying the historical roots of both interpretative acts, this research questions the level of protection taxpayers enjoy when relying on circulars and tax rulings and contains a review of decades of administrative case-law to assess the judicial discourse on taxpayers' rights to certainty. This book further investigates the case of circulars and tax rulings that contain interpretations of tax laws that are contrary to the law (contra legem) and builds upon the existing normative framework to introduce proposals addressing issues of uncertainty and inequality taxpayers are likely to suffer when relying on such interpretative acts. Prix Pierre Pescatore de la Faculté de Droit de Luxembourg (École doctorale de droit).

VAT Neutrality Charlène Adline Herbain,2015-05-04 Most major economies use a value added tax (VAT) which is a derivation of the French 1954 taxe sur la valeur ajoutée. The initial imposition of VAT in France and its spread around the world have been driven by economic reasons. This book focuses on one of these economic triggers: the neutrality of VAT as regards the functioning of the economy. It demonstrates that the reason VAT was chosen in France and why thereafter it spread around the world was because it offered the possibility to collect governmental revenue while allowing the economic forces of the market to interplay without being adversely affected. The prerequisite conditions for the existence of VAT neutrality are therefore identified herein along with an overview of the VAT mechanism, demonstrating that the concept of neutrality is built into the VAT system in a manner that allows for the preservation of the natural functioning of the market. After the definition of VAT neutrality is set forth, the elements that comprise VAT neutrality are tested against the realities on the ground and the issues that infringe the neutrality of VAT are identified and analysed. In conclusion, remedies for these issues are being sought by a review of the causes of infringement of VAT neutrality in the perspective of selected

proposals for modified VAT systems. These proposals include redesignating the place where VAT is levied and improving VAT collection. Ultimately, the proposed solution has recourse to the roots of VAT together with the most advanced technological tools available to give back to VAT the power to levy revenue while letting the economic forces of the market interplay without instigating any adverse influence.

Union of the Comoros International Monetary Fund. African Dept.,2013-02-08 In June 2010, the International Development Association (IDA) and the IMF agreed that Comoros had met the requirements for reaching the decision point under the Enhanced Heavily Indebted Poor Countries (HIPC) Initiative. As a result of the debt reconciliation exercise for the completion point, the present value of eligible external debt at end-2009 has been revised upward. Full delivery of HIPC assistance together with additional bilateral assistance beyond HIPC and Multilateral Debt Relief Initiative (MDRI) debt relief at the completion point would reduce Comoros' external debt burden significantly.

WHO technical manual on tobacco tax policy and administration ,2021-04-07 This WHO technical manual on tobacco tax policy and administration builds upon the 2010 WHO technical manual on tobacco tax administration by further detailing the strategies for effective tobacco tax policy development, design, implementation and administration. This 2021 edition also serves as an update to the 2010 manual, incorporating the latest developments in science, technology and policy, as well as providing illustrative recent examples from a variety of countries. The best practices laid out in this manual are designed to inform governments on the development of their tobacco taxation policy, facilitating the achievement of their health and revenue objectives while also supporting their overall development strategy.

Revenue Statistics 2016 OECD,2016-11-30 This annual publication gives a conceptual framework to define which government receipts should be regarded as taxes, presenting a set of detailed, internationally comparable tax data for OECD countries.

Taxation and Development - A Comparative Study Karen B. Brown,2017-01-16 This volume examines the tax systems of some twenty countries to determine whether their tax laws are used to support growth and development across borders in lower-income and poor countries. Given the critical economic development needs of poorer countries and the importance of stability in these regions to the security of populations throughout the world, the use of a country's tax laws to support investment in the developing world gains crucial significance. This book explores whether international standards promoting the fundamental values of the major tax systems of the world accommodate incentives for these nations. In addition, it analyzes the way in which adoption of principles by higher income nations to protect their own revenue bases has a spill-over effect, impairing the ability of developing countries to sustain their economies. Following an introduction that synthesizes worldwide trends, the volume contains

separate chapters for a variety of countries detailing the underlying goals and values of each system and the way in which the decision to employ (or not employ) incentives accommodates those ends. The chapters include reports for: Australia, Belgium, Brazil, Croatia, Czech Republic, France, Hong Kong, Israel, Italy, Japan, the Maldives, the Netherlands, Poland, Portugal, South Africa, Uganda, United Kingdom, United States, and Venezuela. The volume memorializes the work of the General Reporter and National Reporters at the Taxation and Development session of the 19th Congress of the International Academy of Comparative Law held in July, 2014, in Vienna, Austria.

Fictitious Capital Cédric Durand, 2017-06-06 How finance is a mechanism of social and political domination The 2007-08 credit crisis and the long recession that followed brutally exposed the economic and social costs of financialization. Understanding what lay behind these events, the rise of “fictitious capital” and its opaque logic, is crucial to grasping the social and political conditions under which we live. Yet, for most people, the operations of the financial system remain shrouded in mystery. In this lucid and compelling book, economist Cédric Durand offers a concise and critical introduction to the world of finance, unveiling the truth behind the credit crunch. Fictitious Capital moves beyond moralizing tales about greedy bankers, short-sighted experts and compromised regulators to look at the big picture. Using comparative data covering the last four decades, Durand examines the relationship between trends such as the rise in private and public debt and the proliferation of financial products; norms such as our habitual assumptions about the production of value and financial stability; and the relationship of all this to political power. Fictitious Capital offers a stark warning about the direction that the international economy is taking. Durand argues that the accelerated expansion of financial operations is a sign of the declining power of the economies of the Global North. The City, Wall Street and other centres of the power of money, he suggests, may already be caked with the frosts of winter.

Switzerland in International Tax Law Xavier Oberson, Howard R. Hull, 2011 Switzerland has recently witnessed an unprecedented level of tax treaty negotiations. Although this is a direct result of Switzerland's revised position regarding exchange of information, a number of contracting states have taken this opportunity to modify tax treaty benefits and/or clarify certain aspects of tax treaty interpretation and application. These are considered extensively in this edition. As Switzerland has steadily aligned itself with international principles of international taxation, the self-imposed anti-abuse rules for the application of tax treaties have become less relevant. Nevertheless, Swiss courts have become more creative in determining where there is and where there is not treaty abuse. As a result, the 1962 Abuse Decree is making way for a more complex basket of anti-abuse rules and regulations--Foreword (page vii).

Living in dignity in the 21st century , 2013-12-11 In the early 21st century, poverty, impoverishment and inequalities are increasing across the European continent. These phenomena not only weaken the social cohesion of European societies, they also violate human rights, including social and civil and political rights, and question

the functioning of democracy. How can people living in poverty make their voices heard in polarised societies, where more than 40% of assets and 25% of revenues are held by 10% of the population? This guide is the result of two years of collective discussion held within the framework of the project The human rights of people experiencing poverty. It was prepared with the assistance of many individuals and organisations, including people living in poverty, researchers, associations and representatives of public authorities. As well as offering a critique of the current situation, analysing inequality and poverty through the prism of human rights, democracy and redistributive policies, the guide also invites the reader to explore the possibilities of a renewed strategy to fight poverty in order to restore a sense of social justice. It makes proposals that aim to overcome the stigmatisation and categorisation of people, opening pathways of learning to build well-being through sharing, avoiding waste and by enhancing public awareness around the principle of human dignity as a human right for all.

L'Urbanisation diversifiée Madio Fall, Souleymane Coulibaly, 2016-09-30 La Côte d'Ivoire est en quête d'une stratégie de développement qui lui permettra d'atteindre le statut de pays à revenu intermédiaire, ce qui représente un défi qui nécessiterait un taux de croissance annuel de 10 % pendant plus de 13 ans. L'expérience des économies développées et émergentes démontre que le produit intérieur brut (PIB) par habitant augmente avec la progression de l'urbanisation. Néanmoins, l'économie de la Côte d'Ivoire affiche des performances insuffisantes sur le plan de l'urbanisation. L'urbanisation et le revenu par habitant ont une corrélation négative depuis la fin des années 1970, et la pauvreté augmente. Au lieu d'envisager le développement des villes individuellement, un plan d'urbanisation réussie devrait considérer les villes de la Côte d'Ivoire comme un portefeuille d'actifs qui se distinguent les uns des autres par leur taille, leur emplacement et la densité de leur population. Les auteurs de L'Urbanisation diversifiée : Le cas de la Côte d'Ivoire identifient trois types de villes, fondées sur leurs contributions à la croissance et à la création d'emplois : les connecteurs globaux ; les connecteurs régionaux, situées le long des corridors d'échanges et des transports régionaux ; et les connecteurs locaux, qui génèrent les économies de localisation nécessaires à l'agro-industrie. Les parties prenantes des administrations nationales et infranationales et du secteur privé ont formulé une vision commune de l'urbanisation en Côte d'Ivoire : « villes planifiées, structurées, compétitives, attractives, inclusives et organisées autour de pôles de développement ». Afin de réaliser cette vision et d'atteindre le statut de pays à revenu intermédiaire, les décideurs politiques ivoiriens doivent agir de toute urgence pour promouvoir une urbanisation diversifiée pour tous les types de villes. Cette présente étude identifie des contraintes principales et des enjeux dans quatre domaines : la planification, les connexions, l'écologisation, et le financement des villes.

Mali International Monetary Fund. Fiscal Affairs Dept., 2015-10-22 This Technical Assistance Report surveys the resources of the subnational jurisdictions and proposes a tax reform strategy for Mali. In Mali, the system of local taxes generates insufficient revenue and relies on obsolete taxes, which are particularly difficult to collect. It proposes that the rental value be replaced by a value per hectare indexed on various factors such as access to property or public services; geographic location; and average and georeferenced consumption of

electricity, water, cell phone minutes. A real property tax system will also require the elimination of key exemptions under the current real property tax.

Law, Norms and Freedoms in Cyberspace / Droit, normes et libertés dans le cybermonde Cécile de Terwangne, Elise Degrave, Séverine Dusollier, Robert Queck, 2018-05-29 Professeur, chercheur, directeur de centre, doyen et recteur, Yves Pouillet s'est illustré dans toutes les étapes et fonctions d'une carrière universitaire bien remplie, marquant des générations d'étudiants, de chercheurs, de collègues et de pairs. Spécialiste éminent et incontournable du droit de l'internet et des technologies de l'information et de la communication, il en est aussi l'un des précurseurs en fondant dès 1979 un des premiers centres de recherche européens en la matière. Par cet ouvrage, collègues, amis, anciens doctorants rendent hommage à l'une des plus belles plumes de la discipline, en lui offrant leurs réflexions sur l'influence réciproque du droit et de la technologie. Leurs contributions démontrent l'étendue de l'expertise et des réseaux européens et internationaux d'Yves Pouillet. Elles s'articulent autour de trois axes qui furent autant de perspectives dans lesquelles il a inscrit sa recherche : le droit, les normes et les libertés. La richesse de ce volume témoigne de son attention à l'humain, des amitiés qu'il a nouées, mais aussi des sillons qu'il a tracés en droit des technologies de l'information et de la communication, sillons dans lesquels a poussé une forêt luxuriante, toujours fertile. C'est l'héritage d'un grand penseur, d'un véritable universitaire. ===== Yves Pouillet has not merely served but excelled in all functions of the University world. Whether as professor, researcher, director of a research centre or as dean and rector, he has left a lasting impression in the minds of generations of students, researchers, colleagues and peers. He is a preeminent expert on the law of Internet and Information and Communications Technologies who, already in 1979, pioneered one of the first European research centres in the field. This volume is a tribute to Yves Pouillet from colleagues, friends, former PhD researchers, offering their reflections on the reciprocal influence of law and technology. These contributions highlight both the range of expertise and the extent of the European and international networks he has nourished. They address the three main research axes Yves Pouillet has developed through the years: law, norms and freedoms. The authors of this volume pay homage to a mentor, a friend, but above all to an exceptional researcher who has sown countless seeds in the field, enabling a luxurious landscape to grow and become a source of inspiration for many scholars. This is the heritage of a genuine thinker, a real academic.

Rapport sur le développement humain 2019 United Nations Development Programme, 2020-05-14 Inégalités de développement humain constituent une entrave à la réalisation du Programme de développement durable à l'horizon 2030. Elles ne se résument pas à des écarts de revenus et de richesses, et l'on ne peut en rendre compte au moyen de simples indicateurs synthétiques unidimensionnels. Elles détermineront aussi les perspectives de ceux et celles qui seront peut-être encore vivants au XXI^e siècle. Le Rapport étudie les inégalités de développement humain en

allant au-delà des revenus, des moyennes et du temps présent. Il s'interroge sur les formes d'inégalités qui comptent et leurs moteurs, reconnaissant que les inégalités pernicieuses sont généralement mieux perçues comme un symptôme de problèmes d'une plus grande ampleur dans une société ou une économie. Il cherche également à déterminer quelles politiques sont susceptibles de s'attaquer à ces moteurs – des politiques qui peuvent aider les pays à faire avancer leur économie tout en améliorant le développement humain et en réduisant les inégalités.
