The Parsifal Mosaic Robert Ludlum,2015-06-02 Michael Havelock's world died on a moonlit beach on the Costa Brava as he watched his partner and lover, double agent Jenna Karas, efficiently gunned down by his own agency. There's nothing left for him but to quit the game, get out. Then, in one frantic moment on a crowded railroad platform in Rome, Havelock sees Jenna. Racing around the globe in search of his beautiful betrayer, Havelock is now marked for death by both U.S. and Russian assassins, trapped in a massive mosaic of treachery created by a top-level mole with the world in his fist: Parsifal. Praise for Robert Ludlum and The Parsifal Mosaic "[Robert] Ludlum's narrative imagination is a force of nature."—The New York Times "As fast-paced and absorbing as any he's written."—Newsday "The suspense never lets up."—The Atlanta Journal-Constitution "A crackling good yarn."—Los Angeles Times Book Review

Anglophobia in Fascist Italy Jacopo Pili,2022-05-03 Anglophobia in Fascist Italy depicts how the Fascist regime disseminated its particular image of Great Britain, consistent with its own ideological imperatives, and puts to the test effectiveness of this messaging among the Italian people.

The Language of Jokes in the Digital Age Delia Chiaro,2017-11-23 In this accessible book, Delia Chiaro provides a fresh overview of the language of jokes in a globalized and digitalized world. The book shows how, while on the one hand the lingua-cultural nuts and bolts of jokes have remained unchanged over time, on the other, the time-space compression brought about by modern technology has generated new settings and new ways of joking and playing with language. The Language of Jokes in the Digital Age covers a wide range of settings from social networks, e-mails and memes, to more traditional fields of film and TV (especially sitcoms and game shows) and advertising. Chiaro's consideration of the increasingly virtual context of jokes delights with both up-to-date examples and frequent reference to the most central theories of comedy. This lively book will be essential reading for any student or researcher working in the area of language and humour and will be of interest to those in language and media and sociolinguistics.

*The Language of Jokes* Delia Chiaro,2006-12-05 In this highly readable and thought-provoking book, Delia Chiaro explores the pragmatics of word play, using frameworks normally adopted in descriptive linguistics. Using examples from personally recorded conversations, she examines the structure of jokes, quips, riddles and asides. Chiaro explores degrees of conformity to and deviation from established conventions; the 'tellability' of jokes, and the interpretative role of the listener; the creative use of puns, word play and discourse. The emphasis in her analysis is on sociocultural contexts for the production and reception of jokes, and she examines the extent to which jokes are both universal in their appeal, and specific to a particular culture.

**Geographies of Asylum in Europe and the Role of European Localities** Jeroen Doomernik,Birgit Glorius,2020-10-08 This open access book describes how the numerous arrivals of asylum seekers since 2015 shaped reception and integration processes in Europe. It addresses the structuration of asylum and reception systems, and spaces and places of reception on European, national, regional and local level. It also analyses perceptions and discourses on asylum and refugees, their involvement and the consequences for policy development. Furthermore, it examines practices and policy developments in the field of refugee reception and integration. The volume shows and explains a variety of refugee reception and integration strategies and practices as specific outcome of multilevel governance processes in Europe. By addressing and contextualizing those multiple experiences of asylum seeker reception, the book is a valuable contribution to the literature on migration and integration, societal development and political culture in Europe. Using Italian J. J. Kinder,V. M. Savini,2004-07 This 2002 book is a guide to Italian usage for students who have already acquired the basics of the language and wish to extend their knowledge. Unlike conventional grammars, it gives special attention to those areas of vocabulary and grammar which cause most difficulty to English-speakers. Careful consideration is given throughout to questions of style, register, and politeness which are essential to achieving an appropriate level of formality or informality in writing and speech. It surveys the contemporary linguistic scene in Italy and gives ample space to the new varieties of Italian that are emerging in modern Italy. The influence of the dialects in shaping the development of Italian is also acknowledged. Clear, readable and easy to consult via its two indexes, this is an essential reference for learners seeking access to the finer nuances of the Italian language.

Assessment Issues in Language Translation and Interpreting Dina Tsagari,Roelof Van Deemter,2013 The need for reliable and valid assessments of translator and interpreter skills has been widely acknowledged inside and outside these professions and the (language) testing community. Despite this agreement, the actual assessments which serve as gatekeepers for professional translators and interpreters do not always live up to the expectations. The focus of the volume is on the assessment of translator and interpreter skills leading to authorization, accreditation, registration and certification in different countries of the world. Apart from the description of the different assessment systems, the chapters shed light on the intricate social, political and financial issues influencing the choices that lead to a specific kind of assessment.

Socially Symbolic Acts Joseph Francese,2006 This book discusses issues of broad cultural consequence by examining the work of three of Italy's most prominent living novelists, Umberto Eco, Vincenzo Consolo, and Antonio Tabucchi. The introductory chapter continues a discussion of some of the topics already broached in the author's Narrating Postmodern Time and Space (1997). It uses an approach that is both historicist and psychoanalytic to critically address topics in cultural studies and Italian studies. The book deals with fictions of very recent publication, many of which have been published after the turn of the millennium, filling important gaps in the critical bibliography. Close readings relate texts to their historical and cultural contexts, critiquing their ideology while preserving their Utopian moments.

Through twelve thought-provoking, scholarly essays, this volume analyzes works by a range of modern and contemporary Italian authors, from Giacomo Leopardi to Elena Ferrante, who have captured the shift from anthropocentrism and postmodernism to posthumanism. Indeed, this is the first academic volume investigating narrative configurations of posthuman identity in Italian literature and film.
