**The Expanding Vista** Mary Ann Watson,1994 As American politics and television became more closely intertwined in the early 1960s, each underwent enormous and long-lasting changes. In *The Expanding Vista*, originally published in 1990 (Oxford University Press), Mary Ann Watson looks at how television was woven into the events and policies of John Kennedy's presidency, not only in his unprecedented use of the medium in campaigning and image projection, but in the vigorous efforts of his administration to regulate and improve the content of network programs. Examining the legacy of the New Frontier and its relationship to the new medium, she traces the Kennedy influence across a spectrum of programming that includes news, documentary, drama, situation comedy, advertising, children's shows, and educational TV. Through extensive archival research and oral histories Watson reconstructs key moments of an extraordinary time in the television age. *The Expanding Vista's* analysis and interpretation of that era continue to enlighten our understanding of culture and communication as the themes sounded in the 1960s resonate in today's complex media marketplace.

*High Vista* Salie Thomas,2024-04-28 Retired couple, Teddy and Jo Jensen, decide to buy a holiday home in Fuengirola, Spain where they accidentally get caught up with some drug dealers. They mistake Jo for someone they warned to leave *High Vista* and attempt to kill her by throwing her over a cliff, but she survives. The whole ordeal is too much to handle so Teddy decides to take her far away on a world tour to help her forget. The story takes them to France and across America, where they run into trouble again. Can anyone come to Teddy and Jo's rescue, and will they escape the threats that seem to be following them around the globe?

**Sky As Frontier** David T. Courtwright,2005 A look at how aviation's frontier lasted only a scant 3 decades, then vanished as commercial and military imperatives made flying routine.

The Flight of the Silvers Daniel Price,2015-01-06 For fans of Blake Crouch, the propulsive first book in the genre-bending Silvers trilogy, in which six ordinary people become extraordinary when they find themselves the sole survivors of an apocalypse that lands them on an Earth far different from our own—one on which they have X-Men-like powers to manipulate time. Without warning, the world comes to an end. The sky looms frigid white. The electric grid falters. Airplanes everywhere crash to the ground, and finally, the sky comes down in a crushing sheet of light, taking out everything and everyone with it—except for Hannah and Amanda Given. Saved from destruction by three fearsome and powerful beings who adorn them each with an irremovable silver bracelet, the Given sisters suddenly find themselves on a strange new Earth where restaurants move through the air like flying saucers and the fabric of time itself is manipulated by common household appliances. Upon arrival to this alternate America, Hannah and Amanda are taken to a science laboratory where they meet four other survivors from their world, all of whom wear matching silver bracelets—a mordant cartoonist, a shy teenage girl, a brilliant young Australian, and a troubled ex-prodigy. While being poked and prodded by scientists who may be friends or enemies, the group discovers that it's not only their world that is different—they are different. Each has the power to manipulate time with their bare hands...a power they can't always control. With no one but each other to trust, "the Silvers" must find out what exactly happened to their world and why it was that they were spared. But with unexpected new enemies emerging from around every corner, their quest for answers will quickly become a cross-country quest for survival.

**On the Air** John Dunning,1998-05-07 Now long out of print, John Dunning's *Tune in Yesterday* was the definitive one-volume reference on old-time radio broadcasting. Now, in *On the Air*, Dunning has completely rethought this classic work, reorganizing the material and doubling its coverage, to provide a richer and more informative account of radio's golden age. Here are some 1,500 radio shows presented in alphabetical order. The great programs of the '30s, '40s, and '50s are all here--Amos 'n' Andy, Fibber McGee and Molly, The Lone Ranger, Major Bowes' Original Amateur Hour, and The March of Time, to name only a few. For each, Dunning provides a complete broadcast history, with the timeslot, the network, and the name of the show's advertisers. He also lists major cast members, announcers, producers, directors, writers, and sound effects people--even the show's theme song. There are also umbrella entries, such as News Broadcasts, which features an engaging essay on radio news, with capsule biographies of major broadcasters, such as Lowell Thomas and Edward R. Murrow. Equally important, Dunning provides

a fascinating account of each program, taking us behind the scenes to capture the feel of the performance, such as the ghastly sounds of *Lights Out* (a horror drama where heads rolled and bones crunched), and providing engrossing biographies of the main people involved in the show. A wonderful read for everyone who loves old-time radio, *On the Air* is a must purchase for all radio hobbyists and anyone interested in 20th-century American history. It is an essential reference work for libraries and radio stations.

**Green Sabbath and the Last Vista of Hope, The** Chinedu Daniel Obasi, Chinedu Daniel Obasi's latest literary contribution, *The Green Sabbath and the Last Vista of Hope*, is the result of a careful examination of numerous newsworthy occurrences transpiring on the world stage and their apocalyptic implications. Readers will be soberly intrigued by how intertwined these occurrences are, and how they crystalize and verify the predictions made by Daniel, the apostle John, and other Bible prophets. Obasi begins by highlighting several environmental and ecological developments and their parallels to what Jesus called the early birth pangs of end-time unfolding. From here he points to the responses from political and ecclesiastical leaders regarding these developments, and how this is all laying the foundation for the diminishing of religious and civil liberty, as foretold in Revelation 13. While this well-researched book discusses many topics, including global warming, Catholicism, the old and new covenants, and Islam, the author skillfully ties everything together to alert as many as possible to the solemn times in which we live and the need to increase awareness and preparedness. However, his greatest emphasis is on the One who is truly in charge of the past, present, and future—the One in whom we can place our confidence.
