Becca by the Book Laura Jensen Walker,2009-12-22 Adventurous and fun-loving Becca Daniels loves the rush of new experiences and is constantly pushing the envelope—trying everything from extreme sports, to wild hair colors, to skydiving. So when a broken leg grounds her temporarily, Becca doesn't take the interruption well. Grumpy, restless, and at loose ends, Becca bristles one day when some of her Getaway Girls Book Club friends tease her about being commitment-phobic. To prove them wrong, Becca impulsively promises to accept a date with the next guy who asks her out; and to date him for three months or twenty-five dates—whichever comes first. Unfortunately, the first invitation comes from Ben—too “churchy” and definitely not Becca's type. Determined to win the bet, however, the two embark on a hilarious series of dates that plunge the outspoken, purple-haired Becca into a sea of church potlucks and prayer meetings. Ultimately, the dating experiment opens Becca's eyes to a new perspective on her life's purpose and a new understanding of who's directing her path—an epiphany that could lead to her biggest adventure yet.

Enron Loren Fox,2004-01-30 I'd say you were a

carnival barker, except that wouldn't be fair to carnival barkers. A carnie will at least tell you up front that he's running a shell game. You, Mr. Lay, were running what purported to be the seventh largest corporation in America. -Senator Peter Fitzgerald (R-IL) to Enron CEO Kenneth Lay, Senate Commerce Science & Transportation's Subcommittee, Hearing on Enron, 2/12/02

The speed of Enron's rise and fall is truly astonishing and perhaps the single most important story of corporate failure in the twenty-first century. In Enron investigative journalist Loren Fox promises readers nothing short of the most compelling and insightful investigation into Enron's meteoric ascent-regarded by Wall Street and the media as the epitome of innovation-and its spectacular fall from grace. In a lively and authoritative manner, Fox discusses how the biggest corporate bankruptcy in American business history happened, why for so long no one (except for an enlightened few) saw it coming, and what its impact will be on financial markets, the U.S. economy, U.S. energy policy, and the public for years to come. With access to many company insiders, Fox's intriguing account of this corporate debacle also provides an overview of the corporate culture and business model that led to Enron's high-flying success and disastrous failure. The story of Enron is one that will reverberate in global financial and energy markets as well as in criminal and civil courts for years to come. Rife with all the elements of a classic thriller-scandal, dishonest accounting, personal greed, questionable campaign contributions, suicide-Enron captures the essence of a company that went too far too fast.

What are you Reading? Pavithra Narayanan, 2014-03-21

This book offers a material critique on various aspects of

Indian literary production and its reception by its audiences. Taking a historical and contemporary lineage into account, the author variously discusses the social, political, and economic factors that impact upon and determine choices in the publishing world. Examining the constructions of the archive of postcolonial works by Indian writers in relation to nationalist histories, language wars, and the relationship between economic policies and literature, the book forcefully argues that why we read what we read is more than coincidental. Placing the rights of minoritized and disadvantaged communities at the heart of the analysis of India's decolonization and industrial projects, the book attempts to address not just inequalities in the publishing world, but also social inequities engendered by global capitalism. Offering a critique of academics who act as cultural gatekeepers of intellectual production, the book finally underscores the disconnect between the academic theory and practice of scholars of postcolonial studies who argue against inequality and marginalization while simultaneously supporting hegemonic academic practices. This book will be of interest to scholars of development studies, cultural studies, literature, postcolonial studies, economics, and those studying globalization, as well as the interested lay reader.

World Cinema On Demand Stefano

Baschiera,Alexander Fisher,2022-05-05 World Cinema on Demand brings together diverse contributions by leading film and media scholars to examine world cinema's dialogue with the transformations that took place during 2010-2014, engaging directly with ongoing debates surrounding national cinema, transnational identity, and

cultural globalization, as well as ideas about genre, fandom and cinephilia. The contributions look at individual national patterns of online distribution, engaging with archives, SVODS and torrent communities. The essays also investigate the cross-cultural presence of world cinema in non-domestic online markets (such as Europe's, for example). As a result, the volume sheds light on geopolitically specific issues of film circulation, consumption and preservation within a range of culturally diverse filmmaking contexts, including case studies from India, Nigeria, Mexico and China. In this way, the collection maps the impact of different online formats of distribution in the understanding of World Cinema, underlining the links between distribution and media provisions as well as engaging with new forms of intermediation.

The Wall Street Journal, 2006

Policing Hate Crime Gail Mason, Jane Maree Maher, Jude McCulloch, Sharon Pickering, Rebecca Wickes, Carolyn McKay, 2017-03-16 In a contemporary setting of increasing social division and marginalisation, *Policing Hate Crime* interrogates the complexities of prejudice motivated crime and effective policing practices. Hate crime has become a barometer for contemporary police relations with vulnerable and marginalised communities. But how do police effectively lead conversations with such communities about problems arising from prejudice? Contemporary police are expected to be active agents in the pursuit of social justice and human rights by stamping out prejudice and group-based animosity. At the same time, police have been criticised in over-policing targeted communities as potential perpetrators, as well as under-policing these same communities as victims of crime. Despite this history, the demand for impartial law enforcement requires police to

change their engagement with targeted communities and kindle trust as priorities in strengthening their response to hate crime. Drawing upon a research partnership between police and academics, this book entwines current law enforcement responses with key debates on the meaning of hate crime to explore the potential for misunderstandings of hate crime between police and communities, and illuminates ways to overcome communication difficulties. This book will be important reading for students taking courses in hate crime, as well as victimology, policing, and crime and community.
