Indiana Wineries Todd Outcalt,Becky Outcalt,2015-09 This is the ultimate guide for the tens of thousands of people who visit Indiana's more than seventy wineries each year. Changes in the laws governing wineries over the past decade have led to an explosion of wineries throughout the state. These establishments are as varied as the wines themselves many offering tastings, shopping, family activities, live entertainment, restaurants, banquet facilities, and of course some of the best wine anywhere in the Midwest. This guide includes a description of each winery, many photos, maps, and ideas on pairing wines with food, nearby activities, festivals, all six Indiana wine trails. The authors also put together suggested day trips and weekend getaways.

**Indiana Wine** James L. Butler,John J. Butler,2001-10-03 During election years in the early 1800s, touring politicians would often stop at Vevay in an effort to gather votes. On one such occasion the governor, Jonathan Jennings, was visiting Vevay with his entourage. They all stopped at Father Morerod's home to taste some of his wine. The governor and one or two others from abroad, being unaccustomed to wine, became considerably befuddled, as did some of the 'Vevay boys.' The way back to town was blocked by a large growth of dog fennel, a yellow flowering weed. The politicians passed through this field wearing white trousers and shirts. In their confused condition they soon emerged and presented to the townsfolk an amusing spectacle of the governor and fellow dignitaries wearing yellow pants and yellow spotted vests. -- From *Indiana Wine: A History* John James Dufour arrived in America in 1796, looking for land for a colony of 'vinedressers.' They first settled in Kentucky, but then purchased land in the Indiana Territory on the north bank of the Ohio River. Here, in the town they called Vevay, the Swiss winegrowers successfully produced America's first commercial wines. In *Indiana Wine*, a richly anecdotal history of wine production in Indiana, James L. and John J. Butler relate a vintage story of early triumph, followed by precipitous decline, and ending in present-day success. Though the economic decline of the 1820s ended the first flowering of Indiana vineyards, John James Dufour continued his work, and in 1826 he published the first book written about American grape growing and winemaking. Thereafter the heart of America's wine production was centered near Cincinnati, Ohio. That industry collapsed in the 1870s, but small wineries could still be found scattered across southern Indiana. With the coming of Prohibition, the idea of Indiana wine was lost. It was not until the passing of the Small Winery law in 1971 that winemaking began anew in the state. Today some 25 wineries, large and small, produce a wide variety of Indiana wine.

The American Vine-Dresser's Guide John James DuFour, 2013-07-16 Authored by wine connoisseur John James DeFour, who established the first commercial vineyard in the United States, The American Vine-Dresser's Guide is an amazingly thorough work on grape growing and wine making specifically adapted to the American climate and soil. Despite being published nearly 200 years ago in 1826, DeFour's practices and recommendations are still being utilized and referenced today since little has changed in the wine-making industry. DeFour's knowledge and understanding of the process were very far advanced compared with the technology available in his day. With extensive tips and information about grape selections, watering grapes, manure, soil fertility, barreling wine, and much more, The American Vine-Dresser's Guide is truly a wine-making tome with as much relevance today as in the early 19th century. Of the importance of wine and grapes, DeFour states in the preface, ". . . show the consequence on the health, temperance and cheerfulness of the people generally in any country, where there is a sufficient supply of genuine wine, which is equal to the provision of bread stuff." This edition of The American Vine-Dresser's Guide was reproduced by permission from the volume in the collection of the American Antiquarian Society, Worcester, Massachusetts. Founded in 1812 by Isaiah Thomas, a Revolutionary War patriot and successful printer and publisher, the Society is a research library documenting the lives of Americans from the colonial era

through 1876. The society collects, preserves, and makes available as complete a record as possible of the printed materials from the early American experience. The cookbook collection comprises approximately 1,100 volumes.

*Local Vino* James R Pennell,2017-02-15 The art and craft of winemaking has put down roots in Middle America, where enterprising vintners coax reds and whites from the prairie earth while their businesses stand at the hub of a new tradition of community and conviviality. James R. Pennell tracks among the hardy vines and heartland terroir of wineries across Illinois, Iowa, Indiana, and Ohio. Blending history and observation, Pennell gives us a ground-up view of the business from cuttings and cultivation to sales and marketing. He also invites entrepreneurs to share stories of their ambitions, hard work, and strategies. Together, author and subjects trace the hows and whys of progress toward that noblest of goals: a great vintage that puts their winery on the map.
