Sports-talk Radio in America John Mark Dempsey, 2006 Sports-Talk Radio in America looks at major-, medium-, and small-market stations across the United States that feature an all-sports format, with a focus on the unique personalities and programming strategies that make each station successful. Broadcasters, journalists, and academics provide insight on how and why this media phenomenon has become an important influence of American culture, examining the guy talk broadcasting approach, the traditional sports-emphasis approach, HSOs (hot sports opinions), localism in broadcasting, how sports talk radio builds communities of listeners, and how reckless, on-air comments can actually build ratings.

Indy 500 Ron Dorson, 2005-01-04 This book is not so much about racing as it is about race people. These are the people who do the racing, or run the races, or go to races, or hang around racing, or make money from racing. They are generally lively people, sharp-edged, with-it. This is a book about the Indianapolis style of auto racing, and the story is told from the participant's point of view.
