*The Perks of Being a Wallflower* Stephen Chbosky,2012-08-14 Charlie struggles to cope with complex world of high school as he deals with the confusions of sex and love, the temptations of drugs, and the pain of losing a close friend and a favorite aunt.

The Poisonwood Bible Barbara Kingsolver,2009-10-13 New York Times Bestseller • Finalist for the Pulitzer Prize • An Oprah's Book Club Selection "Powerful . . . [Kingsolver] has with infinitely steady hands worked the prickly threads of religion, politics, race, sin and redemption into a thing of terrible beauty." —Los Angeles Times Book Review The Poisonwood Bible, now celebrating its 25th anniversary, established Barbara Kingsolver as one of the most thoughtful and daring of modern writers. Taking its place alongside the classic works of postcolonial literature, it is a suspenseful epic of one family's tragic undoing and remarkable reconstruction over the course of three decades in Africa. The story is told by the wife and four daughters of Nathan Price, a fierce, evangelical Baptist who takes his family and mission to the Belgian Congo in 1959. They carry with them everything they believe they will need from home, but soon find that all of it—from garden seeds to Scripture—is calamitously transformed on African soil. The novel is set against one of the most dramatic political chronicles of the twentieth century: the Congo's fight for independence from Belgium, the murder of its first elected prime minister, the CIA coup to install his replacement, and the insidious progress of a world economic order that robs the fledgling African nation of its autonomy. Against this backdrop, Orleana Price reconstructs the story of her evangelist husband's part in the Western assault on Africa, a tale indelibly darkened by her own losses and unanswerable questions about her own culpability. Also narrating the story, by turns, are her four daughters—the teenaged Rachel; adolescent twins Leah and Adah; and Ruth May, a prescient five-year-old. These sharply observant girls, who arrive in the Congo with racial preconceptions forged in 1950s Georgia, will be marked in surprisingly different ways by their father's intractable mission, and by Africa itself. Ultimately each must strike her own separate path to salvation. Their passionately intertwined stories become a compelling exploration of moral risk and personal responsibility.

*Me I Am!* Jack Prelutsky,2011 An illustrated poem which celebrates children who enjoy doing all kinds of activities. This poem originally appeared in The Random House book of poetry for children, published in 1983.

*A Taste of Power* Elaine Brown,2015-05-20 "A stunning picture of a black woman's coming of age in America. Put it on the shelf beside The Autobiography of Malcolm X." —Kirkus Reviews Elaine Brown assumed her role as the first and only female leader of the Black Panther Party with these words: "I have all the guns and all the money. I can withstand challenge from without and from within. Am I right, Comrade?" It was August 1974. From a small Oakland-based cell, the Panthers had grown to become a revolutionary national organization, mobilizing black communities and white supporters across the country—but relentlessly targeted by the police and the FBI, and increasingly riven by violence and strife within. How Brown came to a position of power over this paramilitary, male-dominated organization, and what she did with that power, is a riveting, unsparing account of self-discovery. Brown's story begins with growing up in an impoverished neighborhood in Philadelphia and attending a predominantly white school, where she first sensed what it meant to be black, female, and poor in America. She describes her political awakening during the bohemian years of her adolescence, and her time as a foot soldier for the Panthers, who seemed to hold the promise of redemption. And she tells of her ascent into the upper echelons of Panther leadership: her tumultuous relationship with the charismatic Huey Newton, who would become her lover and her nemesis; her experience with the male power rituals that would sow the seeds of the party's demise; and the scars that she both suffered and inflicted in that era's paradigm-shifting clashes of sex and power. Stunning, lyrical, and acute, this is the indelible testimony of a black woman's battle to define herself. "A glowing achievement." —Los Angeles Times "Honest, funny, subjective, unsparing, and passionate. . . A Taste of Power weaves autobiography and political history into a story that fascinates and illuminates." —The Washington Post

Hacker, Hoaxer, Whistleblower, Spy Gabriella Coleman,2015-10-06 The ultimate book on the worldwide movement of hackers, pranksters, and activists collectively known as Anonymous—by the writer the Huffington Post says "knows all of Anonymous' deepest, darkest secrets" "A work of anthropology that sometimes echoes a John le Carré novel." —Wired Half a dozen years ago, anthropologist Gabriella Coleman set out to study the rise of this global phenomenon just as some of its members were turning to political protest and dangerous disruption (before Anonymous shot to fame as a key player in the battles over WikiLeaks, the Arab Spring, and Occupy Wall Street). She ended up becoming so closely connected to Anonymous that the tricky story of her inside-outside status as Anon confidante, interpreter, and erstwhile mouthpiece forms one of the themes of this witty and entirely engrossing book. The narrative brims with details unearthed from within a notoriously mysterious subculture, whose semi-legendary tricksters—such as Topiary, tflow, Anachaos, and Sabu—emerge as complex, diverse, politically and culturally sophisticated people. Propelled by years of chats and encounters with a multitude of hackers, including imprisoned activist Jeremy Hammond and the double agent who helped put him away, Hector Monsegur, Hacker, Hoaxer, Whistleblower, Spy is filled with insights into the meaning of digital activism and little understood facets of culture in the Internet age, including the history of "trolling," the ethics and metaphysics of hacking, and the origins and manifold meanings of "the lulz."

*Pirate Cinema* Cory Doctorow,2012-10-02 From the New York Times bestselling author of Little Brother, Cory Doctorow, comes Pirate Cinema, a new tale of a brilliant hacker runaway who finds himself standing up to tyranny. Trent McCauley is sixteen, brilliant, and obsessed with one thing: making movies on his computer by reassembling footage from popular films he downloads from the net. In the dystopian near-future Britain where Trent is growing up, this is more illegal than ever; the punishment for being caught three times is that your entire household's access to the internet is cut off for a year, with no appeal. Trent's too clever for that too happen. Except it does, and it nearly destroys his family. Shamed and shattered, Trent runs away to London, where he slowly learns the ways of staying alive on the streets. This brings him in touch with a demimonde of artists and activists who are trying to fight a new bill that will criminalize even more harmless internet creativity, making felons of millions of British citizens at a stroke. Things look bad. Parliament is in power of a few wealthy media conglomerates. But the powers-that-be haven't entirely reckoned with the power of a gripping movie to change people's minds.... **Stiff: The Curious Lives of Human Cadavers** Mary Roach,2004-05-17 Beloved, best-selling science writer Mary Roach's "acutely entertaining, morbidly fascinating" (Susan Adams, Forbes) classic, now with a new epilogue. For two thousand years, cadavers – some willingly, some unwittingly – have been involved in science's boldest strides and weirdest undertakings. They've tested France's first guillotines, ridden the NASA Space Shuttle, been crucified in a Parisian laboratory to test the authenticity of the Shroud of Turin, and helped solve the mystery of TWA Flight 800. For every new surgical procedure, from heart transplants to gender confirmation surgery, cadavers have helped make history in their quiet way. "Delightful—though never disrespectful" (Les Simpson, Time Out New York), Stiff investigates the strange lives of our bodies postmortem and answers the question: What should we do after we die? "This quirky, funny read offers perspective and insight about life, death and the medical profession. . . . You can close this book with an appreciation of the miracle that the human body really is." —Tara Parker-Pope, Wall Street Journal "Gross, educational, and unexpectedly sidesplitting." —Entertainment Weekly

*Testimonios: Stories of Latinx and Hispanic Mathematicians* Pamela E. Harris,2021-08-16 Testimonios brings together first-person narratives from the vibrant, diverse, and complex Latinx and Hispanic mathematical community. Starting with childhood and family, the authors recount their own individual stories, highlighting their upbringing, education, and career paths. Their particular stories, told in

their own voices, from their own perspectives, give visibility to some of the experiences of Latinx/Hispanic mathematicians. Testimonios seeks to inspire the next generation of Latinx and Hispanic mathematicians by featuring the stories of people like them, holding a mirror up to our own community. It also aims to provide a window for mathematicians (and aspiring mathematicians) from all ethnicities, with the hope of inspiring a better understanding of the diversity of the mathematical community.

**Methland** Nick Reding,2010-06-03 Traces the efforts of a small Iowa community to counter the pervasiveness of crystal methamphetamine, in an account that offers insight into the drug's appeal while chronicling the author's numerous visits with the town's doctor, the local prosecutor and a long-time addict. Reprint. A best-selling book.

**You Can't Win** Jack Black,2018-10-17 Much of this book is about loneliness. Yet its pages are bracingly companionable. It is one of the friendliest books ever written. It is a superb piece of autobiography, testimony that cannot be impeached. While it is a statement of an American tragedy, it has laughter, brevity, style; as a book to pass the time away with, it is in a class with the best fiction. — Carl Sandburg, New York World Nothing half as rewarding has come down the highway of books about thieves, tramps, murderers, bootleggers and crooks in years — New Republic I believe Jack Black has written a remarkable book; it is vivid and picturesque; it is not fiction; it is a book that was needed and it should be widely read. — Clarence Darrow, New York Herald Tribune A major influence on William S. Burroughs and other Beat writers, this lost classic was written by Jack Black, a drifter and small-time criminal. Born in 1872, Black hit the road at the age of 16 and spent most of his life as a vagabond. In this plainspoken but colorful memoir, he recaptures a hobo underworld of the early twentieth century, a time when it was possible to pass anonymously from town to town. Black's firsthand accounts of hopping trains, burglaries, prison, and drug addiction offer a compelling portrait of life outside the law and honor among thieves.
