Essentials of Business Communication Mary Ellen Guffey,2004 This text-workbook is a streamlined, no-nonsense approach to business communication. It takes a three-in-one approach: (1) text, (2) practical workbook, and (3) self-teaching grammar/mechanics handbook. The chapters reinforce basic writing skills, then apply these skills to a variety of memos, letters, reports, and resumes. This new edition features increased coverage of contemporary business communication issues including oral communication, electronic forms of communication, diversity and ethics.

Modern Soccer Coach Pressing Gary Curneen,2017-03-08 Pressing has the ability to expose defenders in possession, frustrate opposing teams, and create waves of attacking momentum that can help win games. This book studies top coaches like Pep Guardiola, Diego Simeone, Jurgen Klopp, Marceol Bielsa, Brendan Rodgers, Anson Dorrance, and Mauricio Pochettino, who may not have invented pressing, but have taken it to new levels by developing unique systems to suit the demands of the game today. In addition, they have successfully created team cultures in which players are prepared to go above and beyond for one another. Aimed at coaches of all levels, Modern Soccer Coach: Pressing offers a unique insight into the different areas that coaches must address when developing a successful pressing system, including developing play models, training methodology, player profiles, scouting systems, team culture and the philosophy of the coach.

20 Something Manifesto Christine Hassler,2010-09-24 Surrounded by possibility but unsure of your direction? You're not alone. If you're in your twenties, you're likely feeling the combination of the excitement of this defining decade and the pressure to figure out your entire life. The thrill of newfound independence and opportunity can be quickly squelched by worry, disillusionment, or disappointment. Like thousands of other twenty somethings, you may have experienced what life coach and quarter-life expert Christine Hassler calls an "Expectation Hangover?." This manifesto explores the all-important questions and life choices of these turbulent yet exciting years. Twenty somethings may commiserate about the challenges they face, but few resources offer practical lessons or suggestions. In these pages, quarter-life men and women tell their stories, sharing their successes and failures, along with their frustrations and realizations. The author's insightful commentary and "take away" suggestions provide the tools and skills you need to create change and direction in your life. You'll recognize and articulate your personal goals, paving the way to what you truly want.

Reach for the Summit Pat Summitt,1999-04-13 I'm someone who will push you beyond all reasonable limits. Someone who will ask you not to just fulfill your potential but to exceed it. Someone who will expect more from you than you may believe you are capable of. So if you aren't ready to go to work, shut this book. --Pat Summitt Pat Summitt, head coach of the University of Tennessee Lady Vols, was a phenomenon in women's basketball. Her ferociously competitive teams won the NCAA championship in 1996 and 1997 and made her the winningest coach in NCAA Division 1 women's history. Summitt wrote the first motivational book by a high-achieving female coach. In *Reach for the Summit*, she presented her formula for success, which she called the Definite Dozen System. In each of the book's twelve chapters, Summitt talked about one of the system's principles--such as responsibility, discipline, and loyalty--and showed how to apply it to your own situation. Pat Summitt used her own remarkable story as a vehicle for explaining how anyone can transform herself through ambition. Through many amusing anecdotes and a few very painful memories, she revealed her mistakes and triumphs as a beginning basketball player, as an Olympic athlete, as a Division 1 coach, and as a mother. Although Summitt was not born to the easy life--she was born into a hard-working farm family in a remote corner of Tennessee--she became one of the most successful and highest-paid coaches in the country. She candidly talked about how she turned her losses into wins and then showed how you can do the same. Wonderfully entertaining and brilliantly instructive, *Reach for the Summit* discloses the winning secret to building a principled system and making it to the top at whatever you do. Pat Summitt's story will motivate you to achieve in sports, business, and the most important game of all--life.

Creating a Life Together Diana Leafe Christian,2003-01-01 An intentional community is a group of people who have chosen to live or work together in pursuit of a common ideal or vision. An ecovillage is a village-scale intentional community that intends to create, ecological, social, economic, and spiritual sustainability over several generations. The 90s saw a revitalized surge of interest in intentional communities and ecovillages in North America: the number of intentional communities listed in the Communities Directory increased 60 percent between 1990 and 1995. But only 10 percent of the actual number of forming-community groups actually succeeded. Ninety percent failed, often in conflict and heartbreak. After visiting and interviewing founders of dozens of successful and failed communities, along with her own forming-community experiences, the author concluded that the successful 10 percent had all done the same five or six things right, and the unsuccessful 90 percent had made the same handful of mistakes. Recognizing that a wealth of wisdom were contained in these experiences, she set out to distill and capture them in one place. *Creating a Life Together* is the only resource available that provides step-by-step, practical how-to information on how to launch and sustain a successful ecovillage or intentional community. Through anecdotes, stories, and cautionary tales about real communities, and by profiling seven successful communities in depth, the book examines the successful 10 percent and why 90 percent fail; the role of community founders; getting a group off to a good start; vision and vision documents; decision-making and governance; agreements; legal options; finding, financing, and developing land; structuring a community economy; selecting new members; and communication, process, and dealing well with conflict. Sample vision documents, community agreements, and visioning exercises are included, along with abundant resources for learning more.

Twelve Years a Slave Solomon Northup,2024-01-04 Filmatised in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling

musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

The Fifth Sacred Thing Starhawk, 2011-08-10 An epic tale of freedom and slavery, love and war, and the potential futures of humankind tells of a twenty-first century California clan caught between two clashing worlds, one based on tolerance, the other on repression. Declaration of the Four Sacred Things The earth is a living, conscious being. In company with cultures of many different times and places, we name these things as sacred: air, fire, water, and earth. Whether we see them as the breath, energy, blood, and body of the Mother, or as the blessed gifts of a Creator, or as symbols of the interconnected systems that sustain life, we know that nothing can live without them. To call these things sacred is to say that they have a value beyond their usefulness for human ends, that they themselves became the standards by which our acts, our economics, our laws, and our purposes must be judged. No one has the right to appropriate them or profit from them at the expense of others. Any government that fails to protect them forfeits its legitimacy. All people, all living things, are part of the earth life, and so are sacred. No one of us stands higher or lower than any other. Only justice can assure balance: only ecological balance can sustain freedom. Only in freedom can that fifth sacred thing we call spirit flourish in its full diversity. To honor the sacred is to create conditions in which nourishment, sustenance, habitat, knowledge, freedom, and beauty can thrive. To honor the sacred is to make love possible. To this we dedicate our curiosity, our will, our courage, our silences, and our voices. To this we dedicate our lives. Praise for The Fifth Sacred Thing “This is wisdom wrapped in drama.”—Tom Hayden, California state senator “Starhawk makes the jump to fiction quite smoothly with this memorable first novel.”—Locus “Totally captivating . . . a vision of the paradigm shift that is essential for our very survival as a species on this planet.”—Elinor Gadon, author of The Once and Future Goddess “This strong debut fits well against feminist futuristic, utopic, and dystopic works by the likes of Charlotte Perkins Gilman, Ursula LeGuin, and Margaret Atwood.”—Library Journal

The Talented Miss Farwell Emily Gray Tedrowe, 2020-09-29 Catch Me If You Can meets Patricia Highsmith in this “stylish” (New York Times Book Review) page-turner of greed and obsession, survival and self-invention that is a piercing character study of one unforgettable female con artist. At the end of the 1990s, with the art market finally recovered from its disastrous collapse, Miss Rebecca Farwell has made a killing at Christie’s in New York City, selling a portion of her extraordinary art collection for a rumored 900 percent profit. Dressed in couture YSL, drinking the finest champagne at trendy Balthazar, Reba, as she’s known, is the picture of a wealthy art collector. To some, the elusive Miss Farwell is a shark with outstanding business acumen. To others, she’s a heartless capitalist whose only interest in art is how much she can make. But a thousand miles from the Big Apple, in the small town of Pierson, Illinois, Miss Farwell is someone else entirely—a quiet single woman known as Becky who still lives in her family’s farmhouse, wears sensible shoes, and works tirelessly as the town’s treasurer and controller. No one understands the ins and outs of Pierson’s accounts better than Becky; she’s the last one in the office every night, crunching the numbers. Somehow, her neighbors marvel, she always finds a way to get the struggling town just a little more money. What Pierson doesn’t see—and can never discover—is that much of that money is shifted into a separate account that she controls, “borrowed” funds used to finance her art habit. Though she quietly repays Pierson when she can, the business of art is cutthroat and unpredictable. But as Reba Farwell’s deals get bigger and bigger, Becky Farwell’s debt to Pierson spirals out of control. How long can the talented Miss Farwell continue to pull off her double life?

Making Conversation Fred Dust, 2020-12-01 A former Senior Partner and Global Managing Director at the legendary design firm IDEO shows how to design conversations and meetings that are creative and impactful. Conversations are one of the most fundamental means of communicating we have as humans. At their best, conversations are unconstrained, authentic and open—two or more people sharing thoughts and ideas in a way that bridges our individual experiences, achieves a common goal. At their worst, they foster misunderstanding, frustration and obscure our real intentions. How often do you walk away from a conversation feeling really heard? That it moved the people in it forward in some important way? You’re not alone. In his practice as a designer, Fred Dust began to approach conversations differently. After years of trying to broker communication between colleagues and clients, he came to believe there had to be a way to design the art of conversation itself with intention and purpose, but still artful and playful. Making Conversation codifies what he learned and outlines the seven elements essential to successful exchanges: Commitment, Creative Listening, Clarity, Context, Constraints, Change, and Create. Taken together, these seven elements form a set of resources anyone can use to be more deliberate and purposeful in making conversations work.

The Big Disruption: A Totally Fictional But Essentially True Silicon Valley Story Jessica Powell, 2019-04-03 The first novel ever published by the digital platform Medium, The Big Disruption surpassed 100,000 readers in its first two weeks online and was described by Farhad Manjoo in The New York Times as a zany satire [whose] diagnosis of Silicon Valley's cultural stagnancy is so spot on that it's barely contestable.

Science Teachers' Learning National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Teacher Advisory Council, Board on Science Education, Committee on Strengthening Science Education through a Teacher Learning Continuum, 2016-01-15 Currently, many states are adopting the Next Generation Science Standards (NGSS) or are revising their own state standards in ways that reflect the NGSS. For students and schools, the implementation of any science standards rests with teachers. For those teachers, an evolving understanding about how best to teach science represents a significant transition in the

way science is currently taught in most classrooms and it will require most science teachers to change how they teach. That change will require learning opportunities for teachers that reinforce and expand their knowledge of the major ideas and concepts in science, their familiarity with a range of instructional strategies, and the skills to implement those strategies in the classroom. Providing these kinds of learning opportunities in turn will require profound changes to current approaches to supporting teachers' learning across their careers, from their initial training to continuing professional development. A teacher's capability to improve students' scientific understanding is heavily influenced by the school and district in which they work, the community in which the school is located, and the larger professional communities to which they belong. Science Teachers' Learning provides guidance for schools and districts on how best to support teachers' learning and how to implement successful programs for professional development. This report makes actionable recommendations for science teachers' learning that take a broad view of what is known about science education, how and when teachers learn, and education policies that directly and indirectly shape what teachers are able to learn and teach. The challenge of developing the expertise teachers need to implement the NGSS presents an opportunity to rethink professional learning for science teachers. Science Teachers' Learning will be a valuable resource for classrooms, departments, schools, districts, and professional organizations as they move to new ways to teach science.
