**Alex Jones** David Rogers,2017-11-17 Alex Jones is an American radio show host and conspiracy theorist. He hosts The Alex Jones Show from Austin, Texas, which airs on the Genesis Communications Network and shortwave radio station WWCR across the United States and online. He is the founder of InfoWars. Jones has been the center of many controversies, including his promotion of Sandy Hook Elementary School shooting conspiracy theories, and his opposition to gun control. He has accused the U.S. government of being involved in the Oklahoma City bombing, the September 11 attacks, and the filming of fake Moon landings to hide NASA's secret technology. He has claimed that several governments and big business have colluded to create a New World Order through manufactured economic crises, sophisticated surveillance tech and-above all-inside-job terror attacks that fuel exploitable hysteria. Jones has described himself as a libertarian and paleoconservative, and has been described by others as conservative, right-wing, alt-right and far right. New York magazine described Jones as America's leading conspiracy theorist, and the Southern Poverty Law Center describes him as the most prolific conspiracy theorist in contemporary America. When asked about these labels, Jones said that he is proud to be listed as a thought criminal against Big Brother.

**The Great Awakening** Alex Jones,Kent Heckenlively,2023-10-24 In The Great Awakening: Defeating the Globalists and Launching the Next Great Renaissance, the most persecuted man on Earth, Alex Jones, gives you the good news about the failing plans of the globalists to control humanity. The expression “Get woke, go broke” has entered the common lexicon as we’ve seen company after company invoke the false gods of diversity, equity, and inclusion to their financial demise. But this surface discussion masks a much darker truth. What we are witnessing is nothing less than the failed plans of social Darwinists to capture free market capitalism and turn it toward their fascist aims of controlling and depopulating the globe. Working with New York Times bestselling author Kent Heckenlively, Jones masterfully gives you the deeper discussion about such hot button topics as the truth behind the globalists plans for artificial intelligence (AI), the central bank digital currency, social credit scores, Big Tech tyranny, censorship, fifteen-minute cities, the unholy alliance between big business and big government, the military-intelligence-industrial complex—which is hell-bent on eternal war—and the all-out assault on free speech and the Second Amendment. The good news is that these plans are destined to fail, if we wake up to the anti-human future the globalists have planned for us. The globalists hate freedom, and what they hate the most is the greatest freedom document in human history, the United States Constitution. Jones does not shy away from the darker parts of American history—the way we have been systematically deceived by the intelligence agencies since their assassination of President John F. Kennedy—but he provides example after example of people who have broken free from the matrix of lies to tell the truth. The people the globalists fear the most are the members of their own systems of control, who wake up and then decide to act against the machine. The globalists believe they’ve planned for every possible contingency, but they hadn’t counted on the conscience and love of truth, which lives in the souls of good people. St. Augustine once wrote: “The truth is like a lion; you don’t have to defend it. Let it loose; it will defend itself.” No figure in our modern times has roared louder against the enemies of freedom than Alex Jones. In the calm and dispassionate style that made his first book, The Great Reset: And the War for the World, such a smash hit, Alex lays out the flaws in the plans of the globalists and how they seek to create a world in direct opposition to God’s plans for our glorious human future. But God consistently works His will in our world, even through imperfect individuals like Donald Trump, Alex Jones, or you. If you want to read one book this year to understand your world and help lead humanity to the next great human renaissance, you need to order this book today.

**Radio 2.0** Matthew Lasar,2016-03-14 Welcome to the uncertain world of Radio 2.0—where podcasts, mobile streaming, and huge music databases are the new reality, as are tweeting deejays and Apple's Siri serving as music announcer—and understand the exciting status this medium has, and will continue to have, in our digitally inclined society. How did popular radio in past decades—from President Franklin D. Roosevelt's Fireside Chats in the 1930s through Top 40 music and Rush Limbaugh's talk radio empire—shape American society? How did devices and systems like the iPhone, Pandora, and YouTube turn the radio industry upside-down? Does radio still have a future, and if so, what will we want it to look like? Radio 2.0: Uploading the First Broadcast Medium covers the history and evolution of Internet radio, explaining what came before, where Internet radio came from, and where it is likely headed. It also gives readers a frame of reference by describing radio from its introduction to American audiences in the 1920s—a medium that brought people together through a common experience of the same broadcast—and shows how technologies like digital music and streaming music services put into question the very definition of radio. By examining new radio and media technologies, the book explores an important societal trend: the shift of media toward individualized or personalized forms of consumption.

The Great Reset Alex Jones,2022-08-30 In The Great Reset: And the War for the World, the most controversial man on earth Alex Jones gives you a full analysis of The Great Reset, the global elite's international conspiracy to enslave humanity and all life on the planet. If you really want to know what’s happening in the world, this is the one book you must read now. Alex Jones is the most censored man on the planet and you should ask yourself why that is. There is a powerful authoritarian takeover in process that is seeking to capture the entire human system and turn it into an artificial factory farm controlled system. We are in a war for the future of the world. In this book, you will hear from the world’s elites, from their own mouths, what they are planning for you and your families and you will learn what you can do to fight it. From central bankers, corporate billionaires, and corrupted government officials, global elites have been organizing a historic war on humanity under a trans-humanist, scientific dictatorship. Alex Jones was the first major figure to expose the World Economic Forum’s agenda. He has dedicated the last 30 years of his life to studying The Great Reset, conducting tens of thousands of interviews with top-level scientists, politicians, and military officials in order to reverse engineer their secrets and help awaken humanity. The Great Reset: And the War for the World chronicles the history of the global elites' rise to power and reveals how they’ve captured the governments of the world and financed The Great Reset to pave the way for The New World Order. Once dubbed a conspiracy theory, but now openly promoted by the most powerful corporations and governments, The Great Reset is a planned attempt to redistribute all the world’s wealth and power into the hands of banks, corporations, billionaires, and The World Economic Forum. If you read one book in a lifetime, this is it. In The Great Reset: And the War for the World, you will discover from the self-appointed controllers of the planet in their own words, their plan for what they call the final revolution, or The Great Reset. The only way this corporate fascist conspiracy can succeed is if the people of the world are not aware of it. And this book lays out their sinister blueprint and how to stop it. While many great books have been written to help awaken people to this sinister agenda, no author has ever spent as much time and research on The Great Reset as Alex Jones. The Great Reset: And the War for the World is the undisputed trailblazer for understanding what’s happening and how to stop it.

Talk Radio’s America Brian Rosenwald,2019-08-13 The cocreator of the Washington Post’s “Made by History” blog reveals how the rise of conservative talk radio gave us a Republican Party incapable of governing and paved the way for Donald Trump. America’s long road to the Trump presidency began on August 1, 1988, when, desperate for content to save AM radio, top media executives stumbled on a new format that would turn the political world upside down. They little imagined that in the coming years their brainchild would polarize the country and make it nearly

impossible to govern. Rush Limbaugh, an enormously talented former disc jockey—opinionated, brash, and unapologetically conservative—pioneered a pathbreaking infotainment program that captured the hearts of an audience no media executive knew existed. Limbaugh’s listeners yearned for a champion to punch back against those maligning their values. Within a decade, this format would grow from fifty-nine stations to over one thousand, keeping millions of Americans company as they commuted, worked, and shouted back at their radios. The concept pioneered by Limbaugh was quickly copied by cable news and digital media. Radio hosts form a deep bond with their audience, which gives them enormous political power. Unlike elected representatives, however, they must entertain their audience or watch their ratings fall. Talk radio boosted the Republican agenda in the 1990s, but two decades later, escalation in the battle for the airwaves pushed hosts toward ever more conservative, outrageous, and hyperbolic content. Donald Trump borrowed conservative radio hosts’ playbook and gave Republican base voters the kind of pugnacious candidate they had been demanding for decades. By 2016, a political force no one intended to create had completely transformed American politics.

**Alex Jones** Alex Jones,2009-10 If you've never heard of Alex Jones, then you've been missing out on one of the most dynamic, hard-hitting talk radio hosts on the planet. Featured on Good Morning America, 20/20 Downtown, 60 Minutes, The Discovery Channel, A&E, Court TV, and more, Jones appears on multiple stations across the country and has been called an absolutely riveting television presence by Patrick Beech of the Austin-American Statesman. Mike Kelley, also of the Austin-American Statesman, said of Mr. Jones, On television, he exudes so much energy that a viewer might almost expect bits of flesh to start flying from the screen. For decades Americans have been aware that the government withholds pertinent information that affects their lives. While the rigors of the average workday leave Americans defenseless against government cover-ups, mass media red herrings, and corporate scandals, Alex Jones sorts through the corruption with eager devotion. He uncovers clear and decisive information that must be heard. Jones' voice spreads like wildfire, developing legions of loyal listeners and readers. Jones has been on the front lines of the growing global information war from ground zero to the occult playgrounds of the power-mad elite. He predicted the attacks on September 11, 2001, and is considered to be one of the founding fathers of the 9/11 Truth Movement. He has made an incredible seventeen documentary films covering a wide range of important social and geo-political issues. While millions of people listen to his radio broadcasts and watch his films, this is Alex Jones' first book.

**Fear Itself** Ann Gordon,L. Edward Day,Christopher D. Bader,Joseph O. Baker,2020-03-03 An antidote to the culture of fear that dominates modern life From moral panics about immigration and gun control to anxiety about terrorism and natural disasters, Americans live in a culture of fear. While fear is typically discussed in emotional or poetic terms—as the opposite of courage, or as an obstacle to be overcome—it nevertheless has very real consequences in everyday life. Persistent fear negatively effects individuals’ decision-making abilities and causes anxiety, depression, and poor physical health. Further, fear harms communities and society by corroding social trust and civic engagement. Yet politicians often effectively leverage fears to garner votes and companies routinely market unnecessary products that promise protection from imagined or exaggerated harms. Drawing on five years of data from the Chapman Survey of American Fears—which canvasses a random, national sample of adults about a broad range of fears—Fear Itself offers new insights into what people are afraid of and how fear affects their lives. The authors also draw on participant observation with Domsday preppers and conspiracy theorists to provide fascinating narratives about subcultures of fear. Fear Itself is a novel, wide-ranging study of the social consequences of fear, ultimately suggesting that there is good reason to be afraid of fear itself.

**Treason on the Airwaves** Judith Keene,2008-12-30 This work traces the extraordinary journeys of three World War II radio broadcasters in Germany and Japan whose wartime choices became treason in Britain, Australia, and the United States. John Amery, a member of a well-connected British family, joined Hitler's propagandists in Berlin. He was executed for treason by Britain after the war. Charles Cousens was a soldier in Japanese captivity when he was put to work on Radio Tokyo with a team of Allied POWs. Cousens was later tried as a traitor in Australia. Iva Toguri, better known as Tokyo Rose, was an American student visiting Japan when war broke out. She broadcast her English show on Radio Tokyo out of necessity rather than conviction. The United States jailed Toguri for treason. Through these powerful stories, this work not only sheds new light on the history of wartime radio broadcasting in Germany and Japan, but also examines the laws of treason in Britain, Australia, and the United States and the ways in which trials such as these helped shape modern-day treason trials. All three accounts provoke thoughtful questions as to the nature of justice—and the justice of retribution. This work traces the extraordinary journeys of three World War II radio broadcasters in Germany and Japan whose wartime choices became treason in Britain, Australia, and the United States.

**Hope and Fear** Ronald H. Fritze,2022-04-18 A myth-busting journey through the twilight world of fringe ideas and alternative facts. Is a secret and corrupt Illuminati conspiring to control world affairs and bring about a New World Order? Was Donald Trump a victim of massive voter fraud? Is Elizabeth II a shapeshifting reptilian alien? Who is doing all this plotting? In Hope and Fear, Ronald H. Fritze explores the fringe ideas and conspiracy theories people have turned to in order to make sense of the world around them, from myths about the Knights Templar and the Ten Lost Tribes of Israel, to Nazis and the occult, the Protocols of Zion and UFOs. As Fritze reveals, when conspiracy theories, myths, and pseudo-history dominate a society’s thinking, facts, reality, and truth fall by the wayside.

King,Esther Kim,Ellen Middaugh,Sarah McGrew,Joel Breakstone,Teresa Ortega,Mark Smith,Sam Wineburg ,Avner Segall,Margaret Smith Crocco,Anne-Lise Halvorsen,Rebecca Jacobsen,Erica Hodgins,Joseph Kahne,Christopher H. Clark,Jennifer Hauver,2019-03-08 Since the 2016 presidential election, the term fake news has become part of the national discourse. In this book, leading civic education scholars unpack why fake news is effective and show K-12 educators how they can teach their students to be critical consumers of the political media they encounter.

Radio Goes to War Charles James Rolo,1942 In his 1942 book, Radio Goes to War, Charles Rolo writes that German radio programs aimed at British audiences venomously criticized unemployment, slums, disease, and crime in America.

**World War II: the Radio War** R. LeRoy Bannerman,2013-09-18 World War II: the Radio War relates concerns and conditions facing American homes during The War and the role that radio played in maintaining morale, providing information and incentive to achieve patriotic responsibility. This human account of public sacrifice and national involvement is relevant to current attitudes and concerns facing our country today in spite of the events occurring some seventy years ago. Although the subject is American-based, the narrative of this book applies to other peoples and has appeal in their countries, especially England.

**Republican Rescue** Chris Christie,2021-11-16 Enough with the infighting, the truth-denying, the wild conspiracy claims, the looking backward, and the refusal to focus on the dangerous Biden agenda. Here’s Chris Christie’s urgent guide for recapturing Republican glory and winning elections again, told with all the New Jersey frankness and news-breaking insights that have made the two-term governor and presidential candidate an indispensable voice and instant New York Times bestselling author. As governor of New Jersey and a key Trump insider and longtime friend, Chris Christie has always been known for speaking his mind. Now that the depressing 2020 election is finally behind us, he shares his bold insights on how a battered Republican Party can soar into the future and start winning big elections again. The wrong answers are everywhere. Dangerous conspiracy theorists. A tired establishment. Truth deniers and political cowards. In Republican Rescue, Christie reveals exactly how absurd grievances and self-inflicted wounds sabotaged Donald Trump’s many successes and allowed Democrats to capture the White House, the House, and Senate in two years—a first for the GOP since the days of Herbert Hoover. In his frank and compelling voice, Christie dissects the last year of the Trump administration—which provoked nothing but conspiracy theories and infighting—and he lays out an honest and hopeful vision, explaining how Republicans can capture the future and save America from today’s damaging Democratic excesses. The core Republican values of Abraham Lincoln, Teddy Roosevelt, and Ronald Reagan are as relevant now as they’ve ever been, Christie writes. Opportunity for all. A strong national defense. Leaders we can all be proud of. Americans in charge of their own lives. A federal government that answers to the people—not the other way around. But these Republican ideals need to be reinvigorated with fresh clarity and open arms. Christie watched in horror as some in his beloved party embraced paranoia and explained away violence. Determined to restore the party’s integrity and success, he shows how to build a movement voters will flock to again, a Republicanism that’s blunt, smart, conservative, potent, and perfectly suited for the 21st century.

*The Crisis of the Institutional Press* Stephen D. Reese,2020-10-28 As polarized factions in society pull apart from economic dislocation, tribalism, and fear, and as strident attacks on the press make its survival more precarious, the need for an institutionally organized forum in civic life has become increasingly important. Populist challenges amplified by a counter-institutional media system have contributed to the long-term decline in journalistic authority, exploiting a post-truth mentality that strikes at its very core. In this timely book, Stephen Reese considers these threats through a new conception of the ‘hybrid institution’: an idea that extends beyond the traditional newsroom, and distributes across multiple platforms, national boundaries, and social actors. What is it about the institutional press that we value, and around what normative standards could a hybrid institution emerge? Addressing these questions, Reese highlights how this is no time to be passive but rather to articulate and defend greater aspirations. The institutional press matters more than ever: a reality that must be communicated to a public that depends on it. The Crisis of the Institutional Press is an essential resource for students and scholars of journalism, media and communication.

Secrets of Victory Michael S. Sweeney,2003-01-14 During World War II, the civilian Office of Censorship supervised a huge and surprisingly successful program of news management: the voluntary self-censorship of the American press. In January 1942, censorship codebooks were distributed to all American newspapers, magazines, and radio stations with the request that journalists adhere to the guidelines within. Remarkably, over the course of the war no print journalist, and only one radio journalist, ever deliberately violated the censorship code after having been made aware of it and understanding its intent. Secrets of Victory examines the World War II censorship program and analyzes the reasons for its success. Using archival sources, including the Office of Censorship's own records, Michael Sweeney traces the development of news media censorship from a pressing necessity after the attack on Pearl Harbor to the centralized yet efficient bureaucracy that persuaded thousands of journalists to censor themselves for the sake of national security. At the heart of this often dramatic story is the Office of Censorship's director Byron Price. A former reporter himself, Price relied on cooperation with--rather than coercion of--American journalists in his fight to safeguard the nation's secrets.
