Growing Happy Kids Maureen Healy,2012-04-03 Every parent wants his or her child to be happy and grow into a productive, fulfilled adult . . . and according to parenting expert Maureen Healy, the secret to that success is in providing a foundation of inner confidence. Parents and teachers know that confidence and inner strength are important attributes, but in an era where self-worth is often measured by possessions and attractiveness, most have no idea how to model true inner confidence for their kids or how to help them cultivate it. Real power-or inner confidence-is necessary to overcome obstacles, pursue our unique dreams, and be truly happy. Maureen Healy, a spiritual teacher with twenty years of experience as a child development expert, literally traveled the world from the Bronx to the base of the Himalayas to learn the connection between inner confidence and lasting happiness, and she shares that wealth of knowledge in *Growing Happy Kids*. Combining her Buddhist training, her background in child psychology, and the latest scientific research, Maureen shares her revolutionary model that defines inner confidence and cultivates a child's sense of optimism and connection. She explores each part of her system, which she called The Five Building Blocks of Confidence, with the mind of a scientist, yet the softness of a real parent who wants to raise strong, happy children. By using those building blocks-biology, beliefs, emotions, social, and spiritual-parents, teachers, and anyone who touches the life of a child can gain the skills necessary to foster happy kids who are strong, self-reliant, and confident. In *Growing Happy Kids*, Maureen Healy has given us rich and valuable tools to assist us in honoring and supporting our children in building their self-confidence and helping them become happier. It is a MUST read for all parents, educators, and people who care. -Edwene Gaines, author of *The Four Spiritual Laws of Prosperity* Drawing on her own extensive research and experience, Maureen Healy wisely leads parents and caregivers into the heart of awakening and activating the innate confidence with which every child is born. This is a book that parents will read over and over again. -Michael Bernard Beckwith, author of *Spiritual Liberation: Fulfilling Your Soul's Potential*

**The Peace Perspective** Mike Markovski,2014-09-10 What parent does not want to see their children have a life of inner peace and love? I believe inner peace and love is the greatest gift we can give our children. A peace within leads to a greater love of oneself and that love helps us to have a higher self-esteem. It is with this higher self-esteem that our children can best deal with the many challenges life has to offer. We all want to give our children the best chance for success in life, but what is the best way to make this success possible? About the author - Mike Markovski has taught a children's self-esteem class for 15 years while working as a Controller in the accounting field. The information provided in this book has come from his practical experience of teaching, coaching, raising children, and from years of reading positive thinking books. This book is from the perspective of a concerned parent of three grown sons, who hopes his unique perspective of life will make a difference in the world. Many books are available on the topic of peace, self-esteem, and parenting. This book is different in that it offers a perspective from a non-technical point of view. The goal of this book is to inspire and motivate the reader to start the process of finding a peace within. By finding more peace within, we can more easily share this important quality with our children. The Peace Perspective is one man's view of how we can make a difference in the world. Just by raising our children's inner peace and self-esteem, we can make our world a more peaceful and loving place Keywords: Peace, Parenting, Self-esteem, Self-help, Mindfulness, Bullying, Children, Success, Love, Happiness

**Little Flower Yoga for Kids** Jennifer Cohen Harper,2013-11-01 Wouldn't it be great if your child could exercise, have fun, and build concentration skills all at the same time? In 2006, the Little Flower Yoga program was developed by teacher and certified yoga instructor Jennifer Cohen Harper, when her successful use of yoga in her kindergarten classroom led to requests by other students, teachers, and administrators for yoga programs of their own. Harper slowly began to teach more and more yoga classes, and eventually recruited other yoga teachers with education backgrounds to continue growing what had become a flourishing program. Little Flower Yoga for Kids offers this fun and unique program combining yoga and mindfulness in an easy-to-read format. Written specifically for parents and kids, the book aims at teaching children to pay attention, increase focus, and balance their emotions—all while building physical strength and flexibility. Based on a growing body of evidence that yoga and mindfulness practices can help children develop focus and concentration, the simple yoga exercises in this book can easily be integrated into their child's daily routine, ultimately improving health, behavior, and even school achievement. The book details the five main components of the program: connect, breath, move, focus, and relax. Drawing on these components, Harper shares practical activities that parents can use with their children both on a daily basis and as applied to particularly challenging issues. And while this book is targeted to parents, teachers may also find it extremely useful in helping students achieve better attention and focus.
