iNotes 2020 - Uvea Dhaval Patel, When I compiled first edition of this iNotes Manual in 2014, It was simple collection of few notes (very much incomplete!) which I prepared for my Post-graduate Ophthalmology Exams at AIIMS, New Delhi. Since then I am regularly receiving emails and messages regarding usefulness of these notes as a study material for Post-graduate students all across the world. For last few years, I am getting emails asking that if I am going to bring any updated version of my iNotes as ophthalmology has advanced a lot in last 10 years. Hence from last one year I have started reading newer edition of books, recent question papers, gathered notes and presenting to you as completely new version as iNotes 2020. In this edition of iNotes, I have tried to include clinical, practical and surgical tips which is going to be used in your future practice also so that this manual can be a handy book for you as a future reference too. Also Remember, this is a "Manual" and not a "Complete Book", and Just like most of others, it is also far from Complete. One of the best way to utilise this for your exam preparation is to use this as a reference and make your personal manual by adding your own notes and topics asked in your university.

The Development of Political Attitudes in Children Judith V. Torney-Purta,2017-09-08 Based on a study of 12,000 elementary school children in eight large and medium-sized American cities, this book presents the first large-scale study of political attitude formation in children. The authors view political development from the perspective of a general theory of socialization, and compare the influences of social class, intelligence, teacher attitude, and religious membership on the growth of political attitudes. The book outlines the way in which the child's political awareness evolvesfrom identification with authority figures such as father, policeman, the president, to a grasp of more abstract political concepts and the rudiments of political participation. Illuminating a topic of great theoretical concern and practical educational importance, the book is a significant contribution to the fields of political sociology, child development and educational psychology, and an important reference work for all concerned with the processes of socialization and of attitude formation in general. The Development of Political Attitudes in Children was based on a major survey, the first of its kind, begun at the University of Chicago in 1960 to as certain information about the induction of children into the political life of the United States, to describe the nature of socialization into citizenship roles, and to examine pre-adult political learning and behavior in terms of other implications for the stability of the political system.

Customizing and Extending IBM Content Navigator Wei-Dong Zhu,Tomas Barina,Yi Duan,Nicole Hughes,Marcel Kostal,Chad Lou,Brett Morris,Rainer Mueller-Maechler,Ron Rathgeber,Jana Saalfeld,Jian Xin Zhang,Jie Zhang,IBM Redbooks,2015-04-13 IBM® Content Navigator provides a unified user interface for your Enterprise Content Management (ECM) solutions. It also provides a robust development platform so you can build customized user interface and applications to deliver value and an intelligent, business-centric experience. This IBM Redbooks® publication guides you through the Content Navigator platform, its architecture, and the available programming interfaces. It describes how you can configure and customize the user interface with the administration tools provided, and how you can customize and extend Content Navigator using available development options with sample code. Specifically, the book shows how to set up a development environment, and develop plug-ins that add an action, service, and feature to the user interface. Customization topics include implementing request and response filters, external data services (EDS), creating custom step processors, and using Content Navigator widgets in other applications. This book also covers mobile development, viewer customization, component deployment, and debugging and troubleshooting. This book is intended for IT architects, application designers and developers working with IBM Content Navigator and IBM ECM products. It offers a high-level description of how to extend and customize IBM Content Navigator and also more technical details of how to do implementations with sample code.

Notes from an Apocalypse Mark O'Connell,2020-04-14 AN NPR BEST BOOK OF THE YEAR • An absorbing, deeply felt book about our anxious present tense—and coming to grips with the future, by the author of the award-winning To Be a Machine. "Deeply funny and life-affirming, with a warm, generous outlook even on the most challenging of subjects." —Esquire We're alive in a time of worst-case scenarios: The weather has gone uncanny. A pandemic draws our global community to a halt. Everywhere you look there's an omen, a joke whose punchline is the end of the world. How is a person supposed to live in the shadow of such a grim future? What might it be like to live through the worst? And what on earth is anybody doing about it? Dublin-based writer Mark O'Connell is consumed by these questions—and, as the father of two young children, he finds them increasingly urgent. In Notes from an Apocalypse, he crosses the globe in pursuit of answers. He tours survival bunkers in South Dakota. He ventures to New Zealand, a favored retreat of billionaires banking on civilization's collapse. He engages with would-be Mars colonists, preppers, right-wing conspiracists. And he bears witness to places, like Chernobyl, that the future has already visited—real-life portraits of the end of the world as we know it. What emerges is an absorbing, funny, and deeply felt book about our anxious present tense—and coming to grips with what's ahead.

<u>Advanced Information Networking and Applications</u> Leonard Barolli,Isaac Woungang,Tomoya Enokido,2021 This book covers the theory, design and applications of computer networks, distributed computing and information systems. Networks of today are going through a rapid evolution, and there are many emerging areas of information networking and their applications. Heterogeneous networking supported by recent technological advances in low-power wireless communications along with silicon integration of various functionalities such as sensing, communications, intelligence and actuations is emerging as a critically important disruptive computer class based on a new platform, networking structure and interface that enable novel, low-cost and high-volume applications. Several of such applications have been difficult to realize because of many interconnections problems. To fulfill their large range of applications, different kinds of networks need to collaborate, and wired and next-generation wireless systems should be integrated in order to develop high-performance computing solutions to problems arising from the complexities of these networks. The aim of the book Advanced Information Networking and Applications is to provide latest research findings, innovative research results, methods and development techniques from both theoretical and practical perspectives related to the emerging areas of information networking and applications.

Toward the Image of Tammuz and Other Essays on Mesopotamian History and Culture Thorkild Jacobsen,2008-05-01 In this volume, William L. Moran has collected seventeen of Jacobsen's widely scattered essays. Dealing with religion, history, culture, government, economics, and grammar, these pieces are representative of all aspects of Jacobsen's work, but stress his studies in history and religion, the fields in which he made his most important contributions to our knowledge of Mesopotamian culture and the origins of Western civilization. Moran has also included a bibliography of and a lexical index to Jacobsen's writings.

The Child-Parent Relationship in the New Testament and Its Environment Peter Balla,2015-12-18 What was family life like in the early church? How did early Christians treat their parents? Would early Christian families have been admired or scorned by their neighbors? Did the relationships between early Christian children and their parents mirror those in the families around them? What characteristics were typical of the first few generations of followers of Jesus? Marshalling the evidence from both New Testament and nonbiblical texts, Peter Balla offers fresh insight into the first Christian families.
