Love and Math Edward Frenkel,2013-10-01 An awesome, globe-spanning, and New York Times bestselling journey through the beauty and power of mathematics What if you had to take an art class in which you were only taught how to paint a fence? What if you were never shown the paintings of van Gogh and Picasso, weren't even told they existed? Alas, this is how math is taught, and so for most of us it becomes the intellectual equivalent of watching paint dry. In Love and Math, renowned mathematician Edward Frenkel reveals a side of math we've never seen, suffused with all the beauty and elegance of a work of art. In this heartfelt and passionate book, Frenkel shows that mathematics, far from occupying a specialist niche, goes to the heart of all matter, uniting us across cultures, time, and space. Love and Math tells two intertwined stories: of the wonders of mathematics and of one young man's journey learning and living it. Having braved a discriminatory educational system to become one of the twenty-first century's leading mathematicians, Frenkel now works on one of the biggest ideas to come out of math in the last 50 years: the Langlands Program. Considered by many to be a Grand Unified Theory of mathematics, the Langlands Program enables researchers to translate findings from one field to another so that they can solve problems, such as Fermat's last theorem, that had seemed intractable before. At its core, Love and Math is a story about accessing a new way of thinking, which can enrich our lives and empower us to better understand the

world and our place in it. It is an invitation to discover the magic hidden universe of mathematics.

The Lima Inquisition Ana E. Schaposchnik, 2015-10-13
The Holy Office of the Inquisition (a royal tribunal that addressed issues of heresy and offenses to morality) was established in Peru in 1570 and operated there until 1820. In this book, Ana E. Schaposchnik provides a deeply researched history of the Inquisition's Lima Tribunal, focusing in particular on the cases of persons put under trial for crypto-Judaism in Lima during the 1600s. Delving deeply into the records of the Lima Tribunal, Schaposchnik brings to light the experiences and perspectives of the prisoners in the cells and torture chambers, as well as the regulations and institutional procedures of the inquisitors. She looks closely at how the lives of the accused—and in some cases the circumstances of their deaths—were shaped by actions of the Inquisition on both sides of the Atlantic. She explores the prisoners' lives before and after their incarcerations and reveals the variety and character of prisoners' religiosity, as portrayed in the Inquisition's own sources. She also uncovers individual and collective strategies of the prisoners and their supporters to stall trials, confuse tribunal members, and attempt to ameliorate or at least delay the most extreme effects of the trial of faith. The Lima Inquisition also includes a detailed analysis of the 1639 Auto General de Fe ceremony of public penance and execution, tracing the agendas of individual inquisitors, the transition that occurred when punishment and surveillance were brought out of hidden dungeons and into public spaces, and the exposure of the condemned and their plight to an avid and awestricken audience. Schaposchnik contends that the Lima Tribunal's goal, more than volume or frequency in punishing heretics, was to discipline and shape culture in Peru.

We Yevgeny Zamyatin,2023-03-06 *We* is a dystopian novel written by Russian writer Yevgeny Zamyatin. Originally drafted in Russian, the book could be published only abroad. It was translated into English in 1924. Even as the book won a wide readership overseas, the author's satiric depiction led to his banishment under Joseph Stalin's regime in the then USSR. The book's depiction of life under a totalitarian state influenced the other novels of the 20th century. Like Aldous Huxley's *Brave New World* and George Orwell's *Nineteen Eighty-four*, *We* describes a future socialist society that has turned out to be not perfect but inhuman. Orwell claimed that *Brave New World* must be partly derived from *We*, but Huxley denied this. The novel is set in the future. D-503, a spacecraft engineer, lives in the One State which assists mass surveillance. Here life is scientifically managed. There is no way of referring to people except by their given numbers. The society is run strictly by reason as the primary justification for the construct of the society. By way of formulae and equations outlined by the One State, the individual's behaviour is based on logic.

Dominion Tom Holland, 2019-10-29 A marvelous (Economist) account of how the Christian Revolution forged the Western imagination. Crucifixion, the Romans believed, was the worst fate imaginable, a punishment reserved for slaves. How astonishing it was, then, that people should have come to believe that one particular victim of crucifixion—an obscure provincial by the name of Jesus—was to be worshipped as a god. *Dominion* explores the implications of this shocking conviction as they have reverberated throughout history. Today, the West remains utterly saturated by Christian assumptions. As Tom Holland demonstrates, our morals and ethics are not universal but are instead the fruits of a very distinctive civilization. Concepts such as secularism, liberalism, science, and homosexuality are deeply rooted in a Christian seedbed. From Babylon to the Beatles, Saint Michael to #MeToo, *Dominion* tells the story of how Christianity transformed the modern world.

Eryxias Plato, 2019-11-29 *Eryxias* by Plato is a spurious Socratic dialogue. It is set in the Stoa of Zeus Eleutherios, and features Socrates in conversation with Critias, Eryxias, and Erasistratus (nephew of Phaeax). The dialogue concerns the topic of wealth and virtue. The position of Eryxias that it is good to be materially prosperous is challenged when Critias argues that having money is not always a good thing. Socrates then shows that money has only a conventional value.

Shaw, 2020-08-13 *Saint Joan* is a play by George Bernard Shaw about 15th-century French military figure Joan of Arc. Premiering in 1923, three years after her canonization by the Roman Catholic Church, the play reflects Shaw's belief that the people involved in Joan's trial acted according to what they thought was right. He wrote in his preface to the play: There are no villains in the piece. Crime, like disease, is not interesting: it is something to be done away with by general consent, and that is all [there is] about it. It is what

men do at their best, with good intentions, and what normal men and women find that they must and will do in spite of their intentions, that really concern us
