The Un Inspections In Iraq Kathleen C Bailey,2019-07-09 This book describes the problems encountered by UN inspection teams assigned to find and destroy Iraq's nuclear, chemical, biological, and missile capabilities following Desert Storm. Kathleen C. Bailey focuses on the initial inspections—the period in which Iraq was struggling to camouflage and conceal its weapons and production equipment as inspectors were trying to define their role in the process. Working from interviews with these initial inspectors, Bailey extracts important lessons for future verification efforts. On-site arms control inspectors in Iraq found information to be carefully controlled by the government. Pertinent documentation was destroyed, only selected people were allowed to interact with inspectors, and officials refused to make full, complete declarations. Buildings were torn down, equipment was moved, and un-exploded ordnance was placed in the way. These and other techniques helped Iraq to hide its past activities and to preserve some of its weapons capabilities. In the future, arms control inspectors will need to develop strategies for dealing more effectively with recalcitrant inspectees and for creating the best possible procedures and processes. Bailey concludes with concrete suggestions for overcoming some of these obstacles with more effective inspection practices.

Inspection Josh Malerman,2019-03-19 Boys are being trained at one school for geniuses, girls at another. Neither knows the other exists—until now. The New York Times bestselling author of Bird Box invites you into a world of secrets and chills in a coming-of-age story like no other. **NOMINATED FOR THE BRAM STOKER AWARD** • “Josh Malerman is a master at unsettling you—and keeping you off-balance until the last page is turned.”—Chuck Wendig, New York Times bestselling author of Blackbirds J is a student at a school deep in a forest far away from the rest of the world. J is one of only twenty-six students, all of whom think of the school's enigmatic founder as their father. J's peers are the only family he has ever had. The students are being trained to be prodigies of art, science, and athletics, and their life at the school is all they know—and all they are allowed to know. But J suspects that there is something out there, beyond the pines, that the founder does not want him to see, and he's beginning to ask questions. What is the real purpose of this place? Why can the students never leave? And what secrets is their father hiding from them? Meanwhile, on the other side of the forest, in a school very much like J's, a girl named

K is asking the same questions. J has never seen a girl, and K has never seen a boy. As K and J work to investigate the secrets of their two strange schools, they come to discover something even more mysterious: each other. Praise for Inspection “Creepy. . . a novel whose premise is also claustrophobic and unsettling, but more ambitious than that of Bird Box . . . Inspection is rich with dread and builds to a dramatic climax.”—The Washington Post “This unlikely cross between 1984 and Lord of the Flies tantalizes.”—Kirkus Reviews “Malerman builds a striking world. . . . As he did in Bird Box, Malerman’s crafted an irresistible scenario that’s rich in possibility and thematic fruit. . . . Where [Bird Box] confined us behind a blindfold, Inspection rips it off.”—The A. V. Club “A must read . . . It’s a wonderful thing, digging into a new Josh Malerman novel—no idea what to expect, no clue where his twisted mind is going to take you.”—Cemetery Dance

Inspect and Protect Keith Swift, Ph.D,2018-10-16 Inspect and Protect was written as a protocol for avoiding litigation, for building inspectors. It is comprised of dozens of essays that were written and published in various magazines, in which inspectors were warned about the threat that litigation poses to their livelihoods. If all litigation was fair and honest there would be no need for concern, but it is not, as this book documents with actual case histories. And, unfortunately, the threat is growing. The good news is that it takes very little effort for inspectors to protect themselves; it is simply a matter of understanding the threat, and then making a few fundamental changes in the way they inspect and report on properties.
