If you have a smartphone, then you are ready to create and build an audience for your brand or business. You have the technology and this book will give you the knowledge and practical skills to use it. Smartphone Smart Marketing is the follow-up book to the successful title Smartphone Media Production. It is written by award-winning filmmaker, professional

digital marketer and content creator Robb Wallace. Robb has over sixteen years of experience in the field as well as an award-winning degree in Broadcast Production. In 2016 Smartphone Media Production showed its readers how to plan, capture, edit and distribute content (branded photography, audio, video and live streams) with only their phones. In this updated and fully revised version, Robb is back with even more great content including chapters on content marketing, social media channels and social media strategies. Who is this book for? It is for people who; Don't know how to create content to market their brand. Don't have the funds for a marketing manager but are willing to put in the hard work and learn the skills. Don't have a big budget for expensive things like promo videos, marketing images, social media campaigns. Don't know where to start when launching a new business or product. Have tried and failed to create engaging content for social media and are looking for a guide. Aspire to be a social media influencer. Wish to enter employment as a marketing professional. Interested in digital marketing. Need real-world digital skills to grow their business. Are interested in entrepreneurial skills. Are looking to create better images, videos or live streams. So if you want a

solid, no-nonsense, practical overview to content marketing and media production, using only your smartphone, Smartphone Smart Marketing is the book for you. Peter Shankman "This book is fantastic and would highly recommend it for anyone starting to get into making videos on their phone." Stewart Richardson professional photographer. "This book has helped me increase my understanding and develop some really good strategies on maximising the use of smartphones and social media in a variety of ways, from personal use through to improving business reach. Excellent stuff!" Amazon. "So impressed I hired him" Peter Syme adventure specialist and business owner. "As a self-employed business owner, keeping up with changes in technology can be overwhelming, I found this book full of great information, presented in a clear and practical way – full of advice and resources to keep you on your toes." Chris Wain Unique Adventure Tours Scotland. "I am a gent of a certain age and have had to

embrace technology and the Internet as an adult and not something that I have grown up with or was taught at school. I run a Facebook page and a small stall making and selling custom props and toys and wanted to take things to the next level and having no experience in media production this sounded perfect. From my perspective the book is full of all the basic information I needed to get started making the most of my Facebook page and filming video, taking photographs and getting them out there on social media to get the most impact. Then the book is also full of everything else needed to take things even further, how to follow up on the social media interest and even loads of information coming from a business point of view which I'm sure I will use down the line as I take things further. Overall this book had everything I needed to get me up and running on social media, producing what I feel is way better quality content than I could have ever imagined I was capable of and all with a single piece of hardware, my Smartphone, it's amazing." UnMarketing Scott Stratten, Alison Stratten, 2016-10-10 UnMarket to build trust and make lifelong customers! In 2009, Scott Stratten and Alison Stratten wrote the bestselling *UnMarketing: Stop Marketing, Start Engaging* and began a journey that would take them around the world sharing their message of engagement with corporations, entrepreneurs, and students. They are now back with this second edition, because Everything has Changed and Nothing is Different, with all the brilliance of the first edition, plus new content and commentary to reflect the rapidly changing landscape we all live, buy, and work in today. For generations, marketing has been hypocritical. We've been taught to market to others in ways we hate being marketed to (cold-calling, flyers, ads, etc.). So why do we still keep trying the same stale marketing moves? *UnMarketing* shows you how to unlearn the old ways and consistently attract and engage the right customers. You'll stop just pushing out your message and praying that it sticks somewhere. Potential and current customers want to be listened to, validated, and have a platform to be heard-especially online. With *UnMarketing*, you'll create a relationship with

your customers, and make yourself the logical choice for their needs. We know you've been told to act like other people, talk like other people, and market like all the people, but it is time for you to unlearn everything and start to UnMarket yourself. UnMarketing includes the latest information on: Idea Creation, Viral Marketing and Video, Marketing to Millennials, Authenticity, Transparency and Immediacy, Ethics and Affiliates, Social Media Platforming, UnPodcasting, Word of Mouth, Customer Service, Consumer Advocacy and Leadership. With examples of what to do, and what not to do, from small business right up to worldwide corporations in areas such as real estate, travel, service, retail, and B2B.
