Sell Digital Download at Zero Cost Dina Nath Jha Dinker,2023-05-05 Digital downloads have become increasingly popular over the years, providing an easy and efficient way for people to access digital content. From music and movies to software and e-books, digital downloads offer many benefits over traditional physical media, such as convenience, accessibility, and affordability. However, creating and selling digital downloads can be challenging and expensive, especially for small businesses and independent creators. In this book, we will explore various strategies for selling digital downloads at zero cost, enabling you to start and grow your digital download business with minimal investment. In this book, I will explain how to set up a free e-store, receive payment from customers across the world, and provide download link to customers who make payment. I will also explain a second way to sell digital downloads. You can use your email, social media pages and blog to sell digital downloads. When a customer makes a purchase, download link will be automatically sent to the customer. In both cases, you will incur zero cost in setting up the facility. Once you set up the facility (e-store, blog, social media post, email), you do not have to manually send the product to the customer. Entire customer's purchase journey will be automated. If a customer makes a payment, download link will automatically be sent to the customer and payment will be credited to your account. What more, you will have complete control over your store and you will not be paying any monthly fee, subscription fee or commission to anyone. This book will help you sell your digital downloads at no cost and without manual intervention. Set up your own free e-store to sell music, e-books, software and other digital products. Sell on blog, email, social media and forums. Happy Selling!
