Everything, All the Time, Everywhere Stuart Jeffries, 2022-09-27 A radical new history of a dangerous idea Post-Modernity is the creative destruction that has shattered our present times into fragments. It dynamited modernism which had dominated the western world for most of the 20th century. Post-modernism stood for everything modernism rejected: fun, exuberance, irresponsibility. But beneath its glitzy surface, post-modernism had a dirty secret: it was the fig leaf for a rapacious new kind of capitalism. It was also the forcing ground of the 'post truth', by means of which western values got turned upside down. But where do these ideas come from and how have they impacted on the world? In his brilliant history of a dangerous idea, Stuart Jeffries tells a narrative that starts in the early 1970s and continue to today. He tells this history through a riotous gallery that includes David Bowie, the Ipod, Frederic Jameson, the demolition of Pruitt-Igoe, Madonna, Post-Fordism, Jeff Koon's 'Rabbit', Deleuze and Guattari, the Nixon Shock, The Bowery series, Judith Butler, Las Vegas, Margaret Thatcher, Grand Master Flash, I Love Dick, the RAND Corporation, the Sex Pistols, Princess Diana, the Musee D'Orsay, Grand Theft Auto, Perry Anderson, Netflix, 9/11 We are today scarcely capable of conceiving politics as a communal activity because we have become habituated to being consumers rather than citizens. Politicians treat us as consumers to whom they must deliver. Can we do anything else than suffer from buyer's remorse?

Netflixd Gina Keating, 2012-10-11 Netflix has come a long way since 1997, when two Silicon Valley entrepreneurs, Marc Randolph and Reed Hastings, decided to start an online DVD store before most people owned a DVD player. They were surprised and elated when launch-day traffic in April 1998 crashed their server and resulted in 150 sales. Today, Netflix has more than 25 million subscribers and annual revenues above \$3 billion. Yet long-term success-or even survival-is still far from guaranteed. Journalist Gina Keating recounts the absorbing, fast-paced drama of the company's turbulent rise to the top and its attempt to invent two new kinds of business. First it engaged in a grueling war against video-store behemoth Blockbuster, transforming movie rental forever. Then it jumped into an even bigger battle for online video streaming against Google, Hulu, Amazon, and the big cable companies. Netflix ushered in such innovations as DVD rental by mail, a patented online queue of upcoming rentals, and a recommendation algorithm called Cinematch that proved crucial in its struggle against bigger rivals. Yet for all its success, Netflix is still a polarizing company. Hastings is often heralded as a visionary-he was named Business Person of the Year in 2010 by Fortune-even as he has been called the nation's worst CEO. Netflix also faces disgruntled customers after price increases and other stumbles that could tarnish the brand forever. The quest to become the world's portal for premium video on demand will determine nothing less than the future of entertainment and the Internet. Drawing on extensive new interviews and her years covering Netflix as a financial and entertainment reporter, Keating makes this tale as absorbing as it is important.
