Learning Android Marko Gargenta,Masumi Nakamura,2014-01-09 Want to build apps for Android devices? This book is the perfect way to master the fundamentals. Written by experts who have taught this mobile platform to hundreds of developers in large organizations and startups alike, this gentle introduction shows experienced object-oriented programmers how to use Android's basic building blocks to create user interfaces, store data, connect to the network, and more. Throughout the book, you'll build a Twitter-like application, adding new features with each chapter. You'll also create your own toolbox of code patterns to help you program any type of Android application with ease. Become familiar with the Android platform and how it fits into the mobile ecosystem Dive into the Android stack, including its application framework and the APK application package Learn Android's building blocks: Activities, Intents, Services, Content Providers, and Broadcast Receivers Create basic Android user interfaces and organize UI elements in Views and Layouts Build a service that uses a background process to update data in your application

Playing with Media Wesley A. Fryer,2011-08-01 We need to play with media to become more effective communicators. This book was written to inspire and empower you, as a creative person, to expand your personal senses of digital literacy and digital agency as a multimedia communicator. As you learn to play with digital text, images, audio and video, you will communicate more creatively and flexibly with a wider variety of options. Although written primarily for educators, anyone who is interested in learning more about digital communication will learn something new from this book. As children, we learn to progressively make sense of our confusing world through play. The same dynamics apply to us as adults communicating with new and different media forms.

Copyright Clarity Renee Hobbs,2010-04-07 This jargon-free guide clarifies principles for applying copyright law to 21st-century education, discusses what is permissible in the classroom, and explores the fair use of digital materials.

Teach Yourself VISUALLY LinkedIn Lance Whitney,2014-07-22 A complete visual guide to the world's largest professional network Teach Yourself VISUALLY LinkedIn is your guide to becoming a part of the world's largest professional network, with over 259 million users across 200 countries and territories. Using full-color screen shots, this visually rich guide provides step-by-step instructions that show you how to get the most out of the myriad tools and features LinkedIn has to offer. The book is organized for quick, easy navigation, and written in clear, concise language that allows you to get up to speed quickly. LinkedIn has become the premier destination both for those seeking employment, and those looking to employ others. A professional take on social media, the site allows users to post resume-like profiles and network with others in their fields, connecting with past, present, and potentially future colleagues. LinkedIn is growing at a rate of two users per second, making it a major hub and networking tool for those looking to establish, maintain, or grow a professional network. This guide discusses the purpose and benefits of LinkedIn, and shows you how to set up a professional profile that will stand out from the crowd. Topics include: Setting up your account Adding endorsements and recommendations Networking

with colleagues Posting status updates Showing off your strengths, talents, and accomplishments is an important part of networking, and interacting with others in your industry is an excellent way to get your name out there and make new contacts. LinkedIn facilitates both, allowing you to broaden your reach without leaving your desk. Teach Yourself VISUALLY LinkedIn helps you get on board today.

Self-Efficacy in Changing Societies Albert Bandura,1997-05-13 The volume addresses important issues of human adaptation and change.

Handbook of Self-determination Research Edward L. Deci,Richard M. Ryan,2004 Over the past twenty years an increasing number of researchers from various universities have been investigating motivational issues underlying the self-regulation of behavior. Using either Self-Determination Theory or closely related theoretical perspectives, these researchers have performed laboratory experiments, as well as field studies in a variety of real-world settings. In April 1999 thirty of these researchers convened at the University of Rochester to present their work, share ideas, and discuss future research directions. This book is an outgrowth of that important and fascinating conference. It summarizes the research programs of these social, personality, clinical, developmental, and applied psychologists who have a shared belief in the importance of self-determination for understanding basic motivational processes and for solving pressing real-world problem. Deploy Empathy Michele Hansen,2022-02-11 Deploy Empathy will help you learn the skill of interviewing your customers-learning to truly listen to them-so that you can pull out their hidden needs, desires, and processes.Empathy is a skill that anyone can learn. Armed with the tactics you'll learn in this book and the toolbox of scripts and phrases, you'll be able to sell more of your existing product, build the right features that will delight your customers, and stop churn in its tracks.By the end of this book, you'll be able to interview customers and potential customers with confidence.A smart look at one of business's most overlooked but critical topics. - Morgan Housel, Partner at Collaborative Fund and Author of the International Best-Seller The Psychology of MoneyDeploy Empathy is a rare treat: a deep dive, by an expert practitioner, into customer

interviews. In addition to strategic exhortations to keep the interview focused on the customer, the tactical advice about phrasing to draw out their opinions and emotions without biasing them is top notch. I'd heartily recommend it to anyone who builds or sells.Deploy Empathy is, far and away, the best book I've ever read on user interviews, filled with tactical insights that were new even having done hundreds of them. - Patrick McKenzie (aka patio11), Founder, Kalzumeus Software
