### **The Diversity of Irony** Angeliki Athanasiadou, Herbert L.

Colston, 2020-02-24 Although the figure of irony has enjoyed extensive attention through important contributions to the diverse literatures addressing figurative thought and language, it still remains relatively in the background compared to other figures such as metaphor and metonymy. The present volume, together with a 2017 collection by Angeliki Athanasiadou and Herbert L. Colston, aims to the further exploration of verbal and situational irony, its gestural accompaniments, its comprehension and interpretation, its constructional diversity and its cooperation with other figures such as metaphor and hyperbole. The present volume is a highly interesting collection of chapters dealing with both theoretical investigations and descriptive applications of a central figure pervading human thought and language. Its aim is to draw more attention to irony's diversity and its concomitant connections to other aspects of figurativeness.

### **Islam and the Governing of Muslims in France** Frank

Peter, 2021-01-28 Will Islam be able to adapt to France's secularity and its strict separation of public and private spheres? Can France accommodate Muslims? In this book, Frank Peter argues that the debate about "Islam" and "Muslims" is not simply caused by ignorance or Islamophobia. Rather, it is an integral part of how secularism is reasoned. *Islam and the Governing of Muslims in France* shows that understanding religion as separate from other aspects of life, such as politics, economy, and culture, disregards the ways religion has operated and been managed in "secular" societies such as France. This book uncovers the varying rationalities of the secular that have developed over the past few decades in France to "govern Islam," in order to examine how Muslims engage with the secular regime and

contribute to its transformation. This book offers a close analysis of French secularism as it has been debated by Islamic intellectuals and activists from the 1990s until the present. It will influence the study of secularism as well as the study of Islam in the French Republic, and reveal new connections between Islamic traditions and secular rationalities.

**Arab Worlds Beyond the Middle East and North Africa** Mariam F. Alkazemi, Claudia E. Youakim, 2021-06-17 By providing migration experiences of Arabs to various nation-states, this volume examines socio-historical factors that allowed Arab communities to settle in several places, including Latin America, Singapore, the United States, Europe and Africa. It bridges several fields to provide context that is useful in today's globalized world.

**Multijuralism** Albert Breton, Anne des Ormeaux, Katharina Pistor, Pierre Salmon, 2017-11-28 At one level of generality, multijuralism is the coexistence of two or more legal systems or sub-systems within a broader normative legal order to which they adhere, such as the existence of civil and common law systems within the EU. However, at a finer level of analysis multijuralism is a more widespread or common phenomenon and a more fluid reality than the civil law/common law distinction suggests. The papers in this study are therefore rooted in the latter frame of reference. They explore various types of multijural manifestations from the harmonizing potential of international treaties to indigenous law and the use of hard and soft pluralism. In addition, the authors consider the external events which are not part of the processes of multijural adjustment but which serve to influence these processes. Included among these important external events are European integration, the growing importance accorded to human rights, the international practice of

law, the growth of the Internet, the globalization of markets and the flow of immigrants. This volume represents some of the most current thinking in the area of multijuralism and is essential reading for anyone interested in the coexistence of legal systems or sub-systems.

**The Oxford Handbook of Montaigne** Philippe Desan, 2016-10-14 In 1580, Michel de Montaigne (1533-1592) published a book unique by its title and its content: *Essays*. A literary genre was born. At first sight, the *Essays* resemble a patchwork of personal reflections, but they engage with questions that animate the human mind, and tend toward a single goal: to live better in the present and to prepare for death. For this reason, Montaigne's thought and writings have been a subject of enduring interest across disciplines. This Handbook brings together essays by prominent scholars that examine Montaigne's literary, philosophical, and political contributions, and assess his legacy and relevance today in a global perspective. The chapters of this Handbook offer a sweeping study of Montaigne across different disciplines and in a global perspective. One section covers the historical Montaigne, situating his thought in his own time and space, notably the Wars of Religion in France. The political, historical and religious context of Montaigne's *Essays* requires a rigorous presentation to inform the modern reader of the issues and problems that confronted Montaigne and his contemporaries in his own time. In addition to this contextual approach to Montaigne, the Handbook also establishes a connection between Montaigne's writings and issues and problems directly relevant to our modern times, that is to say, our age of global ideology. Montaigne's considerations, or essays, offer a point of departure for the modern reader's own assessments. The *Essays* analyze what can be broadly defined as human nature, the endless process by which the individual tries to impose opinions upon others

through the production of laws, policies or philosophies. Montaigne's motto -- What do I know? -- is a simple question yet one of perennial significance. One could argue that reading Montaigne today teaches us that the angle defines the world we see, or, as Montaigne wrote: What matters is not merely that we see the thing, but how we see it.

*Global Equity in Administration* Susan T. Gooden, 2020-07-14

Governments around the world face the challenge of espousing principles of fairness but practicing inequity in their administration. Issues of equity and justice are fundamental concerns of government, and thus to public administrators, who constantly struggle to evaluate a country's social climate and ensure equity in governance. Such evaluation is unlikely to occur in a serious way, however, if government actors are fundamentally too uncomfortable to directly engage the topic. The result, this book argues, is a context of 'nervousness,' which unless squarely acknowledged and addressed, can become debilitating and thwart progress toward achieving social equity. This volume explores and expands our understanding of the concept of nervousness in the administration of government services around the world, demonstrating the ways in which such an emotional and physical reaction can debilitate government actions that are needed to promote social equity and justice. Each of the chapters in this edited volume focuses on a single country and examines a specific nervous area of government, highlighting important historical and political considerations, as well as specific evidence of promising progress. It considers the complexity of nervous areas of governments around the world, while identifying encouraging approaches and initiatives. *Global Equity in Administration* is required reading for all practicing and aspiring public servants concerned with fair and equitable provision of public services around the world.

**CLAWS Journal** V. K. Ahluwalia,P. R. Kumar,P. K.

Chakravorty,Vivek Verma,Manjari Singh,Neeraj Trivedi,Kartik Bommakanti,Abhinav Pandya,Narender Kumar,Amrita Jash,2021-06-30 The articles in CLAWS Journal (Summer 2021) mainly assess the changing nature of India's national security paradigm from the vantage of global, regional, and internal security threat perspectives and offer insights on what needs to be done to safeguard India's national interests—both regionally and globally.

**Labour Migration in Europe** G. Menz,A. Caviedes,2010-10-27

Examining the new realities of economic immigration to Europe, this book focuses on new trends and developments, including the rediscovery of economic migration, legalization measures, irregular migration, East-West flows, the role of business and employer associations, new positions amongst trade unions, and service sector liberalization.

*Medicine and Ethics in Times of Corona* Martin Woesler,Hans-

Martin Sass,2020-11 The Corona pandemic kills people, endangers families, friends, communities, companies, institutions, societies, economies and global networks. It brings about triage, unemployment, social distancing, and home schooling. Countries respond differently, often set aside civil and basic human rights. Families and friends cannot get together, visiting the sick, nor attending funerals. This pestilence is clearly a cultural, economic and political disease. 40 leaders in medical and sociological research, in politics, religion, and consulting from 24 countries offer diverse, sometimes controversial answers, collected by Martin Woesler and Hans-Martin Sass .

*Radicalized Loyalties* Fabien Truong,2018-06-11 There is

widespread concern today about the “radicalization” of young muslim men, and the deprived areas of Western cities are believed to have

become breeding grounds of home-grown extremism. But how do young Muslims growing up in the cities of the West really live? This book takes us beyond the rhetoric and into the housing estates on the outskirts of Paris to meet Adama, Radouane, Hassan, Tarik, Marley, and a shadowy figure whose name suddenly and brutally became known to the world at the time of the Charlie Hebdo shootings: Amédry Coulibaly. Seeing Amédry through the eyes of close friends and other young Muslim men in the neighbourhoods where they grew up, Fabien Truong uncovers a network of competing loyalties and maps the road these youths take to resolve the conflicts they face: becoming Muslim. For these young men, Islam stands, often alone, as a resource, a gateway – as if it were the last route to “escape” without betrayal and to “fight” in a meaningful and noble way. Becoming Muslim does not necessarily lead to the radicalized “other”. It is more like a long-distance race, a powerful reconversion of the self that allows for introspection and change. But it can also lead to a belligerent presentation of the self that transforms a dead-end into a call to arms.

**Process Engineering Renewal 1** Éric Schaer, Jean-Claude André, 2020-03-31 Process engineering emerged at the beginning of the 20th Century and has become an essential scientific discipline for the matter and energy processing industries. Its success is incontrovertible, with the exponential increase in techniques and innovations. Rapid advances in new technologies such as artificial intelligence, as well as current societal needs – sustainable development, climate change, renewable energy, the environment – are developments that must be taken into account in industrial renewal. Process Engineering Renewal 1 – the first volume of three – focuses on training, demonstrating the need for innovation in order for the field to have a framework that is sustainable, in a highly

changeable world.

*Polygamy's Rights and Wrongs* Gillian Calder, Lori G.

Beaman, 2013-12-01 Assumptions about the harmful nature of polygamy have left little room for debate, with monogamy coming to represent a hallmark of advanced societies, and polygamy the immoral alternative. Yet in this volume, eleven scholars ask whether this condemnation is justified by examining, among other perspectives, the lived experiences of polygamous families. In essays that fearlessly face difficult questions of choice, dignity, and love, the authors seek to complicate a conversation that is more often simplified. Thoughtful and persuasive, *Polygamy's Rights and Wrongs* is both a close consideration of polygamy and a challenging reflection on the ways in which we value family and intimacy.

**Elites, Policies and State Reconfiguration** William

Genieys, Mohammad-Saïd Darviche, 2023-11-24 This book examines the history of the French welfare state from the mid-twentieth century to the present day. The French social security system has changed profoundly over the last few decades. The Bismarkian model of governance and social protection inherited from the Second World War has progressively faded away in favor of a reinforcement of the state's capacity to intervene on policies and the implementation of national health insurance coverage. In order to understand this major transformation, this book draws on rich original sources to offer a historical and sociological perspective on elite policymakers and policy change. In doing so, it identifies correlations between the changing social backgrounds and career paths of elites in charge of social insurance policies since the 1940s, and the development of health policy programs. It will appeal to all those interested in public policy, health policy, social studies and French history and politics.

*L'homme et le climat* Dominique Dron,2002

**The Future of Think Tanks and Policy Advice Around the World** James McGann,2021-01-15 At a moment when both think tanks and experts are being questioned, significant policy and technology disruptions have called into question the value and efficacy of policy advice. Within that context, Dr. McGann launched this book to examine the future of think tanks and policy advice around the world with a series of authoritative reflections written by the presidents of some of the leading think tanks in every region of the world. The book explores the challenges think tanks face today in an information rich and highly competitive operating environment that includes: the impact of technology, big data and artificial intelligence, competition from advocacy groups and public relations firms, increased polarization of politics and major changes in how think tanks are funded.

*Reform, Revolution and Crisis in Europe* Bronwyn Winter,Cat Moir,2019-10-31 Today Europe stands at a crossroads unlike any it has faced since 1945. Since the 2008 financial crash, Europe has weathered the Greek debt crisis, the 2015 refugee crisis, and the identity crisis brought about by Brexit in 2016. The future of the European project is in doubt. How will Europe respond? Reform and revolution have been two forms of response to crisis that have shaped Europe's history. To understand Europe's present, we must understand that past. This interdisciplinary book considers, through the prism of several landmark moments, how the dynamics of reformation and revolution, and the crises they either addressed or created, have shaped European history, memory, and thought.

OECD Economic Surveys: France 2013 OECD,2013-03-19 OECD's 2013 Economic Survey of France examines recent economic

developments, policies and prospects and includes special chapters covering taxes and transfers and the economic situation of young people.

**China and the Indo-Pacific** Swaran Singh, Reena

Marwah, 2023-02-14 The book emanates from the geopolitical and geo-economic churning and transformations set in motion by the unprecedented economic rise of China resulting in its expanding political influence across the region and the world. In both the economic and the security realms, the United States and China alike are increasingly seen contesting in shaping the Indo-Pacific regional order to their own advantage. This book unfolds the contours and dimensions of China's responses to various multilateral initiatives of the US and its friends and allies like Japan, Australia, and India and, to some extent, even ASEAN. While China's medium-term strategy envisages a non-hostile external environment in order to focus on domestic priorities; reducing dependence of littoral nations of the Indo-Pacific region on America while increasing their engagement and dependence on China. China's expanding reach and influence overseas has resulted in US-led initiatives being China-focused inviting a response from China where adverse reactions have become increasingly palpable.

**Populists and the Pandemic** Nils Ringe, Lucio Rennó, 2022-08-26

Populists and the Pandemic examines the responses of populist political actors and parties in 22 countries around the globe to the COVID-19 pandemic, in terms of their attitudes, rhetoric, mobilization repertoires, and policy proposals. The responses of some populist leaders have received much public attention, as they denied the severity of the public health crisis, denigrated experts and data, looked for scapegoats, encouraged protests, questioned the legitimacy of

liberal institutions, spread false information, and fueled conspiracies. But how widespread are those particular reactions? How much variation is there? What explains the variation that does exist? This volume considers these questions through critical analysis of countries in the Americas, Europe, Asia, and Africa, by leading experts with deep knowledge of their respective cases. Some chapters focus on populist parties, others on charismatic populist leaders. Some countries examined are democracies, others autocracies. Some populists are left wing, others right wing. Some populists are in government, others in opposition. This variation allows for a panoramic consideration of factors that systematically influence or mediate populist responses to the pandemic. The book thus makes a unique contribution to our understanding of the intersection between two of the most pressing social and political challenges of our time. The book will be of interest to all those researching populism, extremism, and political parties and those more broadly interested in political science, public policy, sociology, communications, and economics.

**The EU as a Global Digital Actor** Elaine Fahey, 2022-09-08 This is the first book-length treatment of the advancement of EU global data flows and digital trade through the framework of European institutionalisation. Drawing on case studies of EU-US, EU-Japan and EU-China relations it charts the theoretical and empirical approaches at play. It illustrates how the EU has pioneered high standards in data flows and how it engages in significant digital trade reforms, committed to those standards. The book marks a major shift in how institutionalisation and the EU should be viewed as it relates to two of the more extraordinary areas of global governance: trade and data flows. This significant book will be of interest to EU constitutional lawyers, as well as those researching in the field of IT and data law.
